CATHOLIC APOSTOLIC CHURCH (Queen Street).—Morning Service, 10:00; Evening Service, 5:00.

RELIGIOUS TEMPERANCE MEETING at the Sons of Temperance Hall, Princess Street, every Sunday afternoon, from 4½ to 5 o'clock.

The success that has attended the employment of velocipedes for the rural postmen in the Department of the Aube has induced the Post-Master General to extend the idea. In addition to delivering letters, the postman, as he rolls along in his three-wheeled machine, executes little commissions, placing light parcels in a box for that purpose. Three hours per day are saved in the delivery of letters.

The state of the Prince Royal of Belgium still creates great uneasiness, and the medical advisers have to protest very seriously that they are not without hope, in order to prevent the conclusion in the public mind that the recovery of the poor lad is impossible. The difficulty of breathing cannot now be relieved, as in more favourable weather, by keeping the Prince in the open air, and on one recent occasion it was actually necessary to place his bed close to an open window even during a storm of rain, and in this situation, while the rain saturated his bed-clothes, the poor little Duke lay panting for breath, while the King and Queen, in the dead of night, stood watching him.

It is one of the strangest infirmities of man that he is impelled every now and then purposely to make a fool of himself without a shadow of necessity. And of all the opportunities for self-stultification, none seems so enticing as betting on elections. The other day we heard of a grave and reverend Senator parading himself bareheaded through a city with the attendance of a brass band and a mob, as a penalty for making a wrong guess about the vote in a certain town. Another gentleman wheels a free and independent voter through the streets in a barrow. A third walks from New York to Hartford with a flag on his shoulder; and we have heard of one overconfident man who pledged himself to eat a baked crow. It is a great pity that some more rational means cannot be devised of testifying to the strength of one's political convictions.—*Tribune.*

The keeper of Minot's Light had retired to rest for the night on Wednesday, and his assistant was proceeding to the top of the structure, when a great crash was heard, resounding through the whole substantial building. The lighthouse keeper supposed his assistant had, by accident, broken some glass vessel or other, but the latter, with alarm on his countenance, soon reported that the plate glass constituting one side of the great lantern at the top of the lighthouse had been smashed in, perhaps by a rifle ball. Examination was immediately begun to ascertain the cause of the occurrence, and after a little time the discovery on the ledge of the lighthouse of a dead shelldrake duck, with nearly every bone in its body broken, explained what would otherwise have been a very mysterious affair. The little winged wanderer was probably flying at a great speed, and being attracted by the light, precipitated itself against the glass, and the concussion brought its career to a sudden and untimely close. The glass broken was more than a quarter of an inch in thickness, and it is impossible to replace the pane that was thus summarily displaced with glass equally thick purchased in Boston. The duck which achieved this feat, although his bones were broken, had no contusions on the exterior of his body. He was cooked, eaten, and pronounced excellent by the lighthouse keeper and his family.

ANECDOTE OF DANIEL WEBSTER.—In the somewhat famous case of Bodgen's will, which was tried in the Supreme Court some years ago, Mr Webster appeared as counsel for the appellant. Mrs Greenough, wife of the Rev. Wm. Greenough, late of Weston—a tall, straight, queenly-looking woman, with a keen black eye—a woman of great self-possession and decision of character—was called to the stand as a witness on the opposite side. Mr Webster, at a glance, had the sagacity to foresee that her testimony, if it contained anything of importance, would have great weight with the court and jury. He, therefore, resolved, if possible, to break her up. And when she answered, to the first question put to her, "I believe," Mr Webster roared out: "We don't want to hear what you believe; we want to hear what you know!" Mrs Greenough replied; "That's just what I was about to say, sir," and went on with her testimony. And, notwithstanding his repeated efforts to disconcert her, she pursued the even tenor of her way, till Webster, quite fearful of the result, arose, apparently in great agitation, and, drawing out his large snuff-box, thrust his fingers to the very bottom, and carrying the deep pinch to both nostrils, drew it up with a gusto; and then, extracting from his pocket a very large handkerchief, he blew his nose with a report that rang through the hall, and asked: "Mis Greenough, was Mrs Bodgen a neat woman?" Mrs G.: "I cannot give you very full information as to that, sir: she had one very dirty trick." Mr W.: "What was that, ma'am?" Mrs G.: "She took snuff." The roar in the court-house was such that the defender of the Constitution subsided, and neither rose nor spoke again till Mrs Greenough had vacated her chair for another witness; having ample time to reflect on the inglorious fate of the man who had a stone thrown upon his head by a woman.

