WEEKLY REPORT OF CANADIAN SECURITIES

PELLATT & OSLER,

No. 38 King Street East,

Toronto, Nov. 8, 1870.

[illegible]

† The accrued interest is added to the prices of all bonds and debentures sold in the market.

Exchange on London: 60 days Bank....109¾

" " " Private....108

" New York, on demand, Bank.....9¼

Gold in New York.....110¾

Bank of Montreal—Sold at 230, 229, and 228¾; subsequently recovered and sold at 230 to 233, closing with sales today at 235 and 236.

Bank of British North America—Is asked for at 107¾ and 108, with no sellers.

Ontario Bank—Has been in good demand during the week, and prices have advanced, closing with buyers at 109¾ and sellers to a very limited extent at 110.

Bank of Toronto—Small sales at 150, at which rate there are buyers, but sellers ask 155.

Royal Canadian Bank—Sales during the week at 69¾, at which rate there are buyers, with sellers at 70.

Canadian Bank of Commerce—Small sales at 120, closing with buyers at this rate, but no sellers under 121.

Merchants' Bank—Sales during the week at 117, 118 and 119, closing today with buyers at 120.

Quebec Bank—Buyers would give 110¾; no stock offering.

Molson's Bank—Is in good demand at 104¾, with none on market.

City Bank—Nominal at 89¾ and 90; no late sales.

La Banque du Peuple—Sales at 103¾, which is the rate today.

La Banque Nationale—Nothing doing on this market.

La Banque Jacques Cartier—Buyers would pay 114; no sellers.

Mechanics' Bank—Buyers offer 75, no stock on market.

Union Bank—Buyers at 108¾; none on the market under 110.

Toronto City Gas Company—Would be taken at 116¾, but there are no sellers.

British American Assurance Company—Is asked for at 70, small lots procurable at 71.

Western Assurance Company—Considerable sales at 85 and 86, stock offering at latter rate.

Canada Life Assurance Company—In good demand at outside quotations, 103 to 105, but no stock on market.

Canada Permanent Building Society—Large sales at 136, 136, 135¾, closing firm and in demand at latter rate.

Western Canada Permanent Building Society—The market has been cleared of this stock at 126, closing in demand at 126¾, with none offering.

Freehold Building Society—Sales at 128¾ and 128, closing in demand at latter rate.

Union Permanent Building Society—Offering at 153, not much doing.

Huron and Erie Savings Loan Society—No sales on the market.

Montreal Telegraph Company—In demand at 57, but sellers will not accept less than 57½.

Canada Landed Credit Company—No sales; nominal at 65 per cent.

Toronto, Grey and Bruce Railway Company—Sales at 85, which is the closing rate today.

Toronto and Nipissing Railway Company—Sales at 80, and closing in demand at this rate.

Canada Debentures—No Government Debentures have been offered; 95½ would be paid for Sterling Fives, and 110 for Dominion Stock.

City of Toronto Debentures—Sales at 92 and 93½, closing with very limited amount procurable at latter rate.

County Debentures—Considerable sales at 90 to 95, closing in demand.

Virginias—Are asked for by 5 per cent. brokers, and offered at 5½ per cent on the close.

A good business has been done during the past week in most of the leading stocks and bonds; prices have in nearly all cases advanced, and the market closes firm at outside quotations.

An idea of the value of real estate at Montreal may be gathered from the fact that a lot 12x50 was recently sold in that city for $3,420.

The Ottawa shooting incident is taken from the Gazette. The Prince was accompanied by Prussian army officers, and was with the Prussian army before Paris. [illegible] the Sun: "Yesterday Major Hammond, and Lieut. Wilson, 60th Rifles, accompanied by a party of twenty men, left Major's hill for a shooting match at Lake Deschenes. While [illegible] some distance from the main road, they were surprised to see a party of men, supposed to be Fenians, drilling in a field. The party, on being challenged, ran into the woods, and fired a few shots at our friends, who returned the fire, and then proceeded on their way. No damage was done on either side."

France is eight times greater in area than the State of Texas, possesses more wealth than the whole United States, the figures being 4,500,000,000 as against [illegible] for France, and 4,000,000,000 for the United States. The figures show that it is not so much [illegible] as it is the industrious habits which enable the people to make the most of their resources.

[illegible] Nov. 9. The steamship [illegible] for Quebec and Liverpool, [illegible] arrived at 11 0 p.m. yesterday off the Nore, the steamship Nova Scotian at 1 45 a.m., with 5 intermediate and 1,25 steerage passengers.

