The Daily News,

THURSDAY EVENING, NOV. 5.

☞ SEE FIRST PAGE.

Missouri, it is said, has gained since the close of the war 150,000 in population by emigration.

A "Scarlet Chapter" will be opened in the Orange Hall, Kingsline, on the 14th inst.

The steamer City of Toronto makes her last trip across the lake this season on Thursday next, after which she will go into winter quarters at Niagara.

Mr Bowers, of Hungerford, has been accidentally shot whilst hunting a skunk in a brush heap. The trigger caught in the bush, the charge exploded and lodged in the unfortunate man's side. He lived ten hours.

A monster lynx was shot in the vicinity of Barrie. The limbs of the animal are of great thickness and length. The body is about three feet long, the fore legs about twenty, and the hind legs about twenty-six inches in length.

The *Chess News* states that a very beautiful processional cross cover, entirely covered with gems, is being manufactured for use in St. Barnabus church, Philice. Most of the jewels have been presented by the ladies of the congregation.

Mr Cyrus Field leaves his family in Switzerland, and crosses the Atlantic only for the sake of voting for Grant. A newspaper writer who records the fact, asks whether Englishmen will now say that men of wealth and standing in the States take no interest in politics.

John Milton is being turned to use she all. Lately he was made the hero of a German novel; he is now the hero of an Italian play performing at Florence. Milton's fair daughter, Deborah, the pretty Puritan, figures in its pages as in love with Arthur Monk, the son of the famous General Monk.

The Duke de Montpensier, it appears, made himself unpopular at Seville by his extreme niggardliness. He spent his time, writes *La Liberte*, in purchasing estates at a low rate, and selling oranges at a high price, and remained perfectly foreign to the politics of the country. The Duke may have inherited his father's economic ideas, as well as his aptitude for amassing wealth.

The Mormon colony, said by Brigham Young to be of various nations, counts the largest from one dollar towards carrying the Gospel and general supplies, with the Washington issues. As it circulates freely all through Utah Territory, and appears to be quite plentiful, Brigham must find his banking system highly advantageous. He has large balances to his credit in a New York bank and in the Bank of England.

The Metropolitan Railway of London will have, when completed, it is said, neither beginning nor end. It will be entirely underground, in the Potters Bar row, a succession of covered ways with troughs of various lengths, at large or at intervals, open to the sky for a short, but more especially for ventilation. There are 250 trains each way daily, running at intervals of about two minutes, and at the busiest portion of the day. The traffic on this road has increased in the first half year ending June 30, 1867, the number of passengers arriving was 11,188,358. The receipts are about $7,000 per mile. The first portion of this line was opened in 1863, and it is rapidly approaching final completion. A large part of the road is altogether below the surface of the streets, every effort has been made, where practicable and not too expensive, to make the road open rather than covered. In locality the company purchased have cost mansions in course of erection. They were underpinned, and now rest upon the roof of the covered way under them. Numerous other large buildings have been similarly underpinned. Many difficulties, experience and much expense incurred in avoiding sewers and gas and water mains. Where the superstructures are necessarily heavy, extra strong roofs must be provided for the covered ways. In a length of less than three miles of roadway more than 500,000 cubic yards of earth have been removed. The rails are of Bessemer steel, of a little over eighty-five pounds to the yard. The range is more than six inches broad.

Nearly all the European armies are now supplied with breech loaders of one pattern or another. In the North German army, the infantry of the line and the guard are all armed with needle guns, of which there is also a sufficient supply for the reserve and for the garrisons. The arming of the whole of the Landwehr with converted needle guns was also decided upon last June. Of the South German troops, those of Hesse Baden and Wurtemberg are all armed with the needle gun, while Bavaria only began a few months ago to supply the Werner gun to her army. Austria had armed 300,000 men with the converted Wanzl last July. The whole of the French army may be regarded as being supplied with the Chassepot since last spring. In Belgium the Albini gun was to be placed in the hands of every soldier of the line by the 1st of October. In Italy thirty-two battalions of bersaglieri were armed last July with a rifle similar to the Prussian needle gun, with slight modifications. The British army has, since the beginning of the year, carried the Snider. The arming of the Danish army with the Remington rifle is also complete; and Russia makes the greatest efforts to hasten the supply to her troops of Carlen needle guns. Of the other States, Holland, Sweden, Roumania, and Servia have only just introduced breech-loaders into their respective armies, while in Turkey, Spain, and Portugal, the soldiers still carry the old musket.