R. M. ROSE.
April 23

ART OF ADVERTISING.—Horace Greeley, of New York, says:—The most successful business men in this city are those who have advertised liberally and constantly. A small advertisement constantly appearing is better than a display column occasionally.

TRANSIENT ADVERTISEMENTS.—The large circulation of the DAILY NEWS renders it the natural medium for the publication of all small and transient advertisements, as well as larger announcements. Advertisements of religious notices and Sabbath services; situations wanted; situations vacant; houses for sale; houses to rent; houses wanted; board and lodging; rooms wanted; board wanted; articles lost; articles found; cattle wanted; cattle for sale; cattle strayed, &c., when set close, inserted for 25 cents each insertion, payable only in advance. When displayed, a proportionate price will be charged.

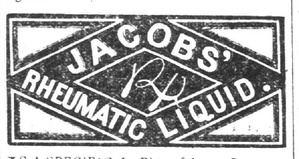
SUGAR-COATED

ARE a safe and reliable remedy in all diseases of the *Stomach, Liver* and *Bowels.* They are not *Quack* Medicines puffed up by high sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbation of the *medical profession.* They do not profess to be a cure-all, but for all diseases arising from any derangement of the *Stomach, Liver* and *Bowels,* they furnish an effectual remedy. We have in our possession, over one hundred testimonials from physicians who have used them in their practice and highly approve of them, among which are the following.

J. H. GIBSON, M. D., Dunham, C. E.
C. E. COTTON, M. D., Cowansville.
CHARLES BROWN, M.D., Cowansville.
S. S. FOSTER, M. D. Broome.
J. C. BUTLER, M. D., Waterloo.
JOHN ERSKINE, M.D., Waterloo.
NORMAN CLEVELAND, M. D., Barnston.
N. JENKS, M. D. Barnston.
C. W. COWLES, M. D. Stanstead.
JOHN MEIGS, M. D., Stanstead.
JOSEPH BREADON, M. D., Surgeon, R N.
BENJAMIN DAMON, M.D., Coaticook.
LEMEUL RICHMOND, M.D., Derby Line.
WINSLOW LEWIS, M.D., Boston.
R. D. MUSSY, M. D., Boston.
F. J. AUSTIN, M.D., Sherbrooke.
E. D. WORTHINGTON, M. D., Sherbrooke.
Henry Simpson & Co., Montreal, Wholesale Agents.



IS A SPECIFIC for Rheumatism or Lameness of any kind, Swelling of the Joints, Sore Throat, Cold in the Head and Diphtheria, Burns or Frost Bites, Scratches on horses, &c.' &c.,

JACOBS' RHEUMATIC LIQUID,

Is an internal as well as an external remedy, and is the only one that *always* gives entire satisfaction, and all who once use it will never consent to change it for any other.

We have not space to enumerate the virtues accorded to it by thousands who have used it, and voluntarily testify to its merits. Buy a bottle and satisfy yourself that it is the best remedy ever offered.

Henry Simpson & Co., Montreal, Wholesale Agents.

THE BEST Tonic Hair Dressing ever discovered. It effectually cleanses the scalp, prevents the Hair from falling off or turning prematurely gray, and when the follicles and glands are not destroyed, will produce a new and luxuriant growth of hair where it has already disappeared.

