HARI-KARI IN JAPAN.

Extraordinary Expiatory Execution—Official report of a United States Naval Officer.

The following is a letter of Commander Creighton, of the United States Navy, describing the hari-kari execution, witnessed by him at Hiogo, Japan.

United States Steamer Oneida, (Third Rate) Hiogo, Japan, March 14, 1868.

Hon. Gideon Welles, Secretary of the U. S Navy, Washington, D.C.

Sir—I have the honour to communicate the particulars of the execution of the Japanese official, Fati Zarzuitaro, retainer of Matsdaira Bizen-n-Koami, who ordered his troops to fire on the foreigners of this place on the 4th ult. This execution was witnessed by me at the request of our Minister, Gen. R. B. Van Valkenburgh, and is as follows

I left the Legation at about 9 p.m., in company with the officers attached to the Foreign Legations, and proceeded to Hiogo, where we were met by a guard, who escorted us to the Temple where the execution was to take place.

There was a large number of people on each side of the street leading to the temple, and quite a number of soldiers drawn up inside and about the Temple. We were shown into a room adjoining the Japanese officials, where we were asked if we wished to question the person about to be executed, to which we answered in the negative; they also took the names of every official present.

After waiting about half an hour, we were conducted by the Japanese officials into what appeared to be the principal room of the Temple, which was lighted with candles, and in front of the altar was a raised platform of about a foot in height, which extended across the room, but we were placed on the right of the altar, within a few feet of where the execution was to take place, with the Japanese officials on the left. In front of the altar was a green cloth, and in front of that, a red one; we were informed that the execution would take place on the red cloth. Seating ourselves upon the mats on the platform, we awaited the execution.

In a few moments the prisoner came in, dressed in the usual Japanese dress of a person of rank, accompanied by the executioner, who was his pupil, and most intimate friend. He walked with a steady firm step in front of the altar, where he knelt in prayer. He then arose and went to the red cloth where he knelt and made the confession that he was the officer that ordered his troops to fire upon the foreigners, and also to fire upon them when they were trying to escape," and that he was sorry for what he had done.

He then disrobed himself to his waist, and reached out for a knife that was near him, which he thrust into his bowels, and drawing it toward his right side, and leaning forward at the same time, the executioner, with one blow from his sword, severed his head from his body. This occurred at about 10:30 p.m. The Japanese then bowed to the floor, on which we all did the same. We were then asked if we were satisfied with what we had witnessed, when we replied in the affirmative.

After the lapse of a few moments, we were informed that all was over, when we arose and took our departure.

The whole scene was one of great solemnity, and very impressive.

Very respectfully, your obedient servant,
J. BLAKELY CREIGHTON,
Commander.

Thomas Schofield, of Bond Head, Ontario, was recently robbed of £292 in gold, at the Stephen House, Broadway, New York. He had procured checks and left his baggage at the coat-room; on calling for it, he found that the gold had been stolen. A young man having charge of the coat-room, Mellaly by name, has been missing since the robbery, and is supposed to have committed the theft. He has not yet been found.

SHERBROOKE GOLD FIELDS.—The Gold Diggings at Sherbrooke continue to uphold the favourable reports that have always come from that locality. On Friday last a bar of gold weighing 363 ounces from the Dominion Company's claims, arrived here and has been forwarded we understand to Canada. It appears that the Company has on hand about 15,000 tons of quartz ready for crushing, besides a splendid lot of specimens. When the quartz on hand is crushed it will in all probability surprise those who are engaged in Gold Mining, as the Company anticipate a very favourable result.—*Halifax Express, July 13th, 1868*

THE MONTREAL TEA COMPANY.

THE whole Dominion should buy their Teas of the Importers,

The Montreal Tea Company,

☞ 6 HOSPITAL STREET, MONTREAL.

Our Teas, after the most severe tests by the best medical authorities and judges of Tea, have bern pronounced to be quite pure, and free from any artificial colouring or poisonous substances so often used to improve the appearance of Tea. They are unequalled for strength and flavour. They have been chosen for their intrinsic worth, keeping in mind health, economy, and a high degree of pleasure in drinking them. We sell for the smallest possible profits, effecting a saving to the consumer of 15c to 20c per lb. Our Teas are put up in 5, 12, 15, 20, and 25 lb boxes, and are warranted pure and free from poisonous substances. Orders for four 5 lb boxes, two 12 lb boxes, or one 20 or 25 lb box sent carriage free to any Railway Station in Canada. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by expressman, where there are express offices. In sending orders below the amount of $10, to save expense it will be better to send money with the order. Where a 25 lb box would be too much, four families clubbing together could send for four 5 lb boxes, or two 12 lb boxes. We send them to one address carriage paid, and mark each box plainly, so that each party get their own Tea. We warrant all the Tea we sell to give entire satisfaction. If they are not satisfactory they can be returned at our expense.

