☞ SEE FIRST PAGE.

A CONFERENCE OF WOMEN.

On the 17th of this month the ladies of Germany are going to hold a conference at Stuttgart to discuss the following points:—1. To find out the best ways and means to teach young mothers how best to regulate the physical education of their children. 2. The establishment of small museums of art and industry. These museums would not merely contain the best works of literature and art especially adapted for women, but they would principally be a kind of schools or academies, places for meetings, lectures, and the like, in which topics, such as the education of children and matters of domestic interest, should be treated by competent women and men, if these can be prevailed upon to assist in the movement. There would also be Sunday Schools for women and girls of all classes, savings banks, supply associations, offices for those that wanted places, &c. 3. The commencement of a reform in dress, chiefly directed against the vagaries of fashion, and the best ways and means to carry out this reform effectually. As a basis for this reform, the following points have been accepted:—*a.* That nothing be declared "old-fashioned which has once found itself useful and appropriate and becoming." *b.* That nothing new be adopted unless it have proved itself to be both to the purpose and answering the demands of good taste. *c.* That all garments and objects of toilet that are hurtful to health be put away. *d.* To inquire whether a large saving might not be effected in things of dress, so that the expenses might be made more appropriate to the income. 4. The transformation of benevolent female institutions into "self-supporting and earning female institutions." All this sounds so sensible; that we cannot but wish the "Conference" all success.

PROSPECT OF ANOTHER WAR IN NEW ZEALAND.

Attacks upon some of the unprotected farmers in the northern part of New Zealand have for some time past excited the apprehensions of another war. Since then the boldness of the Maoris has increased, and the outrage last announced seems to be generally accepted as the commencement of a fresh outbreak. A police force of some twenty-five men, under an officer, occupied a constabulary post on the west coast of the north island. It being a time of peace, they relaxed their vigilance, the Maoris seized the opportunity for a night attack, and nearly all the police were murdered. A private letter says that since this outrage the Maoris have assumed an attitude of decided hostility. They have declared their intention of rising to a man to drive the whites into the sea; and cannibalism, which was thought to be altogether abolished in New Zealand, is again practised. Life and property are considered unsafe in the northern island, and many settlers are giving up their plots. A body of Maori convicts, 150 in number, which had been sent to the Chatham Islands under an insufficient guard, rose, murdered every soul in the island, it is feared, and then made their escape to the north of New Zealand. The writer of this letter adds that the Maoris entertain the utmost contempt for the Government because it has not subdued them. Certainly these savages, though few, are the most redoubtable enemies of the kind that Englishmen have ever encountered, and it is clear that the Government have always held but a very small force to repel them. One English regiment and a body of 500 armed police can neither cover the country nor meet the Maoris in decisive force. The escape of the convicts from the Chatham Islands shows the intrepidity of the natives. These convicts not only rose against the governor and his guard and succeeded in making their escape, but boarded a whaler, and forced the captain to land them. They took with them all the arms and ammunition they could find in the islands. The convicts included men, women, and children. Northern New Zealand is four hundred miles from the Chatham Islands, and the voyage in the whaler occupied five days. These facts prove that the lives and property of the colonists can be placed out of danger only by vigorous means. As the *Times* suggests, the colonists ought to arm in their defence. They have not done so hitherto, and, further, have refused to maintain troops for their own protection.

The New York *Herald* has the following:—"A gentleman called on one of our department clerks yesterday to order the paper. He said, "Confound the *Herald;* I have stopped it six times on account of its politics, and now I have to order it again!"

Upward of one million persons are reported as out of employment in Great Britain, and the attention of all classes is turning towards emigration to America as a means of relief. A plan of a National Emigration Union has been discussed, and it is also suggested that a part of the vast amount expended for the support of paupers should be devoted to assisting persons to emigrate.

The famous Suez canal is now near completion. During the next month it will be open for vessels of the largest size. Its depth is 26 feet, its width from 180 to 300 feet, and its cost $30,000,000. As a medium of communication between Europe and India, it is of the highest importance, since it shortens the time of navigation one-half. The work is owned by a French stock company, and in its construction has employed over 20,000 men.

A Mining Board has been organized at Madoc in the Hastings gold regions. Its first meeting is to be held on the 17th inst. Two unfortunate gold mines in that region have gone into Chancery.

Bears are very numerous, in Peterborough County this fall. Major Leigh and a farmer named Ayotte shot three a week ago. The *Review* says there is also such an abundance of deer, that sportsmen are enjoying excellent hunting.