It is the cheapest as well as the best, being only 25 cents for a large bottle. Buy it, try it, you'll like it and recommend it to your friends.

Henry Simpson & Co., Montreal, Wholesale Agents.

EUGENE RIMMEL,

PERFUMER by appointment to their Majesties the Emperor of the French, the Queen of Spain, the Queen of Holland, the Queen of the Belgians, and the King of Portugal; and H.R.H. the Prince of Wales.

TIDMAN'S SEA SALT, for producing a real Sea Bath in your own Room. The above favourite preparation is strongly recommended.

Sole Proprietors—TIDMAN & SON, Chemists, 16 Wormwood Street, London, E.C.

CHOLERA, DIARRHŒA, &c.

EARL RUSSELL sent to the College of Physicians a communication received by him from Manilla (where cholera had been raging fearfully) to the effect that, of all remedies tried, Chlorodyne was the most effective.

"The day seems as yet, unhappily, far distant when public opinion or State interference will prevent the advertisement or sale of any secret medicine whatsoever. It is to be hoped that the profession will continue to brand as unworthy the conduct of those of its members who by testimonial or otherwise aid the disposal of such things."—*Lancet.*

TOWLE'S CHLORODYNE.

The Original Preparation of known Composition.

From Dr C. Kidd, Author of Standard Works on Chloroform.

Sackville-street, Piccadilly, London.

Sir,—I think if you would advertise your Chlorodyne more than you do, you would help to beat the others, which are secret compounds, out of the market. Many medical men think with me, and recommend your compound, but will never prescribe a secret remedy. CHARLES KIDD, M.D.

To Mr Towle, Chemist, Manchester.

A Surgeon from New York writes:—"It only requires to be known to be appreciated. I have no hesitation in characterising it (viz., Towle's Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, I have found it to relieve more pain and cause more joy than any other article that can be named."

NOTE.—The Profession is warned against inferior, secret, and cheap compounds now in the market. Each genuine bottle bears a facsimile of Proprietor's signature on the stamp outside.

LIQ. CHLOROFORMI Co. OR CHLORODYNE WITHOUT PEPPERMINT.

Sole Manufacturer:—A. P. Towle, Chemist, Manchester.

DR. VICTOR BAUD'S ORGANIC MEDICINE.

DR V. BAUD, Graduate and Member of the Medical College of Paris, Chief Physician Extraordinary for Epidemics in Paris, late M.D. of the Civil Hospitals of Algiers, has just introduced in England his ORGANIC MEDICINES.

They consist of three preparations—

THE BAUDEINE,

An efficient and prompt Remedy for Cholera, Yellow Fever, Diarrhœa, Dysentery, and the excessive action of the Bowels. A gold medal was awarded by the French Government to Dr V. Baud for this valuable preparation.

Price: Small, 1s 1½d; Medium, 4s 5d; Large Size, 11s per Bottle.

THE DIASTATIZED IRON,

For strengthening the System.—Price 2s 9d per Bottle.

THE DIASTATIZED IODINE,

For purifying the Blood.—Price 2s 9d per Bottle.

*** The above Preparations are in the form of Sweetmeats, pleasant to the taste, and particularly adapted for Infants and Mothers nursing.

By the combination of the Iron or Iodine with Cress Seeds in a state of germination, they are united with organic life, which thus renders them digestible. The irritative and stubborn mineral has thus become the nucleus of an organic substance capable of being absorbed by the blood without injury to the stomach.

Agent for England and British Possessions,
E. G. DUFRESNE, 79 Watling Street.
May be obtained of all Chemists.

BILL HEADS and other kinds of JOB PRINTING executed with neatness and despatch at the Daily News office, Princess Street

ADVERTISEMENTS for the DAILY NEWS, intended to appear the same evening, should be sent in at as early an hour in the day as possible.

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."

Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.

The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."

Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.

