EASTER MAY BE OUT

The annual convention of the Urban School Trustees' Association in Fort William this year may hold an hitherto unheard of interest for thousands of school children in Ontario. One of the subjects to be up for discussion, it is understood, will be a proposal to abolish the Easter vacation period. While such a move might find favor with the school boards, if the Government continues to pay grants on the basis of attendance for the year, it would doubtless be anything but popular with students generally. The Easter vacation is generally regarded as the "breather" before buckling down for the last dash which leads to final examinations.
