FORM 4

CHEMISTRY — HON. — Earl Johnson 80, Marion Bibby 76.

PASS — Elda. Frook 58, Jackson Stewart 56, Mildred Whittaker 52.

FAIL — Harold Turner 19.

We wouldn't mind paying the $2.00 radio license if the government would eliminate the crooners.

Did you ever try a small ad. in The Flesherton Advance to help you sell anything? If you have never done so, try it and watch the quick results.

Would Miss Paper

A very pleasing letter was received on Monday from Mr. Henry Holman of Toronto, when he renewed for The Advance for another year. In his letter he states: "There are some things we have to do without this year, but do not want to drop the paper. We are always glad to see it coming in." We are pleased to renew Mr. Holman's paper as he has been a valued member of our reading public. Some local subscribers appear to think that the local paper is one that they can very well do without, but it might be that one advertisement inserted by a merchant as a bargain would pay for their paper easily. The local paper serves a place in a community that a daily is unable to fill and if its wings are clipped by a reduced subscription list it is unable to function in the proper manner.

A TYPICAL NORTHERN ONTARIO WOMEN'S INSTITUTE

The Orrville Women's Institute is typical of the local branches in the North country. This village, seventeen miles east of Parry Sound, has a Women's Institute which utilizes local talent to very good purpose at the regular monthly educational meetings, and it is usual for one of the local nurses to give nursing demonstrations from time to time. They provide wholesome social opportunities for their members and are rendering a splendid service to the community. Like the majority of the communities which support Women's Institutes in the north, they have this year been able to look after the needy, except for one poor family, for which large supplies were sent by an Institute in Old Ontario, and in addition, they spent $87.00 in providing linen for a hospital in the district. They also sent to the House of Refuge Christmas Gifts, and every new baby in the district is provided with a warm jacket and all persons who are ill in the township receive flowers, and some times other luxuries.

Should Check Fertilizer

This is the season for buying fertilizers and it is important that farmers should know how to protect themselves in making sure that they are delivered the kind and analysis of fertilizer which they purchase. The Federal Fertilizers Act requires that every fertilizer delivered to a farmer must be labelled with the guaranteed analysis in terms of nitrogen, phosphoric acid and potash. Therefore, the farmer should check the guaranteed analysis of the fertilizer when it arrives. If short one per cent nitrogen, it is worth about $2.50 a ton less than the purchase price and phosphoric acid and potash are worth about $1 for each per cent. Purchasers are advised to refuse acceptance of fertilizer which is not labelled precisely the same guaranteed analysis as that purchased. Should any farmer have reason to doubt the value of a fertilizer delivered him, he is advised to communicate with the nearest local inspector or the district representative of agriculture.

Brampton business men have set the Wednesday half holiday for the year from May 1 to the end of September.

Orillia has found it necessary to increase the tax rate by 11 mills, making the levy 58 mills this year. An overdraft of $46,000 was faced by this year's Council.

June 4th, 1932, will mark the one hundredth anniversary of Portsmouth penitentiary, Kingston. So far no plans have been made for an old boys reunion at the institution.

Tay, Oro, Matchedash and Medonte have agreed to reduce their road expenditure this year sufficiently to save $10,000.

Wasaga Beach is rapidly assuming a city air. Cottages will be numbered and a garbage collector appointed by Sunnidale council.

Excessive horse power under the engine hood is dangerous if not accompanied by corresponding horse sense under the hat.

Herbert Rowe, of Meaford, has an English coin dated 1572. It was dug up some years ago on the site of the old Meaford station on the hill.

While Wesley Bessey, of Orton, was leading a cow out of the stable with a rope she made a break to get away, throwing Mr. Bessey off his feet. In some manner the rope got fast to his arm with the cow dragging him around the yard. She then jumped the fence, and dislocated his arm at the shoulder, breaking the rope at the same time.

A young lady who had the tip taken off her nose in an accident was awarded $15,000 damages, her lawyer making the plea that she would find it hard to pass at face value.

De Valera, the stormy petrel of Irish politics, seems determined to continue turbulent. His demand to do away with the last vestige of British connection, the oath of allegiance, is likely to bring him in sharp contact with at least one-half of the Irish people. Cosgrave warns that such a move would be fatal to the trade of Ireland which is so dependent on English markets.

Premier Bennett made it plain that Canada is not going off the gold standard.

The old system of barter seems to be creeping back into trade again these days.

Mr. Alexander Burke, a former principal of Markdale High School, died at his home in Highgate on Sunday, March 6th, aged 77 years.

Gas tax is now six cents a gallon. We're glad it's an even figure because when it was five cents we always had to pay three cents anyhow on our half-gallon.