SUGAR-COATED

ARE a safe and reliable remedy in all diseases of the Stomach, Liver and Bowels. They are not Quack Medicines puffed up by high-sounding testimonials from imaginary people, but are the result of forty years experience of a first class physician, and their extraordinary success is due to the fact that they answer exactly the purpose. The formula from which they are prepared is based on sound, sober principles, and is received with unqualified approbation of the profession. They do not profess to be a cure-all, but for all diseases arising from any derangement of the stomach and bowels they may be an efficient remedy. We have testimonials from physicians, over one hundred in number, all of them, who have tested them in their practice and highly approve of them, among which are the following:—

J. H. GIBSON, M. D., Dunham, C. E.
C. E. COTTON, M. D., Cowansville.
CHARLES BROWN, M.D., Cowansville.
S. S. FOSTER, M. D., Brigham.
J. C. BUTLER, M. D., Waterloo.
JOHN ERSKINE, M.D., Waterloo.
NORMAN CLEVELAND, M. D., Barnston.
N. JENKS, M. D. Barnston.
C. W. COWLES, M. D. Stanstead.
JOHN MEIGS, M. D., Stanstead.
JOSEPH BREADON, M. D., Surgeon, R. N.
BENJAMIN DAMON, M. D., Cookhook.
LEMUEL RICHMOND, M.D., Derby Line.
WINSLOW LEWIS, M.D., Boston.
R. D. MUSSY, M. D., Boston.
F. J. AUSTIN, M. D., Sherbrooke.
E. D. WORTHINGTON, M. D., Sherbrooke.
Henry Simpson & Co., Montreal, Wholesale Agents.

JACOBS' RHEUMATIC LIQUID.

IS A SPECIFIC for Rheumatism or Lameness of any kind, Swelling of the Joints, Sore Throat, Cold in the Head and Diphtheria, Burns or Frost Bites, Scratches on horses, &c. &c.,

JACOBS' RHEUMATIC LIQUID.

Is an internal as well as an external remedy, and is the only one that *always* gives entire satisfaction, and all who once use it will never consent to change it for any other.

We have not space to enumerate the virtues accorded to it by thousands who have used it, and voluntarily testify to its merits. Buy a bottle and satisfy yourself that it is the best remedy ever offered.

Henry Simpson & Co., Montreal, Wholesale Agents.

HUNT'S EMPIRE HAIR GLOSS.

THE BEST Tonic Hair Dressing ever discovered. It effectually cleanses the scalp, prevents the Hair from falling off or turning prematurely gray, and when the follicles and glands are not destroyed, will produce a new and luxuriant growth of hair where it has already disappeared.

It is the cheapest as well as the best, being only 25 cents for a large bottle. Buy it, try it, you'll like it and recommend it to your friends.

Henry Simpson & Co., Montreal, Wholesale Agents.

CHOLERA, DIARRHŒA, &c.

EARL RUSSELL sent to the College of Physicians a communication received by him from Manilla (where cholera had been raging fearfully) to the effect that, of all remedies tried, Chlorodyne was the most effective.

