CATHOLIC APOSTOLIC CHURCH (Queen Street)—Morning Service, 11:00; Evening Service, 500

RELIGIOUS TEMPERANCE MEETING at the Sons of Temperance Hall, Princess Street, every Sunday afternoon, from 4½ to 5 o'clock.

DESTITUTION IN ALASKA.

The Alaska *Herald* gives an account of the present state of affairs in Alaska, from which we make the following brief abstract:—The *Herald* says that on the 28 h of August, Prince Maxutoff turned over to the agent of Hutchinson & Co., of this city, the magazine, all the buildings, property, and provisions of that settlement, real and moveable; that the incoming agent immediately proceeded to eject the inhabitants from the houses, and drove them to the shelter of the woods, where they improvised tents; that the price of flour, which had been furnished them, at fifty cents by the Russian Company, has been raised to two dollars by his successor; and that the new company, when appealed to by the people to supply their wants at former prices, were denied, and told to go to work for the company at fifty cents a day.

It is also alleged that Prince Maxutoff has been guilty of swindling the United States Government in the most outrageous manner, by turning over to the Government only what was in sight, but concealed the valuable effects hidden in the magazine, which, it is hinted, should also have been delivered, but were subsequently sold to Hutchinson & Co. The Russian schools have been closed, and the children allowed to go at large. Intoxicating liquors are sold to boys eight years of age by American shopkeepers, and they are fast becoming addicted to the vice of drunkenness.

So far, by the change of administration, our houses have been desolated, our industry checked, the resources of our labour have been cut off through wanton destruction by unprincipled hands. Our wives and daughters have been subjected to the brutal insults of a mutinous soldiery, and the tyranny of a despotic government has been transferred to the baser and more sordid tyranny of moneyed monopolies. Our youth have been corrupted and defiled, and driven from the school into the streets and a state of destitution has supervened that threatens our ultimate destruction.

The Atlanta (Ga.) *Constitution* calls upon the young ladies to organize Seymour and Blair Clubs, and preach the doctrine of their rank, negro supremacy, carpet-baggerism, and obscenity south to be brought to the polls. It says: "We know every young Democrat, every young aspirant, are pledged will be knocking at the door for admission. Let them in, provided they agree to work like beavers till be elected. If there are young men in the city who are not Democrats, win them over to your ranks. Do not proscribe them because of their difference. Whatever else may be lost, let victory crown." In Atlanta, when such means are employed to win an erring brother to the right side. The system might be adopted with profit elsewhere, and would add vastly to the interest of the canvass.

The great cab strike in London was caused by the action of the railway companies establishing a privilege for certain cabs to ply for hire within the stations, to the exclusion of the non-privileged trade. On August 28 h, a mass meeting of the cab-proprietors and cabmen, numbering about 8,000, was held at Agricultural Hall, London, where a resolution was adopted not to enter any railway station, for the purpose of plying for hire, until the railway companies shall throw open their stations to all hackney carriages (subject only to proper traffic regulations.) The meeting further adopted a pledge not to allow any cabs to ply for hire before eleven o'clock in the day time and after two o'clock at night; and if the railway companies refused to come to terms in six days, then to withdraw all the cabs from the street.

In addition to the coloured orators of great power whom we have already mentioned as labouring in the ranks of the Democracy of the South, we now have to chronicle the names of Mr Anderson, Mr Wm De Moss, and Mr Avent, of Memphis. They are highly accomplished and eloquent advocates of Seymour and Blair, and are doing yeoman service in their cause. At a recent meeting of the Fourth Ward Coloured Democratic Club, Mr Anderson made, as we learn from the *Avalanche*, "a most excellent speech, in which he received the most enthusiastic applause; he gave Beauregard and his party a terrible overhauling," as no doubt they deserved. Next Mr De Moss made "one of his usual splendid speeches," and finally Mr Avent "addressed the meeting in a few excellent remarks."

We are glad to notice the great politeness with which these eloquent coloured gentlemen are spoken of. They now have the prefix of Mr put before their names, just the same as white men. They merit this distinction alike by their talents and the soundness of their principles. Of course, this compliment is not yet paid by the journals of either party to the coloured speakers on the other side, who are still regarded as mere niggers, and described by their surnames alone. However, this want of civility will doubtless be corrected in due time.—*N. Y. Sun.*

ART OF ADVERTISING.—Horace Greeley, of New York, says:—The most successful business men in this city are those who have advertised liberally and constantly. A small advertisement constantly appearing is better than a display column occasionally.

EFFECT OF ADVERTISING.—It is amusing at times to observe the stores of the merchants who don't advertise; to see the anxious proprietors looking into the streets and see the people go by, wondering why they don't come in, while the stores of their neighbours who do advertise are thronged with customers. Some people will learn by observation, others will not.—*Daily Palladium.*

TO A YOUNG MERCHANT—When you pay more for the rent of your business house than for advertising your business, you are pursuing a false policy. If you can do business, let it be known."—FRANKLIN.

