FORWARDING.

1848.

PEOPLE'S OTTAWA & RIDEAU FORWARDING LINE.

VIA OTTAWA AND RIDEAU CANAL.

THE Subscribers beg to notify the public generally, that they intend establishing a line of first class Steamers and Barges, to ply on the Ottawa and Hillsburgh route, and they will be prepared upon the opening of the navigation next Spring, to forward property confided to their care, with promptitude and despatch.

The necessity for the organization of such an establishment, having in view the performances more particularly of freightage to and from places on the Ottawa and Rideau route, becomes apparent from the fact, that in consequence of the great transit of the West being diverted from these waters (to those of the St. Lawrence,) many Houses have vacated this channel altogether, thereby reducing the means of transport, quite inadequately to the requirements of this section of the country.

The Subscribers would beg to remark that a daily departure from Montreal may at all times be depended upon, and that the greatest care will be taken in sending property at the various stations upon the route, agreeably with instructions and direction, and that produce received upon the upward passage destined for Montreal, will not be unloaded till after its arrival at that Market, a practice not hitherto attended to.

Tariff of freights &c., will be published at a subsequent period.

DR. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This Extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease, it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons

10,000 *Cases of General Debility and want of Nervous Energy.*

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, trembling sensations, premature decay and decline, tendering towards that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL.

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Painful Expectoration, Pain in the Side, &c., are been and can be cured.

SPITTING BLOOD.

NEW YORK, April 2, 1847.

DR. TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night Sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and here has a wonderful change been wrought in me. I am now able to walk all over the city. I praise my blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,
WM. RUSSELL,
65 Cedar-st.

RHEUMATISM.

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe chronic cases are weekly eradicated by its extraordinary virtues.

James Cummings, Esq., one of the Assistants in the Quarter Master General's Office, and the gentleman spoken of in the following note.

BLACKWELL'S ISLAND, Sept. 13, 1847.

DR. TOWNSEND—*Dear Sir:* I have suffered terribly for nine years with the rheumatism: considerable of the time I could not get asleep, or walk. I had most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good—I am so much better—Indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours, respectfully,
JAMES CUMMINGS.

FITS! FITS!! FITS!!!

Dr. Townsend, not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable farmer in Westchester County:—

FORDHAM, August 13, 1847.

DR. TOWNSEND—Dear Sir: I have a little girl seven years of age, who has been seven years afflicted with fits; we tried almost everything for her, but without success; at last, though we could find no recommendation in your column for cases like hers, we thought as she was in very delicate health, we would give her some of your Sarsaparilla and are very glad we did for it not only restored her strength, but she has had no return of the fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful.

Yours, respectfully,
JOHN BUTLER, Jun.

FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Falling of the Womb, Costiveness, Piles, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general Prostration of the system, no matter whether the result of inherent causes, causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and lassitude, from taking it, at once become robust and full of energy and its influence. It immediately counteracts the great nervousness of the female frame, which is the great cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with healthy offspring.

TO MOTHERS AND MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed several years by using this medicine. Nor is it less valuable for those approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the diseases to which women are subject.

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—not so far stimulating the system as to produce a subsequent relaxation, which is the cause of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system, and relieving the child, suffering attendant upon childbirth ever discovered. It strengthens both the mother and child, enriches the food, these who have used it think indispensable. It is highly useful both before and after confinement, as it prevents disease, and is invaluable in Costiveness, Pains and Cramps, Swelling of the Feet, Despondency, Headache, Vomiting, Pain in the Back and Limbs, Faintness, Hemorrhage, and in regulating the secretions and equalizing the circulation of the blood. The great beauty of this medicine is, it is always safe, and the most delicate use it most freely, very few cases require any other medicine, successful, some a little Castor Oil, or Magnesia, is useful. Exercise in the open air, and light food, with this medicine, will always ensure a safe and easy confinement.

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of other preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and obstruct the circulation, which, when nature is not thwarted by disease or powder, or the skin influenced by the alkalies used in the soaps, beautifies itself by its own production in the "lily and the rose" as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of *nature—not of powder or soap.* If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paints, and uses cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes that is fascinating.

This is why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexions, they should use Dr. Townsend's Sarsaparilla.—Thousands who have tried it are more than satisfied, are delighted. Ladies of every station, crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr. Townsend's Sarsaparilla, have invariably called their stuff a *great Remedy for Females, &c. &c.,* and have copied our bills and filled it with reliance to the complaints of women, word for word—other men who put up medicine, have since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills &c., are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN

Dr. Townsend—Dear Sir: I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under deep obligation.

Yours, respectfully,
ISAAC W. CRAIN, 106 Wooster-st.

New York, March 1, 1847.

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from Physicians in different parts of the Union.

This is to certify, that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations in the market.

DR. BARKER'S LAXATIVE PILLS.

FOR BILIOUS COMPLAINTS, PAINS IN THE HEAD.

Giddiness, Sickness, Jaundice, Obstructions, Confinement of the Bowels, &c. &c.