The first outburst of popular fury in Madrid vented itself upon such inanimate objects as could in any manner be associated with the detested dynasty. Everywhere the arms, busts, crowns, and inscriptions bearing the names or titles of the Queen and her family were taken down and trodden under foot. The Calle de la Reina was instantly transformed into Calle de Prim; the Plaza del Principe Alfonso is called Plaza de Topete. From the inscription Gran "Cafe de la Princesa" the syllables la and esa were knocked off with a hatchet, leaving the shop's name as "Cafe de-Prin-."

Some time ago the popular street cry was "How's your poor feet?" and according to the story of a medical gentleman, who appeared in Guildhall police court, London, on Tuesday, the phrase might be revived with a serious application. He says that the bright colouring matter in many of the socks now being sold in London contains a poisonous element, which produces irritating sores on the feet of his patients. He made the reassuring statement that on his representations a large manufacturing firm in the city had countermanded an order they had given for an enormous quantity of these bright-coloured socks.

SUGAR-COATED
ARE a safe and reliable remedy in all diseases of the *Stomach, Liver* and *Bowels*. They are not *Quack* Medicines puffed up by high sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbation of the *medical profession*. They do not profess to be a cure-all, but for all diseases arising from any derangement of the *Stomach, Liver* and *Bowels*, they furnish an effectual remedy. We have in our possession, over one hundred testimonials from physicians who have used them in their practice and highly approve of them, among which are the following:
J. H. GIBSON, M. D., Dunham, C. E.
C. E. COTTON, M. D., Cowansville.
CHARLES BROWN, M.D., Cowansville.
S. S. FOSTER, M. D. Broome.
J. C. BUTLER, M. D., Waterloo.

IS A SPECIFIC for Rheumatism or Lameness of any kind, Swelling of the Joints, Sore Throat, Cold in the Head and Diphtheria, Burns or Frost Bites, Scratches on horses, &c.' &c.,

JACOBS' RHEUMATIC LIQUID.
Is an internal as well as an external remedy, and is the only one that *always* gives entire satisfaction, and all who once use it will never consent to change it for any other.
We have not space to enumerate the virtues accorded to it by thousands who have used it, and voluntarily testify to its merits. Buy a bottle and satisfy yourself that it is the best remedy ever offered.
Henry Simpson & Co., Montreal, Wholesale Agents.

THE BEST Tonic Hair Dressing ever discovered. It effectually cleanses the scalp, prevents the Hair from falling off or turning prematurely gray, and when the follicles and glands are not destroyed, will produce a new and luxuriant growth of hair where it has already disappeared.
It is the cheapest as well as the best, being only 25 cents for a large bottle. Buy it, try it, you'll like it and recommend it to your friends.
Henry Simpson & Co., Montreal, Wholesale Agents.

All the above are carefully prepared for Exportation, and retain their excellent qualities in any climate.
96 Strand; 128 Regent Street; 24 Cornhill, London. 17 Boulevard des Italiens, Paris.

CHOLERA, DIARRHŒA, &c.
EARL RUSSELL sent to the College of Physicians a communication received by him from Manilla (where cholera had been graing fearfully) to the effect that, of all remedies tried, Chlorodyne was the most effective.
"The day seems as yet, unhappily, far distant when public opinion or State interference will prevent the advertisement or sale of any secret medicine whatsoever. It is to be hoped that the profession will continue to brand as unworthy the conduct of those of its members who by testimonial or otherwise aid the disposal of such things."—*Lancet.*
TOWLE'S CHLORODYNE.
The Original Preparation of known Composition.
From Dr C. Kidd, Anthor of Standard Works on Chloroform.
Sackville-street, Piccadilly, London.
Sir,—I think if you would advertise your Chlorodyne more than you do, you would help to beat the others, which are secret compounds, out of the market. Many medical men think with me, and recommend your compound, but will never prescribe a secret remedy. CHARLES KIDD, M.D.
To Mr Towle, Chemist, Manchester.
A Surgeon from New York writes:—"It only requires to be known to be appreciated. I have no hesitatien in characterising it (viz., Towle's Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, I have found it to relieve more pain and cause more joy than any other article that can be named."
NOTE.—The Profession is warned against inferior, secret, and cheap compounds now in the market. Each genuine bottle bears a facsimile of Proprietor's signature on the stamp outside.
LIQ. CHLOROFORMI Co. OR CHLORODYNE WITHOUT PEPPERMINT.
Sole Manufacturer:—A. P. Towle, Chemist, Manchester.