CANADA—Hungarian [illegible]—Fr[illegible] Convent of Sion [illegible] Fellows' Compound Syrup of Hypophosphites is prescribed by the physicians in every city and town where it has been introduced, and is [illegible] by all [illegible]. Price $1 [illegible] bottle; $5 [illegible] bottles. Sold by all apothecaries and by F. Crosby & Co., wholesale agents, Montreal.—[illegible]

THE GREAT

ENGLISH & SCOTCH QUARTERLIES,

AND

Blackwood's Magazine,

REPRINTED IN NEW YORK BY

The Leonard Scott Publishing Co.

QUARTERLY:

The Edinburgh Review,
North British Review,
London Quarterly Review,
Westminster Review.

MONTHLY

Blackwood's Edinburgh Magazine.

These periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communion with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of today, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies, *Blackwood* holds the foremost place.

TERMS

For any one of the Reviews	$ 4.00	per annum
For any two of the Reviews	7.00	"
For any three of the Reviews	10.00	"
For all four of the Reviews	12.00	"

The Farmer's Guide

TO SCIENTIFIC AND PRACTICAL AGRICULTURE,

By Henry Stephens, F.R.S., Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven.

Two vols. Royal octavo. 1,600 pages and numerous engravings. Price $7; by mail post paid, $8.

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—

Detecting organic impurities in air and water.

Purifying drinking and other water from organic matter, lead, &c.

Freshening the air of close places, and removing bad smells.

Freeing meat, fish, butter, or other provisions from taint.

Counteracting the effects of organic poisons taken into the stomach.

Curing Musty provender. Freeing wheat and other seed from smut.

Maintaining the health of plants in pots, conservatories.

Preserving and restoring the freshness of cut flowers kept in water.

Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.

Washing dogs and other domestic animals.

Cleansing bottles, beer barrels, pickling tubs, dairy utensils.

Washing the hair and darkening its colour when turning grey.

Enhancing the purifying and invigorating effects of baths and tubs.

Dressing poisoned wounds and destroying animal [illegible].

[illegible] infectious diseases of cattle, [illegible] &c.

Or gallon [illegible] 200 to 300 gallons diluted for use.

N.B.—Condy's Fluids, the Original Solution, for Ozone, Mixture for Water, [illegible] &c. [illegible] Water [illegible] Formerly purchasers have been [illegible] Condy's Fluid, [illegible] dealer.

CONDY'S PATENT OZONIZED WATER, (OR OZONIC ETHER.)

Removes from the [illegible] the taint of [illegible] and others, [illegible] and mouldy smells of [illegible] &c. [illegible] Ozonized Water [illegible] promote a healthy state of the [illegible].

H. BOLLMAN CONDY,

The day seems [illegible] when [illegible] proved the [illegible] and as now you [illegible] members who by [illegible] the hopes of [illegible].—[illegible]

TOWLES CHLORODYNE

The Original Preparation of Known Composition.

From Dr C. Still, Author of Standard Works on Chlorodyne.

Sackville Street, Piccadilly, London.

Sir,—I think it your duty to advertise Chlorodyne more [illegible] Yours faithfully, C. Still, M.D.

To Mr Towle, Chemist, Manchester.

A Surgeon from New York writes:—"It only requires to be known to be appreciated. I have no hesitation in characterising it (Towles Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, [illegible] it is to relieve more pain and [illegible] than any other article that can be [illegible]."

Note.—The Profession is warned against inferior secret and cheap compounds now in the market. Each genuine bottle bears a stamp with Proprietor's signature on the stamp [illegible].

Sole Chloroform Co on Chlorodyne without peppermint.

Sole Manufacturer—A. P. Towle, Chemist, Manchester.

JESSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them. [illegible] can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being indeed almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.

MEMORANDA

MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of [illegible] in 10 minutes. It will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.

WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creasing, and to render them clean. Dye in boiling water.

FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).

COTTON: Mauve, Violet and Purple are recommended.

LEATHER: Blue Magenta, Violet and Orange. Dye in warm water.

WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.

STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.

WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the eye quickly, if applied in boiling water.

BLUE: For laundry purposes is A 1.

BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.

PAPER and WOOD STAIN: Ditto.

OAK STAIN: A bottle of No. 2 Black to half a-pint of hot water.

SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water.

PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water, &c.

ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen. Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.

BLANCMANGE, JELLY, CORN FLOUR ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.

CONFECTIONERS will find Magenta, Violet, Orange and Pink useful colours.

GELATINES and GLUES are successfully coloured with these dyes.

INK: A Sixpenny bottle of Magenta to a pint or more of cold water.

WATER: One drop of dye will tint a quart.