The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—

Detecting organic impurities in air and water.

Purifying drinking and other water from organic matter, lead, &c.

Freshening the air of close places, and removing bad smells.

Freeing meat, fish, butter, or other provisions from taint.

Counteracting the effects of organic poisons taken into the stomach.

Curing Musty provender. Freeing wheat and other seed from smut.

Maintaining the health of plants in pots and conservatories.

Preserving and restoring the freshness of cut flowers kept in water.

Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.

Washing dogs and other domestic animals.

Cleansing bottles, beer barrels, pickling tubs, dairy utensils.

Washing the hair and darkening its colour when turning grey.

Enhancing the purifying and invigorating effects of baths and tubs.

Dressing poisoned wounds and destroying animal virus.

Treating the infectious diseases of cattle, horses, dogs, &c.

One gallon makes 200 to 300 gallons adapted for use.

N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.

To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.

CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)

Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.

H. BOLLMAN CONDY,
Patentee, Battersea, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.

MEMORANDA.

MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.

WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.

FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).

COTTON: Mauve, Violet and Purple are recommended.

LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.

WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.

STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.

WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the dye quickly, if applied in boiling water.

BLUE: For laundry purposes is A 1.

BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.

PAPER and WOOD STAIN: Ditto.

OAK STAIN: A bottle of No. 2 Black to half a-pint of hot water.

SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water

PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water, &c.

ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.

BLANCMANGE, JELLY, CORN FLOUR, ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.

CONFECTIONERS will find Magenta, Violet Orange and Pink useful colours.

GELATINES and GLUES are successfully coloured with these dyes.

INK: A Sixpenny bottle of Magenta to a pint or more of cold water.

WATER: One drop of dye will tint a quart.

PRINTING on Cotton, Silk or Wool in the ordinary way.

BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

LEA AND PERRINS' Worcestershire Sauce. This delicious Condiment, pronounced by Connoisseurs "The only good sauce," is prepared solely by Lea and Perrins. The Public are respectly cautioned against worthless imitations, and should see that Lea and Perrins' Names are on Wrapper, Label, Bottle, and Stopper. Ask for Lea and Perrins' Sauce.

Sold Wholesale and for Export, by the Proprietors, Worcester; Messrs. Crosse and Blackwell; Messrs. Barclay and Sons, London; &c. &c.; and by Grocers and Oilmen universally

THE LONDON QUARTERLY (Conservative
THE EDINBURGH REVIEW (Whig).
THE WESTMINSTER REVIEW (Radical).
THE NORTH BRITISH REVIEW (Free ch'h)
AND
BLACKWOOD'S EDINBURGH MAGAZINE
(Tory.)

THESE foreign periodicals are regularly republished by us in the same style as heretofore. Those who know them and who have long subscribed to them, need no reminder; those whom the civil war of the last few years had deprived of their once welcome supply of the best periodical literature, will be glad to have them again within their reach; and those who may never yet have met with them, will assuredly be well pleased to receive accredited reports of the progress of European science and literature.

TERMS FOR 1868.

For any one of the four Reviews	$4.00
For any two of the four Reviews	7.00
For any three of the four Reviews	10.00

THE LEONARD SCOTT Publishing Co.,
38 Walker-street, N.Y.

The L. S. Pub. Co. also publish

The Farmer's Guide

By Henry Stephens of Edinburgh and the late J. P. Norton, of Yale College. 2 vols. Royal Octavo, 1600 pages and numerous Engravings.

PRICE—$7, for the two volumes. By the post paid, $8.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.

"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."

"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.

"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

PROGRAMMES AND POSTERS Steamboat and Excursion Bills and Tickets, executed expeditiously at the DAILY NEWS STEAM PRINTING HOUSE Princess Street.

TO A YOUNG MERCHANT—When you pay more for the rent of your business house than for advertising your business, you are pursuing a false policy. If you can do business, let it be known.—FRANKLIN.
