### PROPERLY FINISHED POULTRY ENSURE A STEADIER MARKET

Producers, according to Charles E Broughton, of the Departmental staff should avoid rushing unfinished birds to market, particularly at this season. Too many birds of unfinished quality reaching the market are likely to cause a break in prices. On the other hand, if these birds are held over, and given proper finish, better prices will be realized by the producer.

It is anticipated that firm prices will follow the holiday season for quality poultry.