PRINTING on Cotton, Silk or Wool in the ordinary way.

BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

CAUTION.

THE gross frauds which continue to be practised by obscure manufacturers, more particularly in Germany, by imitating the labels attached to JOHN GOSNELL & Co.'s PERFUMERY, render it imperative upon the Proprietors to CAUTION the public against such nefarious proceedings, and to request their friends and patrons to purchase only of respectable dealers, who import direct from John Gosnell & Co.; and invite special attention to the address—

RED BULL WHARF, 95 UPPER THAMES STREET.

John Gosnell & Co.'s Select Perfumes: Ess Bouquet, Royal Yacht Club Bouquet, Jockey Club Perfume, Essence of Wood Violet, Victoria Bouquet, Frangipanni, Military Bouquet, the Bride's Bouquet.

John Gosnell & Co.'s Prince of Wales' Perfume, a most choice and fashionable perfume.

John Gosnell & Co.'s Princess Alexandra's Perfume, a most choice and delicate perfume, prepared expressly for the use of Her Royal Highness.

John Gosnell & Co.'s Upper Ten Thousand Perfume.

John Gosnell & Co.'s Jockey Club Perfume is in universal request as the most admired Perfume for the Handkerchief. Price 2s 6d.

John Gosnell & Co.'s La Noblesse Perfume, a most delicate Perfume of exquisite fragrance.

John Gosnell & Co.'s Noblesse Pomade, elegantly perfumed, and highly recommended for beautifying and promoting the growth of the hair.

La Noblesse Soap—esteemed for its unequalled perfume and the emollient qualities.

John Gosnell & Co.'s Violet and Millefleur Sachet Powder is guaranteed pure. No nursery should be without it. Sold in boxes at 1s, in tins 1s each.

John Gosnell & Co.'s Cherry Tooth Paste is greatly superior to any Tooth Powder, gives life to the pearl-like whiteness, protects the enamel from decay, and imparts a pleasing fragrance to the breath. Price 1s 6d each.

Instantaneous Hair Dye—certain to produce any shade Brown or Black, of good natural colour. It cannot possibly injure the hair, has no disagreeable odour, and is easily applied.

John Gosnell & Co.'s Patent Trichomaron, or newly invented hair Brush, the peculiar mechanical construction of which accompanies the two operations of cleansing and polishing simultaneously.

The Patent Mechanical Chair for Brushing Hair by Machinery. For Prospectus and particulars, apply to the Patentees and Sole Manufacturers, JOHN GOSNELL & Co., Perfumers by Appointment to Her Majesty, the Princess of Wales, &c., RED BULL WHARF, 95 UPPER THAMES STREET, late of 12 Three King Court, Lombard Street.

"THE" SAUCE. Prepared by Alexander Southwood Stocker, from a recipe by his Cousin, the late Dr Southwood Smith, thirty-five years Physician to the London Fever Hospital; Father of Sanitary Reform; Medical Member of the first General Board of Health; Author of the first work on Fever in any age or country, the Philosophy of Health, &c.

Delicious with every known dish. Its habitual use increases the appetite and promotes digestion. It is much esteemed for its digestive properties.

As an assurance of its purity and salutary properties, it is only necessary to point to the name of the celebrated and philanthropic Physician from whose prescription it is compounded. The entire life of that distinguished man was spent in promoting the health of his fellow-creatures, and his death, in December, 1861, was mourned as a national loss.

Wholesale and for exportation by the Proprietor, C. Lumbs Conduit Street; Barclay and Sons, Farringdon Street; Batty and Co., Finsbury Pavement.

Retail by Chemists, Grocers, Italian Warehousemen, and others throughout the Kingdom, and every part of the world.

Ask for the "The Sauce."—Special export Agents—Burgoyne, Burbridges, and Squire, 19, Colman Street, London.

LAMPLOUGH'S PYRETIC SALINE—A Medicine that cures Sea Sickness or the worst form of Bilious Headache in a few minutes; effervescing and tasteless, its constant use is especially calculated to maintain health. When mixed with water and taken during the effervescence, it immediately blends with the food, and is rapidly absorbed into the system. It vitalizes and supplies the blood with those saline principles that are lost, altered, or destroyed during the hot weather. In Jungle, Scarlet, Yellow, Typhus, Eruptive Fevers (or Cholera), also in several other conditions, where the vital current is poisoned by infection, and and thereby rendered unfit to support health and prolong human life it has been found eminently beneficial, and its sustaining and purifying influence acts as a preventive to disease, as the numerous unsolicited testimonials accompanying each bottle will prove. Its portability renders it admirably adapted to the traveller, tourist, emigrant, or private family, more especially when distant from medical advice or assistance.

