Old Car Looks Older

We do not know whether designers of 1933 autos worked deliberately with the idea of making nearly all the former cars look old, but they have succeeded in doing so. The radiator has been all shifted around; it is not so formidable looking as the old straight sort; it even appears more friendly in case of a bump, and gives half promise that it would not strike you all at once. Then those new curves and lines in the closed-in part of the car where folk sit. How different. Graceful indeed, and yet how odd by way of comparison they make the old pink sedan of other years appear. The old-style car looks squared off, severe and shapeless in comparison, and there is not a thing we can do about it. There are times when we can use pieces of wire and all such to try and hold sections of the old car together and in this way retard the process of disintegration, but as far as we can learn there is no way in which those severe lines which fairly screech of ancient vintage can be made to conform to the lines of 1933. They are harsh and they will remain harsh; we cannot soften them or bend or change them so they will be caused to come into conformity with the designers' arts of present hour. The owner of the car of other days keep it shined, and the engine may glide like an eel swimming in thin oil, but of no avail. The car makers and designers have done him in; they have, by a combination of artistic conception and graceful execution, caused to be born a generation of cars which are separate and apart from the tanks of yester-year. They may not have worked with the idea of making the old car look older; we would hesitate to suggest any such thing. And yet —how well they succeeded in doing that very thing.

Skating Party

Thursday night is a big night for the older skaters of the district to enjoy a skate at the Flesherton rink. A special skating party is being held for their enjoyment and a pleasant evening is assured. A special prize is being given for the oldest skater on the ice. Get those skates out from among the moth balls and enjoy skating again. The admission price is 15 cents.

It has been decided to keep on illuminating Niagara Falls this year A few bright spots won't do us any harm.

Artemesia Educational Association Meeting

The Educational Association of the Township of Artemesia met in the hall in Flesherton on Saturday afternoon, with a fair attendance.

Several motions were presented among those finding favor being that in rural school sections the school age be raised from 5 to 6 years; that $2 of the government grant be withheld from each school section and given to the Provincial Educational Association and in lieu of that each school section be given a copy of the School Journal for one year and the expenses of their delegate paid. A resolution from S. S. No. 14, Artemesia and Euphrasia was presented, as follows: "that Section 109 of the School Act be amended and read so as not to have any bearing on the salaries paid to teachers and that the township school grant be scaled down at least 35 per cent." S. S. No. 9 Artemesia, is aso sending a resolution to the O. E. A. along the same line; and that the Public School Inspector be not allowed to withhold the township grant on account of any salary below the minimum.

High taxation was the general theme throughout the meeting and Mr. Thos. Henry of Springhill clearly explained the boat we are in and said it was very hard to dance to the tune While we paid for the fiddling we are not allowed to call the tune.

At the close of the meeting Mr Geo. Cairns was re-elected president for the coming year, and Mr. R. W Douglas was appointed Vice-President. Mr. Archie Stewart was elected 2nd Vice-President and Mr. Neil McCannel Secretary-Treasurer.

Hector has been Commissioner of Tariffs of the Department of Finance at Ottawa and had previous experience as secretary of the advisory Board of Tariffs and Taxation, under the Liberal government. We are pleased to know of the success Hector has attained at Ottawa.

The Late And. Douglas

On Decembzer 26th, 1932, in the passing of Andrew Douglas, aged 71 years, New Liskeard lost another of its early and highly respected citizens a man of sound judgment and sterling qualities.

He moved to New Liskeard with his family twenty-six years ago. Before his illness, six and a half years ago he was engaged in various helpful works, and for a number of years was engaged as a trusted book keeper at the Wabi Iron Works. He had been a member of the high school board, a teacher in the Sunday school a member of the church board and a faithful attendant at St. Andrew's Presbyterian church.

The funeral service was held on Monday afternoon at 3 o'clock.

Those left to mourn his loss are his loving wife and one son, Chris., who tenderly cared for him during his long illness. He also accompanied the remains to the home of Mr. Chris. Thompson, Mrs. nDouglas' brother, at Feversham, from where interment took place in the family plot of the Presbyterian cemetery in that village on Wednesday afternoon at two o'clock.

Their many friends of New Liskeard and Feversham join in extendng their sincere sympathy to the bereaved ones.

WEEKLY CROP REPORT

Haldimand County was the scene of a sale of purebred Dual Purpose Shorthorn cattle recently at which the top price of $127.50 was paid for bulls and $135.00 for cows, with the average price for the sale running around $80.00 for all cattle of all ages. This was considered most satisfactory by all concerned. The sale was very well attended and bidding was remarkably brisk at all times. Both Haldimand and Kent counties report that plowing was general in January, many farmers taking advantage of the mild weather to catch up on this work which was delayed owing to the dry weather last fall. The wheat crop has suffered in some districts owing to the unusual weather conditions. On the heavy lands some heaving has taken place and the crop somewhat discolored. New seedings of clover have also suffered. Lincoln county reports that eggs are being produced in much larger quantities now that spring is approaching Hatcheries are incubating eggs by the thoousands and in a few cases the first lots of chicks have been sold. There are more enquiries now for productive breeds, namely purebred registered stock. Down in Peterborough County, the attendance of farmers when the swine train visited that county recently showed that there is still considerable interest in hog-raising despite the low prices. Eastern Ontario has lacked snow and much heaving of meadows is reported and heavy damage for hay crop next summer is feared. Wood, an important cash crop, has been trucked and drawn in wagons.

Address and Presentation

To Mr. John Beatty:

Dear Mr. Beatty, we your friends and team-mates of the Feversham football club are gathered together on this occasion to tender you our sympathy for your recent misfortune and also to congratulate you on your satisfactory recovery.

As a practical token of our good wishes we ask you to accept this sum of money, trusting that it will reimburse you in a small measure for the pains you have suffered and the time lost on a sick bed.

We sincerely hope that you will again be a valued member of our team this coming summer and help us to win further laurels for the Feversham Maple Leaf football team.

—Signed on behalf of the above football team.