"The day seems as yet, unhappily, far distant when public opinion or State interference will prevent the advertisement or sale of any secret medicine whatsoever. It is to be hoped that the profession will continue to brand as unworthy the conduct of those of its members who by testimonial or otherwise aid the disposal of such things."—*Lancet.*

TOWLE'S CHLORODYNE.
The Original Preparation of known Composition.
From Dr C. Kidd, Author of Standard Works on Chloroform.
Sackville-street, Piccadilly, London.
Sir,—I think if you would advertise your Chlorodyne more than you do, you would help to beat the others, which are secret compounds, out of the market. Many medical men think with me, and recommend your compound, but will never prescribe a secret remedy.
CHARLES KIDD, M.D.
To Mr Towle, Chemist, Manchester.
A Surgeon from New York writes:—"It only requires to be known to be appreciated. I have no hesitatien in characterising it (viz., Towle's Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, I have found it to relieve more pain and cause more joy than any other article that can be named."
NOTE.—The Profession is warned against inferior, secret, and cheap compounds now in the market. Each genuine bottle bears a facsimile of Proprietor's signature on the stamp outside.
LIQ. CHLOROFORMI Co. OR CHLORODYNE WITHOUT PEPPERMINT.
Sole Manufacturer:—A. P. Towle, Chemist, Manchester.

Manufactory, 7 Vine Street, Bloomsbury, London, and Depot, 5 Rue du Grand Chantier, Paris. Established 1770.

DR. VICTOR BAUD'S ORGANIC MEDICINE.

DR. V. BAUD, Graduate and Member of the Medical College of Paris, Chief Physician Extraordinary for Epidemics in Paris, late M.D. of the Civil Hospitals of Algiers, has just introduced in England his ORGANIC MEDICINES.
They consist of three preparations—
THE BAUDEINE,
An efficient and prompt Remedy for Cholera, Yellow Fever, Diarrhœa, Dysentery, and the excessive action of the Bowels. A gold medal was awarded by the French Government to Dr V. Baud for this valuable preparation.
Price: Small, 1s 1½d; Medium, 4s 5d; Large Size, 11s per Bottle.
THE DIASTATIZED IRON,
For strengthening the System.—Price 2s 9d per Bottle.
THE DIASTATIZED IODINE,
For purifying the Blood.—Price 2s 9d per Bottle.
⁂ The above Preparations are in the form of Sweetmeats, pleasant to the taste, and particularly adapted for Infants and Mothers nursing.
By the combination of the Iron or Iodine with Cress Seeds in a state of germination, they are united with organic life, which thus renders them digestible. The irritative and stubborn mineral has thus become the nucleus of an organic substance capable of being absorbed by the blood without injury to the stomach.
Agent for England and British Possessions, E. G. DUFRESNE, 79 Watling Street.
May be obtained of all Chemists.

COUNTY COURT SUMMONSES.—Tenenac, for sale at the Daily News Office. All kinds of Law Forms printed to order with accuracy and expedition.

BILL HEADS and other kinds of JOB PRINTING executed with neatness and despatch at the Daily News office, Princess Street

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmacentist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."
Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.
The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."
Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.
The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—
Detecting organic impurities in air and water.
Purifying drinking and other water from organic matter, lead, &c.
Freshening the air of close places, and removing bad smells.
Freeing meat, fish, butter, or other provisions from taint.
Counteracting the effects of organic poisons taken into the stomach.
Curing Musty provender. Freeing wheat and other seed from smut.
Maintaining the health of plants in pots and conservatories.
Preserving and restoring the freshness of cut flowers kept in water.
Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.
Washing dogs and other domestic animals.
Cleansing bottles, beer barrels, pickling tubs, dairy utensils.
Washing the hair and darkening its colour when turning grey.
Enhancing the purifying and invigorating effects of baths and tubs.
Dressing poisoned wounds and destroying animal virus
Treating the infectious diseases of cattle, horses, dogs, &c.
One gallon makes 200 to 300 gallons adapted for use.
N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.
To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.
CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)
Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.
H. BOLLMAN CONDY,
Patentee, Battersea, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.
MEMORANDA.
MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.
WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.
FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).
COTTON: Mauve, Violet and Purple are recommended.
LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.
WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.
STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.
WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the dye quickly, if applied in boiling water.
BLUE: For laundry purposes is A 1.
BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.
PAPER and WOOD STAIN: Ditto.
OAK STAIN: A bottle of No. 2 Black to half a-pint of hot water.
SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water
PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water, &c.
ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.
BLANCMANGE, JELLY, CORN FLOUR, ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.
CONFECTIONERS will find Magenta, Violet, Orange and Pink useful colours.
GELATINES and GLUES are successfully coloured with these dyes.
INK: A Sixpenny bottle of Magenta to a pint or more of cold water.
WATER: One drop of dye will tint a quart.
PRINTING on Cotton, Silk or Wool in the ordinary way.
BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

