The Flesherton Advance.

Vol. 52, No 35 | Flesherton, Ontario, February 15 1933 | W. H. Thurston & Son, Proprietor

CEYLON

Mr. Thomas Stewart received a message on Monday that his mother had passed away that morning at her home near McIntyre, after several months of illness. Mr. Jas. W. McMullen carried the mail during Mr. Stewart's absence.

The Ladies' Aid will be held at the home of Mrs. Archie Sinclair, on February 22nd, at 2 p.m. Lunch com.—cake, Mrs. F. Collinson and Mrs. Gilchrist; sandwich, Mrs. A. C Muir and Mrs. White.

Miss Agnes Macphail, M. P., who was a speaker to the Professional Woman's Club at Toronto on Saturday and at Shelburne on Saturday night arrived home Sunday to spend the week end with her mother.

Mrs. Walker Sloan of Eugenia spent the week end with Mr. and Mrs. A. Sinclair.

We are sorry to report Mr. Thos. Irwin ill, but hope for a speedy recovery.

Mr. and Mrs. Jas. W. McMullen entertained the young people on Friday night to a card and dance party.

Mr. Harold Spoffard of Feversham spent the first of the week with Mrs. Macphail and daughter, Miss Agnes Macphail, M. P.

Miss McComb, R. N., of Toronto has returned here and will spend the winter months.

Mrs. Gordon Jackson and son, Keith, and Mr. Ted Lowes of Dundas visited with Mr. and Mrs. Donald McLeod last week.

The young people intend holding a Valentine social on Friday night at 8 o'clock in the church, when a program will be given, also a debate, "resolved that machinery is a menace to humanity". Everybody welcome. Just bring 10c with you and St. Valentine will open the door to receive you.

VICTORIA CORNERS

The weatherman tells us that he has been serving us with the worst he has given for over fifty years and we are not going to dispute him. However traffic for truck and car on No. 10 highway has not been entirely closed up, even if it would not be exactly a pleasure trip to be out on them in a car. The large snowplow has made several trips.

We enjoyed very much Mr. Leslie's sermon and visit on Sunday, even thouhg he received a very cold welcome when on the road.

We hear the tinkle of bells; is it sleigh bells or wedding bells.

Beatrice Moore visited her sister Mrs. Jack Batchelor, at Bethel last week.

Last Monday evening a number of young people entertained at the home of Wm. Talbot. The evening was spent in dancing and amusements.

League was not held last week on account of the weather.

Jim Gallagher has been at Oscar Patterson's for a few days.

PLAY IN PRICEVILLE

A three act play entitled "Civil Service" will be presented by the Young People's Society of Presbyterian church, Priceville, in the basement of the new church, Friday, Feb 24th, 1933. All home talent. Come out and hear a good clean play. Admission 25 and 15 cents.

AUCTION SALE

A credit auction sale of farm stock and implements will be held on lot 164, Con. 2 N. E., Artemesia, three miles south-east of Flesherton, east back line, the property of Mr. Hadden Hutchinson, on Wednesday, February 15. Sale at 1:30 p.m. —See bills. Geo. Duncan, Auctioneer.

St.Mary's Anglican Church
MAXWELL

Rector, Rev. Maurice F. Oldham.

Sunday school at 10 a. m. and Divine service at 11 a. m. on Sunday February 26th.

Trinity Church, Proton Station
SUNDAY, FEBRUARY 19, 1933

2 p.m. — Sunday school and Bible class.

3 p. m. — Evening prayer service and sermon.

"And I sought for a man among them, that should make up the hedge and stand in the gap before Me for the land, that I should not destroy it: but I found none." Ezekiel 22:30.

PRICEVILLE

Last week a parlor social, under the auspices of the Willing Helpers Society, was held at the home of Mr. and Mrs. Dan Campbell, when over 70 were present. Rev. Dr. McIvor opened with prayer and then games and contests were held, which caused much fun. Mrs. Wilfred Watson, president of the Society, moved a vote of thanks to Mr. and Mrs. Campbell for the use of their home, after which a bountiful lunch was served by the ladies. The proceeds of the evening were over $13.

Next Sabbath, February 19th, the opening of the new church basement will take place when a good attendance is expected. Rev. Dr. MacIvor's subject at the morning service will be "The Church we want to join," and in the evening "The Church on the Marsh."