Sold in patent stoppered glass bottles, price 2s 9d, 4s 6d, 11s, and 21s each. Special agents required and appointed in all parts of the world.

SIR WILLIAM BURNETT'S DISINFECTING FLUID, for the purification of sick rooms, hospitals, workhouses, factories, prisons, crowded places, between decks of ships, fever wards, clothes and linen of sick, nightchairs, cesspools, drains, water closets, stables, dairies, larders, musty casks, tubs, &c.; bilge-water, and the holds of ships; apartments for searchers, undertakers, and jurymen, and for post-mortem examinations; for the prevention of infectious disease, cancker and fungus in trees; for the disinfection of dead bodies, and for the preservation of subjects for dissection; for the extermination of bugs and other vermin.

Sir W. Burnett's Disinfecting Fluid was the only Disinfectant used at the Agricultural Hall during the Smithfield Club Cattle Show in 1866, by order of Her Majesty's Privy Council.

The value of the fluid is shown by the following letter from the Secretary and Manager:

"Agricultural Hall, Islington, Jan. 1868.

"Dear Sir,—Please to send eight gallons more of your Disinfecting Fluid, as per order enclosed. Having used various Disinfecting Fluids at our many shows, I can say with confidence that none have had the instantaneous and complete effect of Sir William Burnett's, and this too without producing any nuisance like the smell of chloride of lime or carbolic acid.—I am yours faithfully, "S. SIDNEY, Sec. and Manager.

"Capt. Jackson, R.N., 90, Cannon street."

This fluid acts on the essential cause of disease by destroying the local conditions of the atmosphere under which cholera is most frequently developed and propagated. For instance: "In a house in St. Andrew's street, Plymouth, occupied by fifty-two persons, it was sprinkled in every room except four; in these the occupants would not permit it to be applied; the result of which was, that in those parts of the house where it had been used, not a single case of cholera subsequently occurred; while in the four rooms above alluded to, the disease still exists and some deaths have taken place. Two houses immediately opposite were supplied with a quantity, in neither of which has there been a single case, although the disease is raging in the neighbourhood."

Sold by all Chemists, and at 90, Canon street, London. Quarts, 16s; pints, 8s; half-pints, 4s; glass-stoppered Imperial pints, extra strength, 16s per dozen; and in bulk at 4s per gallon: bottles included. Each gallon making 200 gallons, when diluted with water. See directions on every bottle.

Recommended and used by Professor Simonds at the Royal Veterinary College, during the last twenty years.

N.B.—This fluid is a certain cure for greaves in horses, also the scab and rot in sheep.

THE CHRONICLE AND NEWS

A WEEKLY FAMILY JOURNAL,

CONTAINING ALL THE NEWS OF THE WEEK, ENTERTAINING STORIES AND SKETCHES.

And a large amount of general reading matter, is published. Price, Five Cents. Subscription Two Dollars per annum.

Address, JAMES REID,
Daily News Office, Kingston.

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."

Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.

The Medical Times and Gazette, January 12th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."

Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.

The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

DR. VICTOR BAUD'S ORGANIC MEDICINE

DR V. BAUD, Graduate and Member of the Medical College of Paris, Chief Physician Extraordinary for Epidemics in Paris, late M.D. of the Civil Hospitals of Algiers, has just introduced in England his ORGANIC MEDICINES.

They consist of three preparations—

THE BAUDEINE,

An efficient and prompt Remedy for Cholera, Yellow Fever, Diarrhœa, Dysentery, and the excessive action of the Bowels. A gold medal was awarded by the French Government to Dr V. Baud for this valuable preparation.

Price: Small, 1s 1½d; Medium, 4s 5d; Large Size, 11s per Bottle.

THE DIASTATIZED IRON,

For strengthening the System.—Price 2s 9d per Bottle.

THE DIASTATIZED IODINE,

For purifying the Blood.—Price 2s 9d per Bottle.

*** The above Preparations are in the form of Sweetments, pleasant to the taste, and particularly adapted for Infants and Mothers nursing.

By the combination of the Iron or Iodine with Cress Seeds in a state of germination, they are united with organic life, which thus renders them digestible. The irritative and stubborn mineral has thus become the nucleus of an organic substance capable of being absorbed by the blood without injury to the stomach.

Agent for England and British Possessions, E. G. DUFRESNE, 79 Wailing Street.

May be obtained of all chemists.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.

"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."

"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.

"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

TIDMAN'S SEA SALT, for producing a real Sea Bath in your own Room. The above favourite preparation is strongly recommended.
