To Bring C.F.A. Band Here Civic Holiday

A committee of the Flesherton Old Boys' and Girls' Association were in town on Saturday and met the local committee to make ararngements for the big picnic to be held here on Civic Holiday. The item under discussion was the employing of the Canadian Field Artillery band for the day. This is the same band that did such excellent work the time of the Old Home Week. It was decided that the band would be engaged and that Flesherton would pay half of the bringing the band to town. This will be a real attraction.

A drive is also to be commenced to gain members for the O. B. & G. The committee needs your support to carry on the good work. Won't you help? Make your plans now to fit in with the big picnic in Flesherton on Civic Holiday.

Eye Was Injured

Mr. John Ottewell of town met with a painful accident on Wednesday of last week. While working at a buzz-sawing a particle of bark struck him on the eyeball. He did not think much of the accident at the time, but it soon became very painful. An abscess had formed and he was forced to call on a physician, who sent him to Owen Sound to a specialist, who treated the eye electrically. He returned home the same day, but since then the eye has been very painful. It is hoped that the sight will not be permanently injured, but it is not certain yet what the result will be.

Farm Horses Come Back

The present low price of oats and other feeds in contrast with the higher costs of gas and oil required in tractor operation combine to indicate that the horse is rapidly regaining favor as a medium of farm power The next few years will likely see a revival in horse breeding and the use of heavy draft horses on the farms of Canada, both east and west. Under present conditions horses can be bred and reared cheaply and when they have reached working age, the charges for depreciation, fuel and repairs are surprisingly low, for the self-oiling engine has nothing whatever on the self-repairing heavy draft horses.