Mr. and Mrs. Donald MacMillan, South Line, celebrated their 58th wedding anniversary last week, when supper was served at 6.30 to about 30 guests. The evening was spent in singing, music and amusement. Mr. and Mrs. Harold Karstedt and family, Mr. and Mrs. Frank Reiley and family Mr. and Mrs. W. J. McMillan and family and Mr. and Mrs. Charles Braiden of Shelburne were present. Mr. Neil McLeod, cousin of the groom, sang a number of Gaelic songs. Mr. McMillan is 84 years of age. Mrs. McMillan was unfortunate in falling last fall and since then has not recovered the full use of her arm. The groom performed the Highland Fling and was accompanied on violins by sons, Angus and Wm. J. and a neighbor, Miss Hawstrawser on the guitar. Mr. Neil McLeod also gave the Sword Dance. A very pleasant and enjoyable evening was spent together.

THE HONEST FINDER

The other evening, in conversation, the question came up about lost purses and honest finders. A remark was made that about one finder in a hundred would return the money. The suggestion was made that possibly one person in a hundred would be mean and dishonest enough to keep it without trying to find the owner. The following news item which happened to be published that day would more than bear out the latter contention:

"Most men are honest regardless of circumstances, said a woman in Winnipeg, after she recovered $40. It was lost in front of a hall in which 2,700 unemployed were eating breakfast. One of the men found it, inquired among his fellows as to its ownership and when none claimed it, turned it in to the hall superintendent. He didn't even bother to give him name."

Our experience is that the proportion of honest finders lies somewhere between these extremes. We know of instances where money and other valuables have been lost, and must have been found by somebody, but have never been returned to the owners. We know of others where such things have been found and a prompt effort made, often with success, to find the owner. This is the only honest thing to do. — Mt. Forest Confederate and Representative.

One of Orillia's factories that is very busy and has been for some time is the Orillia Worsted Company's plant. In that factory there are just over one hundred employees busily engaged for ten hours a day, six days a week, in producing worsted yarn. Their output represents enough cloth to make 700 suits of men's clothing every day.

CANADIAN TURKEYS WELCOME

A Canadian representative has recently returned from Britain where he was associated with the marketing of the Christmas trade of about 90,000 fatted poultry.

The shipment, which consisted mostly of turkeys, went over in "chilled" instead of the usual frozen condition, therefore came in direct competition with the home-killed rather than imported stock. He reports that because of the quality and attractive presentation of the shipment, which was sold chiefly in London, the stock immediately attracted the attention of the wholesalers and was quickly sold at favorable prices. He was given the assurance of the trade that a shipment of equal quality for the next Christmas season could easily be doubled in quantity without overstocking the market.

Thornbury council will not pay the rent of those on relief.

EUGENIA

The Sunday school social is being held this Friday evening, February 17, in the basement of the church. There will be contests, games and music. Ladies will provide lunch. We hope it will be a nice night for the occasion.

Mrs. Sloan has returned home from a visit the past week in Toronto.

Mr. Johnston Wood of Mimico visited the past couple of weeks with his sister, Mrs. Will. Magee, husband and family.

Miss Margaret Sinclair, teacher at 8th line, spent the week end with her friend, Miss Donalda Sloan.

The dance in the L.O.L. hall, which was to be held last Friday evening was postponed until Friday evening, February 24, on account of the cold weather and bad roads.

There will be a meeting on Wed. evening, Feb. 22, in the L.O.L. hall, Eugenia, when a representative of the Farmer's Co-operative Corporation of Toronto will give an address on "cream". All interested please attend.

The Women's Association will meet at the home of Mrs. Morgan at 2.30 Thursday afternoon of this week.

CONTROLING SWINE PARASITES

All classes of domesticated animals harbor numerous kinds of parasites and swine in particular are liable to infestation with very large numbers of these pests. The chief and most harmful parasite affecting swine is the round intestinal worm. These worms interfere materially with the absorption of food, irritate the lungs and stunt the growth. In the early stages of their development they travel through the blood stream to the lungs, are coughed up, then swallowed and pass to the intestines. Infection with worms causes coughing, pneumonia, or other lung congestions, which are fatal in many cases, and the pigs which survive are apt to be stunted and prove unprofitable feeders. Pigs heavily infested with worms become paunchy, have rough coats, may snuffle and run at the nose and eyes, and show signs of general unthriftiness. The losses from worms are great enough to make it advisable for the pig raiser to spend considerable time and effort in avoiding them.

