Hunters Go North

The annual trek to the north country in search of the elusive red deer commenced on Wednesday of this week with two parties leaving from Flesherton. The Dargavel party is composed of J. O. Dargavel, Wm. Phillips, Howard Watson, Jos. Watson, Dave Williams, Geo. Brackenbury and Otto Loss, Otto Keeler and Bob Evert of Palmerston, and will hunt from Ardbeg. The High Falls Hunt club have their club house about five miles from Boakview and the party this year will include P. Munshaw, Chas. Stewart, W. Lever, Royden McDonald, Cecil McTavish and Messrs. A. O. Elting and P. Johnston of Chicago.

The deer season opens on Saturday, November 5th, and lasts until Saturday, November 19th. This year dogs are not allowed to run deer, which, no doubt will make it more difficult for the hunters to bring home their number.

RIDGING IN THE FALL

One of the best methods of killing weeds is to ridge the land in the fall. There are men who claim that there is no benefit in the way of killing rootstocks of sow thistle and couch grass remaining in the soil after summer cultivation. Others regard ridging as supplementary to early after-harvesting cultivation in the eradication of weeds. At the Kemptville Agricultural School in Ontario ridging is considered an important tillage practice, all land ploughed early and subsequently top worked being drilled up in early fall. Another advantage of ridging is that it aids in getting on the land a few days earlier in the spring, which is a decided gain on low or heavy land. Some clays tend to run together if left in a highly cultivated state all winter, but ridging up corrects this.

Hallowe'en Quiet

Hallowe'en passed off very quietly in town Monday night, very little damage being done by the bands of boys. A contributing factor to the quietness of the evening was the fact that there was a steady downpour of rain Monday afternoon and evening that put a damper on the enthusiasm of the youngsters. When we came to work Tuesday morning we noticed one wheelbarrow, worse for wear, and the town water tank and three boards deposited on the square, in place of the usual quantity of vehicles and other paraphernaliai that boys seek out.

A woman writer said that the modern girl knows just what is going on under her nose. So do we—lipstick.

High School Annual Hallowe'en Party

The annual Hallowe'en masquerade of Flesherton high school was held in the Assembly Hall on Thursday, October 27, with a splendid crowd in attendance.

Miss Isobel McMullen, president of the Girls' Athletic Society, acted as chairman during the evening's activities, which opened with the sword dance by Miss Catherine McVicar. Third Form presented a very humorous skit, "Clementine," in which Mr. Dick Stewart played the leading feminine role. "Napoleon's Farewell to his Grandmother," a short selection full of pathos, was rendered by Miss Dora Stewart. Miss K. McVicar favored the audience with a presentation of "The Highland Fling" in native costume. Upper school skit, "The Highwayman" was followed by a dance, "The Sailor's Hornpipe," by Miss Georgena Blackburn. Miss Bess Cairns officiated at the piano for the three dances. A Ghost story, a skit presented by First Form, brought the program to a close with a fitting ghostly atmosphere.

The special feature of the evening, the promenade, displayed the many and varied costumes to advantage and ended with the presentation of prizes for costumes, by the judges, Misses Dewar and MacDonald, and Mr. Eubank of the High School staff. The prizes were taken by Miss Audrey McCabe as best in the lady and gentleman class, and Mr. John McVicar, as best in the comic class.

Throughout the whole evening, Miss Betty Murray officiated at the fortune telling booth, and was kept busy by fortune seekers.

A sumptuous supper was served, bringing the party to a close. All present reported an enjoyable evening.

Hockey Talk

Hockey is commencing to be the talk amongst the sport fans of the village at the present time. Rumors have been going the rounds that both junior and senior teams will amalgamate with Markdale and have two good teams in place of four second-raters. It is proposed to have the junior team headquarters at Flesherton and the senior team at Markdale. There is some real good hockey talent in both towns and with them working together should be able to bring the Northern League hockey trophies to this section again.

ENGAGEMENT

Mr. and Mrs. Samuel McMullen, Flesherton, Ont., announce the engagement of their daughter, Lillian Edith, of Toronto, to Mr. Melvin McMaster of Toronto, son of Mrs. C. McMaster and the late Mr. William McMaster, Wiarton, Ont., the marriage to take place the latter part of November.

Australian Farmers Have Higher Prices

The trade treaties between Canada and different parts of the Empire, particularly Great Britain, are still the only subject before the House. In the meantime the British pound sterling is dropping steadily which makes the treaties, as far as the Canadian farmer is concerned, null and void.