BLACK TEA.—English Breakfast, Broken Leaf, Strong Tea, 45c, 50c; Fine Flavoured New Season do., 55c, 60c, and 65c; Very Best Full Flavoured do., 75c; Sound Oolong, 45c; Rich Flavoured do., 60c; Very Fine do. do., 75c; Japan, Good, 50c, 55c; Fine, 60c; Very fine, 65c; Finest, 75c.

GREEN TEA.—Twankay, 50c, 55c, 60c; Young Hyson, 50c, 60c, 65c, 70c; Fine do., 75c, Very Fine, 85c; Superfine and Very Choice, $1; Fine Gunpowder, 85c; Extra Superfine do., $1,

Teas not mentioned in this circular equally cheap. Tea only sold by this Company.

☞ An excellent Mixed Tea could be sent for 60c and 70c; very good for common purposes, 50c.

Out of over one thousand testimonials, we insert the following:—

A YEAR'S TRIAL.

Montreal, 1868.

The Montreal Tea Company,

Gents—It is nearly a year since I purchased the first chest of Tea from your house. I have purchased many since, and I am pleased to inform you the Tea has in every case proved most satisfactory, as well as being exceedingly cheap. Yours very truly, F. DESIME.

House of Senate, Ottawa, Dec. 16, 1867.

Montreal Tea Company:

Gentlemen,—The box of English Breakfast and Young Hyson Tea which you sent me gives great satisfaction. You may expect my future orders. Yours, &c., S. SKINNER.

☞ Beware of pedlars or runners using our name, or offering our Teas in small packages. Nothing less than a cattie sold.

SUGAR-COATED

ARE a safe and reliable remedy in all diseases of the *Stomach, Liver* and *Bowels*. They are not *Quack* Medicines puffed up by high sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbations of the *medical profession*. They do not profess to be a cure-all, but for all diseases arising from any derangement of the *Stomach, Liver* and *Bowels*, they furnish an effectual remedy. We have in our possession, over one hundred testimonials from physicians who have used them in their practice and highly approve of them, among which are the following:

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."

Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.

The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."

Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.

The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—

Detecting organic impurities in air and water.

Purifying drinking and other water from organic matter, lead, &c.

Freshening the air of close places, and removing bad smells.

Freeing meat, fish, butter, or other provisions from taint.

Counteracting the effects of organic poisons taken into the stomach.

Curing Musty provender. Freeing wheat and other seed from smut.

Maintaining the health of plants in pots and conservatories.

Preserving and restoring the freshness of cut flowers kept in water.

Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.

Washing dogs and other domestic animals.

Cleansing bottles, beer barrels, pickling tubs, dairy utensils.

Washing the hair and darkening its colour when turning grey.

Enhancing the purifying and invigorating effects of baths and tubs.

Dressing poisoned wounds and destroying animal virus.

Treating the infectious diseases of cattle, horses, dogs, &c.

One gallon makes 200 to 300 gallons adapted for use.

N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.

To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.

CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)

Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.

Patentee, Battersea, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.

MEMORANDA.

MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.

WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.

FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).

COTTON: Mauve, Violet and Purple are recommended.

LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.

WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.

STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.

WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the dye quickly, if applied in boiling water.

BLUE: For laundry purposes is A 1.

BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.

PAPER and WOOD STAIN: Ditto.

OAK STAIN: A bottle of No. 2 Black to half a-pint of hot water.

SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water

PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water. &c.

ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen. Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.

BLANCMANGE, JELLY, CORN FLOUR, ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.

CONFECTIONERS will find Magenta, Violet Orange and Pink useful colours.

GELATINES and GLUES are successfully coloured with these dyes.

INK: A Sixpenny bottle of Magenta to a pint or more of cold water.

WATER: One drop of dye will tint a quart.

PRINTING on Cotton, Silk or Wool in the ordinary way.

BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

BILL HEADS and other kinds of JOB PRINTING executed with neatness and despatch at the Daily News office, Princess Street.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.

"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."

"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.

"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

DR. LOCOCK'S WAFERS

For all disorders of Children, from birth to twelve years of age.

No family should be without these Powders, ready to hand in the case of illness at night or any other time, to the many that have elapsed since they saved the lives of many hundreds of children, and are very agreeable to the taste.

Full directions in all the languages are given with every Box. Nettle-rash, Measles, Hives, Sore Eyes, Sore Throat, Hooping Cough, Wasting, Fever, Inflammation of the Bowels, Fever, Brain, and that most fearful disease of infancy, Convulsions of children, Worms.

To children cutting their teeth they are invaluable, as they are intended with perfect safety to prevent convulsions, these Powders have been administered, and, if administered according to the directions, will invariably pass through the bowels of children without causing any uneasiness or disease, and be free from the trouble and annoyance attending that ordinary complaint.

With every packet is given a pamphlet containing the management and diet of children, and their treatment when ill, and in health.

Sold by all Druggists, and by the Sole Agents, Da Silva & Co., 97 Cheapside Street, London, E.C.