Small pigs get the worm eggs from the udder of the sow or from the floor or walls of the pen, probably within a few days after birth. Preventive measures will go a long way in eliminating the trouble, and cleanliness cannot be too strongly recommended. This should start at the time the sow is prepared for farrowing. At the Dominion Experimental Station, Lacombe, Alberta, before the sows are put into their farrowing house, the house is thoroughly washed with a strong hot lye solution (1 pound of lye to 30 gallons of water), scrubbing the floors, troughs and walls well. The lye solution is best for the removal of worm eggs. Needless to say, the work must be well done. If cracks and corners are neglected, bad results are almost sure to follow. Three weeks previous to farrowing, the sow is well starved and given a reliable worm remedy in order to rid the intestinal tract of worms. Just previous to putting the sow in the clean farrowing pen she is washed off with warm soapsuds and a stiff brush to remove any worm eggs which may be adhering to the skin or hair. These measures protect the pigs to weaning age. At weaning time the pigs are given access to a clean lot or pasture which is known to be uncontaminated.

At Lacombe every yard and lot in which pigs run to any considerable extent is ploughed and seeded to a temporasy pasture crop at least once evesy year.

One advantage in listening to some radio programs is that one doesn't have to change the phonograph needles.

DO YOU WISH TO MAKE MONEY?

Watch the Familex contest with money prizes, which will be advertised through radio at 5:30 p.m., Station CKAC, every Monday, Tuesday, Wednesday and Thursday. One contest per week. For details on the line or products write or phone your dealer and ask for the Familex catalogue.

FLESHERTON

FEVERSHAM

In answer to the letter in The Advance on February 8th, signed shareholders: Yes I lost a good sum of money not by my own bad management, but by the curse of the credit system. Just what we are objecting to in the management of the Mill Co. business by the Board of Directors for if they had managed their own business the way they have managed the Mill Co.'s business they would have been bankrupt long ago as they are not millionaires either. They are tight business men in their own affairs and careless with the Mill Co's. business, and let the debt dodgers get away with hundreds of dollars of the Mill Co's. money every few years. Why should the directors allow anyone to get away over $200 worth of credit in the mill at any time? And the man who is intentionally careless with business entrusted and accepted by him ought to be made responsible for the loss as to the private affairs of shareholders.

Mrs. John Winters of Hatherton passed away on Sunday after a few month's illness.

Mrs. Wilbert Poole spent last week with Mrs. Howard Short.

The worst storm of the winter raged over this neck of the woods the latter part of last week and cold too. 19 below zero was registered here on Friday last, about six inches of snow fell and then the wind in a frolic blew it into drifts. A number of people were slightly frost bitten.

Mrs. Colquette is recovering slowly from her recent illness.

Messrs. Torrence and Dave Williams have the contract of cutting one hundred cords of wood for Mr. J. A. Kernahan. John Stonehouse and Wm. Hambly have the contract of one hundred cords of wood for Mr. Geo. E. Miller, on the Collingwood townline.

Our mail carriers did not make their rounds on Friday last on account of the cold and condition of the roads.

Mrs. Jack Morrison of Collingwood visited with her sister, Mrs. Leslie Poole, on the 10th line.

Mrs. Wilbert Poole of Maxwell visited with Mrs. Howard Short on the 10th line last week.

DIED

FAWCETT — At his residence near Duncan, on Monday, February 13th, 1933, Edward Fawcett, after a lengthy illness. The funeral is taking place this Wednesday with interment in the Thornbury cemetery.

McQUAY — At his residence in Osprey on Monday, February 13th, 1933, John McQuay, aged 84 years, 10 months and 23 days. The funeral will take place on Thursday February 16th with service at his late residence at 2 p.m. Interment will take place in Maxwell cemetery.

SCREENINGS TO BURN

One of the interesting effects of the present low price for grains is shown in the fact that screenings which during periods of high price found sale even in the export market as a constituent of feeding stuffs is now being used for fuel. Demand for refuse screenings as feed has practically ceased and getting rid of this bulky and fast accumulating material was quite a problem for the elevators until a market was found for its use as fuel at heat and power plants in Northwestern Ontario and in Manitoba.

TENDERS WANTED

Tenders will be received by the undersigned up to and including Saturday, February 25th, 1933, on the following: bass drum complete, snare drum complete, four bracket lamps, number of seats, one small table and also the building owned by L.O.L. 883 The highest or any tender not necessarily accepted. Address tenders to —GEO. LITTLEJOHNS,
District Rec.-Sec.
R. R. 5, Markdale

TENDERS FOR WOOD

Tenders for fifty cords of hardwood 36 inches, beech and maple, 75 per cent maple to be delivered at the High school, Flesherton, before the first day in April, 1933. Tenders received up to six o'clock p.m. of the 18th day of February 1933. The lowest or any tender not necessarily accepted.