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."
Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.
The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."
Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.
The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—
Detecting organic impurities in air and water.
Purifying drinking and other water from organic matter, lead, &c.
Freshening the air of close places, and removing bad smells.
Freeing meat, fish, butter, or other provisions from taint.
Counteracting the effects of organic poisons taken into the stomach.
Curing Musty provender. Freeing wheat and other seed from smut.
Maintaining the health of plants in pots and conservatories.
Preserving and restoring the freshness of cut flowers kept in water.
Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.
Washing dogs and other domestic animals.
Cleansing bottles, beer barrels, pickling tubs, dairy utensils.
Washing the hair and darkening its colour when turning grey.
Enhancing the purifying and invigorating effects of baths and tubs.
Dressing poisoned wounds and destroying animal virus.
Treating the infectious diseases of cattle, horses, dogs, &c.
One gallon makes 200 to 300 gallons adapted for use.
N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.
To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.
CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)
Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.
H. BOLLMAN CONDY,
Patentee, Battersea, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.
MEMORANDA.
MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.
WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.
FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).
COTTON: Mauve, Violet and Purple are recommended.
LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.
WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitewing as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.
STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.
WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the dye quickly, if applied in boiling water.
BLUE: For laundry purposes is A 1.
BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.
PAPER and WOOD STAIN: Ditto.
OAK STAIN: A bottle of No. 2 Black to half a-pint of hot water.
SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water
PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water. &c.
ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.
BLANCMANGE, JELLY, CORN FLOUR, ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.
CONFECTIONERS will find Magenta, Violet, Orange and Pink useful colours.
GELATINES and GLUES are successfully coloured with these dyes.
INK: A Sixpenny bottle of Magenta to a pint or more of cold water.
WATER: One drop of dye will tint a quart.
PRINTING on Cotton, Silk or Wool in the ordinary way.
BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

LEA AND PERRINS' Worcestershire Sauce. This delicious Condiment, pronounced by connoisseurs "The only good sauce," is prepared solely by Lea and Perrins. The Public are respectly cautioned against worthless imitations, and should see that Lea and Perrins' Names are on Wrapper, Label, Bottle, and Stopper. Ask for Lea and Perrins' Sauce.
Sold Wholesale and for Export, by the Proprietors, Worcester; Messrs. Crosse and Blackwell; Messrs. Barclay and Sons, London; &c.-&c.; and by Grocers and Oilmen universally

FARM FOR SALE.
THE North half of Lot No. 4, in the 4th concession of the Township of Kingston, containing One Hundred Acres (part of which is under tillage), with a Frame Dwelling House thereon. The farm is only seven miles from the city, and is close to the Portland macadamized road. Inquire at the Daily News office, Kingston.

BRITISH PERIODICALS.
THE LONDON QUARTERLY (Conservative
THE EDINBURGH REVIEW (Whig).
THE WESTMINSTER REVIEW (Radical).
THE NORTH BRITISH REVIEW (Free ch'h)
AND
BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)
THESE foreign periodicals are regularly republished by us in the same style as heretofore. Those who know them and who have long subscribed to them, need no reminder; those whom the civil war of the last few years had deprived of their once welcome supply of the best periodical literature, will be glad to have them again within their reach; and those who may never yet have met with them, will assuredly be well pleased to receive accredited reports of the progress of European science and literature.
TERMS FOR 1868.

For any one of the four Reviews	$4.00
For any two of the four Reviews	7.00
For any three of the four Reviews	10.00
For all four of the Reviews	12.00
For Blackwood's Magazine	4.00
For Blackwood and one Review	7.00
For Blackwood and two Reviews	10.00
For Blackwood and three Reviews	13.00
For Blackwood and four Reviews	15.00

POSTAGE.
When sent by mail, the Postage to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Eight Cents a year for each of the Reviews.
Subscribers may obtain back numbers at the following reduced rates, viz:
The *North British* from January, 1863, to December, 1866, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1866, inclusive, and the *London Quarterly* for 1865 and 1866, at the rate of $1.50 a year for each or any Review; also Blackwood for 1866, for $2.50.
THE LEONARD SCOTT Publishing Co.,
38 Walker-street, N.Y.
The L. S. Pub. Co. also publish
The Farmer's Guide
By Henry Stephens of Edinburgh and the late J. P. Norton, of Yale College. 2 vols. Royal Octavo, 1600 pages and numerous Engravings.
PRICE—$7, for the two volumes. By the post paid, $8.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.
DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.
Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.
SELECT MEDICAL OPINIONS.
SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.
"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."
DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.
"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")
DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.
"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."
DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.
"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."
DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.
"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."
DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."
"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."
EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.
"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

STEAM PRINTING HOUSE, Princess Street, Kingston. Printing of all kinds at the DAILY NEWS STEAM PRINTING HOUSE.