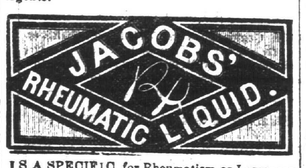
SUGAR-COATED

ARE a safe and reliable remedy in all diseases of the *Stomach, Liver* and *Bowels*. They are not *Quack* Medicines puffed up by high sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbation of the *medical profession*. They do not profess to be a cure-all, but for all diseases arising from any derangement of the *Stomach, Liver* and *Bowels*, they furnish an effectual remedy. We have in our possession, over one hundred testimonials from physicians who have used them in their practice and highly approve of them, among which are the following.

J. H. GIBSON, M. D., Dunham, C. E.
C. E. COTTON, M. D., Cowansville
CHARLES BROWN, M.D., Cowansville.
S. S. FOSTER, M. D. Broome.
J. C. BUTLER, M. D., Waterloo.
JOHN ERSKINE, M.D., Waterloo.
NORMAN CLEVELAND, M. D., Barnston.
N. JENKS, M. D. Barnston
C. W. COWLES, M. D. Stanstead.
JOHN MEIGS, M. D., Stanstead.
JOSEPH BREADON, M. D., Surgeon, R. N.
BENJAMIN DAMON, M. D., Coaticook.
LEMEUL RICHMOND, M.D., Derby Line.
WINSLOW LEWIS, M. D., Boston.
R. D. MUSSY, M. D., Boston.
F. J. AUSTIN, M.D., Sherbrooke.
E. D. WORTHINGTON, M. D., Sherbrooke.
Henry Simpson & Co., Montreal, Wholesale Agents.



IS A SPECIFIC for Rheumatism or Lameness of any kind, Swelling of the Joints, Sore Throat, Cold in the Head and Diphtheria, Burns or Frost Bites, Scratches on horses, &c.' &c.,

JACOBS' RHEUMATIC LIQUID.

Is an internal as well as an external remedy, and is the only one that *always* gives entire satisfaction, and all who once use it will never consent to change it for any other.

We have not space to enumerate the virtues accorded to it by thousands who have used it, and voluntarily testify to its merits. Buy a bottle and satisfy yourself that it is the best remedy ever offered.

Henry Simpson & Co., Montreal, Wholesale Agents.

THE BEST Tonic Hair Dressing ever discovered. It effectually cleanses the scalp, prevents the Hair from falling off or turning prematurely gray, and when the follicles and glands are not destroyed, will produce a new and luxuriant growth of hair where it has already disappeared.

It is the cheapest as well as the best, being only 25 cents for a large bottle. Buy it, try it, you'll like it and recommend it to your friends.

Henry Simpson & Co., Montreal, Wholesale Agents.

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep, without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."

Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manila the only remedy of any use in Cholera was Chlorodine.

The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."

Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.

The genuine has engraved on the Government Stamp (outside each Boule), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innocious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—

Detecting organic impurities in air and water.
Purifying drinking and other water from organic matter, lead, &c
Freshening the air of close places, and removing bad smells.
Freeing meat, fish, butter, or other provisions from taint.
Counteracting the effects of organic poisons taken into the stomach.
Curing Musty provender. Freeing wheat and other seed from smut.
Maintaining the health of plants in pots and conservatories.
Preserving and restoring the freshness of cut flowers kept in water.
Destroying the blight of the potatoe, vine, hop, mulberry tree, &c
Washing dogs and other domestic animals.
Cleansing bottles, beer barrels, pickling tubs, dairy utensils.
Washing the hair and darkening its colour when turning grey.
Enhancing the purifying and invigorating effects of baths and tubs.
Dressing poisoned wounds and destroying animal virus.
Treating the infectious diseases of cattle, horses, dogs, &c.
One gallon makes 200 to 300 gallons adapted for use.

N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.

To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.

CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)

Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.

H. BOLLMAN CONDY,
Patentee, Batterses, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.

MEMORANDA:

MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.

WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.

FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).

COTTON: Mauve, Violet and Purple are recommended.

LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.

WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.

STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.

WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c, attract the dye quickly, if applied in boiling water.

BLUE: For laundry purposes is A 1.

BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.

PAPER and WOOD STAIN: Ditto.

OAK STAIN: A bottle of No. 2 Black to half-a-pint of hot water.

SATINWOOD STAIN: A Sixpenny bottle

Canary dissolved in a pint of boiling water

PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water &c.

ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen. Borders of books, similar to Ward and Lock's Arabian Nights, &c, may be prettily illuminated in this manner.

BLANCMANGE, JELLY, CORN FLOUR, ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.

CONFECTIONERS will find Magenta, Violet Orange and Pink useful colours.

GELATINES and GLUES are successfully coloured with these dyes.

INK: A Sixpenny bottle of Magenta to a pint or more of cold water.

WATER: One drop of dye will tint a quart.

PRINTING on Cotton, Silk or Wool in the ordinary way.

BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

LEA AND PERRINS' Worcestershire Sauce. This delicious Condiment, pronounced by connoisseurs "The only good sauce," is prepared solely by Lea and Perrins. The Public are respectfully cautioned against worthless imitations, and should see that Lea and Perrins' Names are on Wrapper, Label, Bottle, and Stopper. Ask for Lea and Perrins' Sauce.

Sold Wholesale and for Export, by the Proprietors, Worcester; Messrs. Crosse and Blackwell; Messrs. Barclay and Sons, London; &c., &c.; and by Grocers and Oilmen universally

The L. S. Pub. Co. also publish

The Farmer's Guide

By Henry Stephens of Edinburgh and the late J. P. Norton, of Yale College. 2 vols. Royal Octavo, 1600 pages and numerous Engravings.

PRICE—$7, for the two volumes. By the post paid, $8.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world; to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.

"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."

"Dr. Granville, has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.

"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

THE PROVINCIAL SYNOD AND RITUALISM.

After a long debate the following resolutions were passed unanimously on Thursday evening amid loud cheers from all parts of the House:

Resolved,—The elevation of the elements in celebration of the Holy Communion, the use of incense during divine service, and the mixture of water with the sacramental wine, are illegal, the above mentioned practices are hereby forbidden in the church of this Province; and

Resolved,—The Rubrics at the end of the communion office enact that the bread shall "such as is usual to be eaten," the use of wafer bread is hereby forbidden, and this Synod expresses their disapprobation of the use of lights on the Lord's Table, and of vestments except the surplices, scarf, hoods and academic hood, in saying public prayers and in the ministration of the holy communion, and declare their determination to prevent, by every lawful means, the introduction into the Church of this Province.

THE PROVINCIAL EXHIBITION.

The Fair Grounds and Crystal Palace have been handed over to the Association. The Superintendents have taken charge, and were busy yesterday in perfecting the necessary arrangements. The Palace is in place, and goods have already been placed in it. Yesterday quite a number of horses and sheep were brought to the grounds. The other officers of the Association will be here to-day. It was decided yesterday afternoon, at a meeting of the Reception Committee, that the Lieutenant Governor of the Province, Hon. W. P. Howland, should be called at the depot on his arrival per Wednesday morning by a guard of honour, and presented with an address of welcome. The Mayor, Mr Magill, and the Warden will be a committee to draft the same. All the members of the local committee and the officers of the corporation are to attend the reception and escort the Lieutenant Governor to the Exhibition Grounds, where he will be received by the President and Officers of the Provincial Agricultural Association, and formally open the Exhibition. The guard of honour will probably be composed of a portion of the Kingston Volunteers. His Honour arrives here about nine o'clock a.m. There is no doubt that a Levee will be held during the stay of the Lieutenant Governor, yesterday afternoon his intention of being at the Provincial Show on Wednesday.

THE NORTH GERMAN FLEET.

According to an official report lately published at Berlin, the North German fleet consists of fifty-five ships and thirty-two gunboats, the former carrying 495 guns, the latter 68. Among the steamers are two frigates, the King William, the Frederick Charles, and the Crown Prince, with one ironclad corvette; the Arminius, with 8 guns. Besides these there are two ironclad boats, the Arminius and Adalbert, with 7 guns; five turreted corvettes with 140 guns; five smooth-bored corvettes with 68 guns; two avisos, 8 guns; eight gunboats of the first class, with 8 guns; fourteen of the second, with 38 guns; and the royal yacht, 4 guns, with four boats attached. The sailing ships are three frigates, the Gefion, the Thetis, and the Niobe, with 112 guns; one brigs, with 38 guns; the Barbarossa, 8 guns, and three transport vessels. There are also thirty-two sloops, to each of which are attached from two to four boats, with guns.

That caustic satirist, M. de Girardin has lately written a pretended eulogium on the Emperor Napoleon, in which he defends his faults and shortcomings on the ground that they are owing to an excessive use of tobacco! When the Emperor smokes, he becomes intoxicated, and see things not as they are, but as he wishes they are. He fancies that France is great and prosperous; but the cloud passes to him through the fumes of tobacco smoke with which he surrounds himself. Evidently the wits of Paris have much reverence for His Imperial Majesty.

A letter from Berlin says that all accounts attributing to Russia the plan of a close alliance with the United States of the Eastern question, and of overtures have been very favourably received by the Government at Washington, are but manifestation of the new alliance, and are, in fact, to be a joint intervention in the affairs of Cretan independence, in which Russia, who has also been concerned in negotiations, will take part. On the other hand, great efforts are still being made to bring about a rapprochement between Austria and Prussia.

The correspondent of the *Times* writes:—"There is a village in Wiltshire, not very far from Devizes, population about 400, where the great man of the place pays up tithes yearly to the amount of $1,800. To this day there is no Sunday-school room. The incumbent of the parish, who has now been there over forty years, during the whole of that time to a little cottage in which you could only whip a cat round. This is the only school in the place." This is only additional testimony, which shows