Dated February 7, 1933.

—W. J. BELLAMY, Secretary

ROCK MILLS

Milder weather at time of writing and plenty of snow for good sleighing. Some cars have also been going through.

Mr. and Mrs. H. Deitz, of Cleveland are visiting for a few weeks at the home of the latter's brother, Mr. Wm. Phillips.

Miss Winnona Patton of Flesherton spent the past week with her friend, Miss Lorna Chard.

Miss E. M. Oliver spent the week end at her parental home near Priceville.

Mrs. Ida McDowell who has not been enjoying good health for some time went to Toronto to consult a doctor there, and to receive treatment. Her many friends here trust that she may be restored to her usual good health again.

Mr. Wm. Pedlar had the misfortune to slip and fall in his home, striking his head a severe blow which rendered him unconscious for a time. We hope he will soon be over the effects of the fall.

Miss Edith Betts is still very poorly and confined to her bed. Her many friends hope to hear of greater improvement soon.

Dr. Carefoot of Markdale was making calls on this line on Monday.

CANADIAN CATTLE FEEDS FIND NEW MARKET

According to the United Kingdom Trade Commissioner a promising trade in cattle feeds is in prospect in the British market. In the January 21st issue of the Commercial Intelligence Journal it is stated that the importation of cattle feeds, consisting of bran and other flour milling offal, from Canada is comparatively new, beginning in 1931 when Canadian shipments rose from practically nil to 22,263 long tons (2,240 lbs.). Of this amount 6,000 tons were shorts and middlings and the remainder bran. According to this report Great Britain imports about 300,000 tons of these products annually, chiefly from foreign countries Empire countries producing only some 76,000 tons in 1932.

CORRECTION RE RESOLUTION

We wish to make a correction re a resolution that was passed at the Township Educational Association meeting.

That if the Education Department witheld $2.00 of the grant from all schools for the extension of the O.E.A. Then each school Registration Fee and the subscription for one year to the Canadian School Journal would be paid, but not all expenses.

—The Secretary.

per, ventilation, insulation and sanitation; it should have a proper location, plenty of light, be dry and have ample floor space.

SOME OF THE BEST OF THE NEWER ORNAMENTAL PLANTS

There are large collections of ornamental plants at the Central Experimental Farm, Ottawa, in which the newer varieties are compared with the old. It often is found that a high priced new variety is no better if as good, as some variety very much like it. A great many new varieties of iris, for instance, have been introduced in recent yeras but only a few justify the price charged for them. The following iris, however, of which the price has now become reasonable, are among the distinct acquisitions and should be in every garden which has a collection of iris: Mount Royal, True Charm, Amber, Gay Hussar, Lady of June, Souvenir de Loetitia Michaud, Majestic, Zulu, Tropic Seas, Geo. J. Tribolet, Rheintochter, Mrs. Marion Cran, Imperator. Lord Lambourne, Valencia and Purissima.

The prices of peonies drop more slowly than those of iris and some of the good ones can scarcely be called of newer introduction nevertheless a few of the best double varieties tested at the Experimental Farm which may be mentioned which have come down considerably in price in recent years are: LeCygne, Solange, Madame Jules Dessert, Therese, Tourangelle, Walter Faxon, Sarah Bernhardt, Longfellow and Kelway's Glorious.

Great advances have been made in Delphiniums in recent years. The most economical plan is to sow seed from the best named varieties and among the seedlings will usually be found some outstanding sorts.

The perennial lupines are charming plants and there has been great improvement in them in recent years. Seed of the best strains will usually give some lovely varieties.

Among the newer ornamental plant, the Regal lily has, perhaps, made the greatest impression on flower lovers. It is so hardy, so readily raised from seed and such a glorious sight in summer when in bloom that no garden should be without it.

Everyone who has room for a lilac should get one or more of the newer varieties, among which may be mentioned Le Marechol Foch, Edith Cavell, Decaisne, Congo, Olivier de Serres, Paul Thirion, President Fallieres, and there are many others, some of which, though they have been available for a good many years are rarely seen in Canadian gardens The collection at the Experimental Farm, Ottawa, when in bloom in May is a sight not to be forgotten.