The great demand for these Pills is a sufficient guarantee for their usefulness in the above complaints. Numerous testimonials could be given if necessary, from persons of the highest respectability, who have used them. *No Family should be without them in cases of sudden Sickness.*

OF the numerous diseases to which the human family is liable, there is scarcely one, the symptoms of which are not seriously aggravated by a confined state of the Bowels, and to this alone many owe their origin and continuance. The preserving the alimentary Canal free from obstruction is a point of such primary importance, that every degree of neglect is followed by more or less of inconvenience or suffering. When habitual costiveness prevails the cheerful vigor of health is soon impaired, sometimes by slow degrees, and at other times more rapidly, disease make their inroads on the constitution; and in numberless instances, particularly where the habits are sedentary, or where free living is indulged, permanent ill health is the painful result. It must be obvious to the most superficial observer, that when the functions of nature now alluded to are not performed with due regularity, assistance must be obtained from art. Aperient Medicines then become indispensably necessary, and must be had recourse to until the necessity for such aid ceases.

But it is a question of considerable importance, what Laxative shall be employed? The list of Aperient Medicines is numerous, but their effects on the system vary considerably; some exert their influence chiefly on the cutaneous vessels, or on some part of the bowels only, whilst the action of others extends more or less to the whole of the intestinal canal. The latter class of aperients is evidently the best adapted to obviate the habitual confinement of the Bowels, as they apply that additional excitement, which nature then requires to assist her in the performance of her accustomed functions.

It is precisely on this latter principle that the Pills now offered to the public are formed; and as their activity can be increased or lessened, merely by taking a larger or smaller quantity, they may only furnish an Aperient Medicine proper for general use in a Family, but are also well calculated to answer most of the purposes for which purgative remedies are necessary.

The Pills are not, however, recommended as a SPECIFIC for the cure of ALL diseases; such preposterous statements are worse than ridiculous, and are only put forth for deception. But they will prove a Valuable Remedy for that confined state of the Bowels which lays the foundation of much suffering, for those occasional obstructions to which all are liable, and for all those disorders which arise from an overloaded state of the stomach and alimentary canal. Consequently decided benefit will be derived from their use in Giddiness and Pains in the Head, accompanied with Nausea, or Sickness; in all Head-Aches where Costiveness prevails; in Fulnesses, Bilious Attacks, the commencement of Cholic, the early stages of Jaundice, and in promoting the expulsion of Worms.—They require no confinement or change in the diet—moderate exercise will assist their operation—and experience has proved that, as an Aperient, they are safe and efficacious, may be taken by adults and children, and also in every stage of pregnancy. To children of five years of age and upwards, they may be readily given in pulp of apple, orange, or jelly, and thus disguised, they are much more easy of exhibition than Powders or other disagreeable medicines.

Prepared and sold ONLY at the Atheneum Book Store, Kingston.

Sold in Boxes at 1s. 3d. and 2s. 6d. each.

☞ The chief object of the Proprietor in advertising these Pills, is to make them generally useful in a country where Dispensaries are scarce; with this object, and to avoid any charge of Imperious Recipes, containing their component parts, inserted on each Box, whereby Medical Men may use them, if they see fit, and persons at a distance can get them prepared at any Apothecary's Shop.

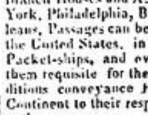
Kingston, June 29th, 1847.

To the Canadian Public.



HARNDEN & CO. beg to inform those having friends in Europe about to Emigrate to America, that they have made the fullest and most extensive arrangements for the present season, and that, on application to their Branch Houses and Agencies in Boston, New York, Philadelphia, Baltimore, and New Orleans, Passages can be secured to any Port in the United States, in first-class vessels and Packet-ships, and every information given them requisite for their safe and most expeditious conveyance from England and the Continent to their respective ports of destination.

HARNDEN & CO. appeal with great confidence to the vast number of Passengers who have in past years shipped under their instructions, to certify to the vigilent care bestowed upon those thus entrusting themselves to their protection. In no instance have they ever failed to redeem punctually the pre-paid Passage Tickets issued by their American Houses, notwithstanding the high rates of passage which have frequently occurred in Ships by which the holders were forwarded; and they assure parties that the same confidence may be placed on any future engagement.

HARNDEN & CO. are the sole agents for Train & Co's Boston and Cope and Co.'s Philadelphia line of Packets from Liverpool, and in the selection of all their other Passenger ships, the greatest care is taken that they are such as to contribute the most to the comfort of the Passenger.

Parties desirous to transmit Money to any part of Europe, can be furnished with drafts at sight for £1 and upwards; and those wishing to transfer their property to America, can also be supplied with letters of credit on our British Establishments there. Hundreds of thousands of pounds sterling have thus been transmitted by us in perfect safety; the recipient thereby avoiding the risk of loss by accident, or otherwise, and realizing the full value of his property.

Passage can be secured to Quebec, as above at same prices.

For further information, which will be given either personally or by letter, apply to HARNDEN & Co, New York; HARNDEN & Co., Boston; or to
