C.P.R. Train Changes

The train schedule on the Walkerton—Saugeen branch of the C.P.R. has been revised. Mr. H. C. Grout, general superintendent, giving out the details.

Mr. Grout announced that the passenger train which has been operating from Walkerton to Saugeen and return each day at 2.50 p.m. and 9.55 p.m., will, after May 1, be cancelled and a mixed train will be operated, which will take care of the passenger express and freight business. One train will leave Walkerton at 1 p.m. and operate through at Orangeville at 7.45 a.m. and make connections with the Owen Sound-Toronto noon train along the line, arriving in Walkerton about 2 p.m.

Mr. Grout, who was assistant superintendent of this district when the Walkerton-Saugeen line was built in 1906 or 1907, primarily to transport cement, said that the C.P.R. had endeavored to give the towns on this line good service, but the time has come when traffic hardly warrants one train a day, whereas they intend to operate two.

Caught Large Trout

The trout fishing season was ushered in on Monday with cold weather, but it did not keep all the enthusiasts away from the search of the finny monster. Mr. Wm. Turney of town celebrated the season in a fit and proper manner by catching the best fish that we have heard of so far, and there will be few that will equal it during the summer. This trout was 18 inches in length and weighed exactly two pounds and 15 ounces. When first caught the water boiled with his attempts to break away and raced up and down in his frenzied efforts, but Bill, in a most expert way brought his catch to land. The scene of this big killing was in the hydro pond, to be exact the 8th line bridge, the scene of many memorable battles with the big fellows.

New V-8 Ford Shown

A demonstration of the new Ford 8 cylinder car was given at Down's garage in town on Monday and over one hundred people were shown the "innards" of this popular car and given a ride over the roads to show its smooth running qualities. It has wonderful power and its quick get-away is noteworthy. The main points of interest in this car were given a couple of weeks ago so there is no need to dwell on them here. The car shown here was used for demonstration purposes and Mr. Down will shortly have one of these magnificent cars ready to deliver.

Mrs. S. E. Annis Gave Address To W.M.S.

The Thankoffering meeting of the W.M.S. of St. John's United Church was held on Thursday last. After the usual opening exercises Mrs Scott, the President, introduced Mrs. (Rev.) S. E. Annis of Thornbury, who, with her husband, had spent several years in China as missionaries of the former Methodist church. She had many articles of clothing; several miniatures, showing the manner of dress, mode of hair dressing, by which the age of the wearer could be told; models of conveyances; toys, etc. Her address received the closest attention. The speaker said there was a hunger for the Word, at children's meetings and church services there was never a vacant seat.

Mrs. Annis told an amusing story of the first tiny infant she had washed. The Chinese do not wash their babies until some weeks old, for fear they would die. As she was washing the infant she was nervous lest it did die, not that there was any reason for its death, but merely of the people's belief. It was not long before the room was filled with gaping people expecting to see the death of the child. However no such untoward event occurred.

Miss Aleda Mitchell sang "My Task" very sweetly. A lunch was served at the close, which all enjoyed. The offering amounted to $41.00.

IN MEMORIAM

FISHER — In loving memory of our dear mother, who passed to rest April 22nd, 1926.

She shines in the light of God,
His likeness stamps her brow,
Through shadows of death her feet have trod—
But she reigns in Glory now.
—Sadly missed by ther family

Proclamation

Flesherton Half Holiday

Commencing Thursday afternoon, May 5th, the merchants of Flesherton will observe the weekly half holiday throughout the months of May, June July, August and September. The stores will be open as usual on Wednesday night each week for the convenience of the public.

A Quick Way to.... Restore an Estate

ARE you among the thousands who have suffered from the great depression? Have you had to make a hurried survey of your financial position only to find that you are worth less by thousands of dollars than you were? Do you realize that death compels a liquidation of securities at current values?

How can that situation be met?

You can *instantly* restore your estate to a healthy basis by taking out more insurance. The sane way is to insure to the point of safety ... at least.

Over five hundred million dollars of life insurance was taken out in the Sun Life Company last year — much of it by level-headed men who balanced their accounts by this simple method.

GOODYEAR PRIZE CONTEST

Here's a profitable way to spend half an hour . . . Glance at that prize list and you'll say "*profitable* is right."

Anyone except tire dealers, employees of tire companies and the families of both can, without a cent of expense, try for one of the prizes.

All you have to do is to examine the six tires of various sizes, types and ply-thicknesses on display here. Figure out how many cords you think would be in each; then add the six figures and divide by six to find the average. Use the section of tire cord fabric also on display to help you.

Submit your estimate on a standard entry blank. There is nothing to buy, no other special requirement, no cost to you.

Closing date: June 5th, 1932. Address: "The Goodyear Supertwist Cord Contest," New Toronto, Toronto 14, Ontario.
