John Conn Found Hanging In Barn

AT HOME OF NEPHEW EAST OF FEVERSHAM TO-DAY

While we were at press this morning word was received of the reported suicide of Mr. John Conn at Feversham this Wednesday morning. He was found hanging in the barn. He was a man 74 years of age and for the past couple of years has been in poor health. For some time he has been residing with his nephew Mr W. J. Conn, east of Feversham. Coroner Dr. Martin of Dundalk was called and at the time of wirting this was making an investigation.

Parties disposing of mares before the foaling time will be held responsible, whether in foal or not.

Inspected and enrolled for 1932.

W. W. TRIMBLE, Prop.

Celebrated Their 40th Wedding Anniversary

A happy event took place at the home of Mr. and Mrs. James Sayers of Osprey Township, when they celebrated their 40th wedding anniversary on Tuesday, May 24th. Their family and grandchildren were present, as follows: Beatrice (Mrs. Walter Wilson) of Lady Bank, Irene (Mrs Earl Poole) of Osprey and Collingwood Townline, Thornton of Clarksburg, and also Mr. Sayers' only surviving sister, Mrs. John Tyson, along with her two sons, Garfield and Stanley; Miss Beatrice Hutchinson of Feversham, a grand niece and Mr. Bobbie Holt of Clarksburg, who waited on the tables. The tables were daintily prepared by the bride of 40 years ago.

The happy couple were presented with a wool and silk comforter tented a ruby shade from the family and a large bouquet of artificial tulips by Mrs. Tyson and sons.

Mr. Sayers was born in Erin Township in the year 1870 and when 13 years of age came with his parents, the late Mr. and Mrs. Nelson Sayers and settled in Collingwood Township, where he remained until his marriage to Miss Martha Moore, daughter of the late Mr. and Mrs. Abram Moore of Collingwood Township. The ceremony was performed at the Maxwell Methodist parsonage by Rev. H. A. Brown.

Mr. and Mrs. Sayers have spent most of their married life on the farm where they still reside, Lot 7, Concession 14. They have seen many cloudy days in the pathway of pioneer life, but were blessed with good health.

Their many friends join with The Advance in wishing them many more years of health and happiness together.

FLESHERTON PUBLIC SCHOOL

EXAMS LATER THIS YEAR

According to information received examinations for Middle and Upper School pupils will be somewhat later this year. The Middle and Upper School candidates will begin writing on Monday, June 20th, and the Lower Schools on June 23rd. The high school entrance will be written on June 27, 28 and 29.

These high school examinations will continue until July 6, but the majority of the candidates will be through writing on June 27 for Middle and Upper Schools and on June 29 for the Lower School.

A WHITE ROBIN

Mr. Mark Wilson of this village had a very interesting visitor come to him the other day in the form of a white robin. The little fellow is only a few weeks old, but hops contentedly around the lawn in search of insects. The albino robin is a rare speciman of the bird world. This youngster is at home to all bird lovers who are interested in him.

GET DOWN TO REAL BUSINESS

Most of us are old enough to remember when it was hard times all the time. Hard times are normal. Our fathers before us never lived in easy times. Life is a battle, not a panic. We get a fleeting taste of prosperity once in a while, but permanent prosperity is simply ballyhoo that you get on the radio during political campaigns. We must face things as they are and go to work. There are people who reach for the paper each day to see if good times are coming back. They want to see what the government is going to do for them. They think the latter is Santa Claus. Let us all get down to real business and work.

Inspected Roads

Mr. Herbert Corbett, former Reeve of Artemesia, now chairman of the Grey County Highways committee has prepared the following report of the annual spring inspection of the roads and bridges of the county:

"The committee, composed of W H. Hunter, reeve of Egremont, H. H. Thompson, reever Euphrasia, Warden Allan Bell of Durham, Road Superintendent John Johnson, Owen Sound Engineer R. C. McKnight and myself as chairman of the committee, made one of the most thorough tours of inspection that has been given our system in years. We only missed that part of the County roads syestem between Grey and Wellington and Grey and Dufferin. These stretches are being patrolled by our neighboring counties. Considering the very unfavorable weather of this past spring and winter, we found our County Road System in exceptionally fine shape, and with an atmosphere of retrenchment it is the intention of the committee to keep well within the appropriation made by the County Council for county road purposes. We decided to build a small bridge in the township of St. Vincent and also one of some thirty-foot span in Euphrasia. This is practically everything in the way of construction, except the rebuilding and improving of some sharp curves, one particularly, on the south entrance to Clarksburg, where several accidents have occurred in past years. We are also undertaking some work in the way of directing streams where we are threatened by danger under present conditions.

We are pleased to note that the pavements laid in 1931 in Flesherton, Markdale and Meaford came through the winter in excellent shape.

It is our intention to keep the maintenance outfits in operation a sufficient length of time to resurface the necessary mileage, so as to retain our standard and not allow the roads already constructed to depreciate.

Through the action of the County Council at the January session in reducing the grant to Owen Sound Suburban Area roads, from $10,000 to $5,000, caused a movement to have the Suburban Area reduced from some forty-one miles to thirty-one. The County Road Committee has been successful in arranging with the Department that no definite steps be taken regarding the reduction until after the June session, when the question may be reconsidered. This change would have meant an additional ten miles reverting to the County Roads System.

CUT BY FLYING GLASS

Mr. and Mrs. Wm. Collins had a narrow escape from serious injury when motoring home on Tuesday from visiting their daughter, Mrs. R. O. Geddes of Beeton. When between Markdale and Flesherton, a car, travelling at a fast rate of speed passed, the tires throwing a good sized stone, which struck the windshield of the former's car, breaking it into pieces. A piece of glass struck Mr. Collins on the side of the head, causing a deep cut. He received attention at Markdale, but was able to proceed home.—Tara Leader.

BORN

BOWLES — In Markdale on Saturday, May 28th, 1932, to Mr. and Mrs. Amos Bowles, twin daughters.

Mount Forest will have a celebration on July 1st.

The ingenuity of the small boy was once more brought to light in Midland recently when a number of merchants owning gum machines found them clogged with machine punchings that beat the merchants. The lads apparently discovered a plentiful supply of these punchings in a storage shed across the bay and filling their pockets with them proceeded to experiment with them on the gum machines in town. The scheme worked and they started a wholesale cleanup.

FRIDAY & SATURDAY SUGGESTIONS

SHERWIN-WILLIAMS PAINT HEADQUARTERS

There's no paint bargain like good quality

You need fewer gallons of SWP to paint your house

Fine old SWP House Paint has such wonderful "body" that each gallon *thoroughly* covers *more square feet of wall.*

That is one reason why SWP House Paint costs no more than cheaper paint *on your house.* The saving on gallonage does it—regardless of the price per gallon.

In addition you get the superior quality of SWP—the more beautiful, weatherproof colors—the long service that saves 50% to 60% in repainting cost. All because fine old SWP is made of the finest materials, by the largest paint and varnish makers in the world.

Come in and let's do a little simple arithmetic before you squander money on *cheaper* paint.

Specify SWP and engage a good painter.

And the time to paint is *now.* Your house, your garage, your fences, your shutters, screens, flower boxes—they all need the weather-resisting protection of SWP.

You can buy cheaper paint, of course, but, remember, there's no paint bargain like good quality. We know SWP to be the best paint bargain of all. That's why we recommend it as a leader on our Friday and Saturday Suggestions.

S-W Paint Products are sold the world over under this famous trade mark.