Our policy of dear money is ruining our farmers and all other exporters. While No. 1 hard wheat is bringing to the farmer in Alberta 29 cents a bushel, the Australian farmers are getting between 54 and 60 cents a bushel, plus a bonus of 9 cents, while at the same time the wholesale price of flour is quoted at 70 cents per 100 pounds in Australia and on the same day Canadian flour in Winnipeg was quoted at $4.15 per barrel, or about $2.08 per 100 pounds. That is, the Australian farmer gets more for his wheat and pays less for his flour than the Canadian farmer. Accoding to Mr. G. G. Coote Canadian wheat, No. 1 hard, would be to-day worth 60 cents at country points in Alberta or 80 cents basis, Fort William, if Canada had adopted a policy of inflation as has been done in Australia.

The farmer's position in Australia has been helped also by a reduction of the rate of interest. It is little wonder that J. Maynard Kednes, noted British economist, says that Australia has, in a financial and economic sense, rounded the corner. In the face of these facts, how can Canada compete with Australia in the British market? The general restlessness has been increased by a falling market for cattle, hogs, wheat, etc. It looks as though a policy of inflation must come; one wonders how much more needless suffering will be forced on the people before that day comes.

Most members of the House of Commons received a letter of entreaty from the League for Social Reconstruction in Vancouver this week. In this letter it pointed out that as the Finance Act now exists provincial and municipal governments can only obtain advances on their bona fide securities from chartered banks, at an interest rate of not less than 5 per cent. per annum, whereas the banks themselves may obtain these advances from the government of the people of Canada at 3 per cent. per annum. It suggests that it is ridiculous that the municipalities and provinces cannot borrow direct from the Federal government at 3 per cen., and goes on to say: "To remedy this evil we earnestly recommend the amending of the Finance Act so that upon the deposit of approved securities the provinces or its communities may obtain advances direct from the government, instead of being compelled to use the medium of the chartered banks."

The Railway Bill was introduced into the Senate by Rt. Hon. Arthur Meighen, the leader of the Government forces in the Upper House. The Bill states that nothing therein shall be taken to authorize any amalgamation of the Canadian National with the Canadian Pacific, but there is to be co-operation between the two in the way of pooling resources, joint use of tracks and facilities, and the formation of new joint stock companies.

The Governor-in-Council is to abolish the present Board of Directors of the National Railway and substitute three trustees: the chairman to hold office for seven years, and the others for a lesser period, all to be eligible for reappointment. The trustees are to act independently of shareholders, government and Parliament and to appoint, on terms arranged by themselves, a chief operating officer who will be called a president and who will be responsible only to the trustees. The trustees are to be in complete charge of financing; they are to make an annual report, to Parliament, of operations, receipts and expenditures and Parliament is to have an audit every year, made by auditors of its own selection.

It is now thought that this section of the session will have adjourned by the 10th of November.

—AGNES C. MACPHAIL,
House of Commons, Ottawa,
October 29th, 1932.

Paving Being Rushed

The McGregor Paving Co. has made good progress recently in paving Highway No. 10 between Melancthon and Corbetton. If favorable weather continues, it is expected that paving will be completed as far north as Corbetton by the middle of next week. The company is rushing the work in order to complete it this fall.

Shouldering work on the stretch south of Dundalk to Corbetton is again proceeding, the Thompson Haulage Co. handling this end of the job. A steam shovel is at work on the old Shannon farm now owned by Arthur Broughton, from whence material is being taken for shouldering purposes. With the especially wide shoulders (they extend ten feet from the side of the pavement) the road looks particularly appealing to motorists and a lessening in roadside accidents is bound to result. In fact, with such wide shoulders a footpath for pedestrins could be made alongside the road with very little extra expense, at the same time contributing much to the safety of children and adults who must walk on the highway.—Herald.

CHILDREN WANT HOMES

The Children's Aid Society has the following children for placement in approved foster homes. They are all smart, healthy boys. Make application to the undersigned:

Clarence, aged 8 years. x
Russell, aged 10 years.
John, aged 10 years.
Peter, aged 3 years.
Edgar, aged 12 years.
Norman, aged 6 years.
Fred, aged 9 years.
John, aged 14 years.

A. E. TROUT, Sec. C.A.S.
629 - 3rd Ave. E., Owen Sound.
Phone 270J.

POTATO PRICES HIGHER

According to J. T. Cassin, Ontario Department of Agriculture, late blight of potatoes has become very serious where careful spraying has not been practiced. He estimated the 1932 crop as twenty-five per cent, lower than last year, with rot serving to increase this figure.

Farmers are realizing higher prices than in 1931, and further increases are anticipated if rot becomes more extensive.

SHOOTING MATCH

A shooting match will be held on Friday, November 11th, on lot 30, con. 2, S.D.R., Artemesia, for geese. Ammunition supplied for shotguns.