LEA AND PERRINS' Worcestershire Sauce. This delicious Condiment, pronounced by connoisseurs "The only good sauce," is prepared solely by Lea and Perrins. The Public are respectly cautioned against worthless imitations, and should see that Lea and Perrins' Names are on Wrapper, Label, Bottle, and Stopper. Ask for Lea and Perrins' Sauce.
Sold Wholesale and for Export, by the Proprietors, Worcester; Messrs. Crosse and Blackwell; Messrs. Barclay and Sons, London; &c.-&c.; and by Grocers and Oilmen universally

BRITISH PERIODICALS.

THE LONDON QUARTERLY (Conservative
THE EDINBURGH REVIEW (Whig).
THE WESTMINSTER REVIEW (Radical).
THE NORTH BRITISH REVIEW (Free ch'h)
AND
BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

THESE foreign periodicals are regularly republished by us in the same style as heretofore. Those who know them and who have long subscribed to them, need no reminder; those whom the civil war of the last few years had deprived of their once welcome supply of the best periodical literature, will be glad to have them again within their reach; and those who may never yet have met with them, will assuredly be well pleased to receive accredited reports of the progress of European science and literature.

TERMS FOR 1868.

For any one of the four Reviews	$4.00
For any two of the four Reviews	7.00
For any three of the four Reviews	10.00
For all four of the Reviews	12.00
For Blackwood's Magazine	4.00
For Blackwood and one Review	7.00
For Blackwood and two Reviews	10.00
For Blackwood and three Reviews	13.00
For Blackwood and four Reviews	15.00

POSTAGE.

When sent by mail, the Postage to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Eight Cents a year for each of the Reviews.

Subscribers may obtain back numbers at the following reduced rates, viz:
The *North British* from January, 1863, to December, 1866, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1866, inclusive, and the *London Quarterly* for 1865 and 1866, at the rate of $1.50 a year for each or any Review; also Blackwood for 1866, for $2.50.
THE LEONARD SCOTT Publishing Co., 38 Walker-street, N.Y.

The L. S. Pub. Co. also publish

The Farmer's Guide

By Henry Stephens of Edinburgh and the late J. P. Norton, of Yale College. 2 vols. Royal Octavo, 1600 pages and numerous Engravings.
PRICE—$7, for the two volumes. By the post paid, $8.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.
Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.
"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.
"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.
"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.
"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.
"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."
"Dr. Granville] has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.
"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

TO A YOUNG MERCHANT—When you pay more for the rent of your business house than for advertising your business, you are pursuing a false policy. If you can do business, let it be known."—FRANKLIN.

420 Broome St.

STALL'S UNRIVALLED PIANO POLISH!
NITURE POLISH!
JUST INTRODUCED, and being used by all leading houses in the trade. Pianos, Organs, Billiard Tables, Furniture, &c. Every one who has a Piano should buy a bottle of this Polish. Send for Circular, we will give full particulars and testimonials of all corporations in favor, that it was found that the measure adopted by the Legislature hastened them by the Dutch church and Presbyterians, that measure it met with opposition as that now regarding the Church of England, it would desolate, desecrate its property, endowment fund, the country, should not the support of the Church of England amongst them.
Half a dozen are ordered at once, that measure it met with opposition as that now regarding the Dutch church and Presbyterians, it would desolate, desecrate its property, endowment fund, the country, should not the support of the Church of England amongst them.
Price for square, for one year, for $3 with the privilege of altering three times a month.
Half square for Daily paper $2 with same privilege.
N.B.—The square to be confined to ordinary business of commercial houses, such houses it will not be held to include Sales, Advertisements of Ships, Removals, partnership Notices, Private Advertisements, Individual Members of Firms, Houses for Sale.
JAMES NEISH,
