ROBBERY AND FIRE AT THE EXAMINING WAREHOUSE, MONTREAL.

Yesterday morning, about six o'clock, a fire was discovered in the Examining Warehouse, Common street. The alarm was given, and the firemen were quickly on the spot, and the flames extinguished before they had made any considerable progress. During the fire, Mr Perry discovered the premises had been broken into, and the contents taken away. There was a package of gold watches, belonging to Messrs. H & A. Sandrs, with several other valuables, taken from his desk. The robber then, evidently, entered the private office of the official connected with the Customs Department, and forced Mr McNider's desk and took therefrom $15, and some coats that were in this office. Having done this he descended to the basement and fired a quantity of wall paper, which, however, did not burn as well as anticipated, and left by the cellar window. Mr Perry at once gave Mr Penton his ideas as to the whole affair. Mr Penton at once put detectives Bouchard and Murphy at work on this information, and in less than two hours the incendiary was discovered in a tavern drunk, and endeavouring to dispose of the watches. Bouchard took him in the act, and conveyed him to the police station. The damage done by the fire will probably be covered by $2,000; and the building was insured for over $100,000.

When arrested Duncan was in a tavern kept by one Duggan, in St. Paul street, and, while on his way to the Station, threw away a gold watch, which was immediately picked up and handed to his captor by a soldier. He was searched on arriving and eight gold watches were found in his possession. He took the matter quite coolly. Said that he was d——d glad that he was arrested, as it was time a stop was put to all the villainies he had been committing, and that he was accomoanied in his plundering expedition by a man named McAllister, still at large, who almost nightly slept in the Station House, and thereby ascertained that the police called in their night watches at six a.m, and for a short time thus exposed some places to robbery.—*Gazette.*

THE WAITER GIRL EXPERIMENT IN SAN FRANCISCO.

Some weeks ago, writes a San Francisco correspondent, a shrewd Yankee arrived here from the East, and after looking around for a time, and finding that fully two-thirds of the people of San Francisco boarded in restaurants, concluded to go into that business. He had observed that all the restaurant keepers employed fat, lazy and dirty Yankees, Dutchmen and Chinamen for cooks and waiters, and he conceived the idea that if he employed girls—neat, tidy, quick witted and good looking girls—for waiters, he would secure a large custom immediately.

He accordingly ransacked the employment offices for recruits, and finally secured twelve pretty girls; two of these he placed behind the counter for money takers, and the remainder were instructed to "pass around the hash." The novelty of the thing made it take immediately. The restaurant was crowded from morning till night. No one thought of eating less than twenty-five cents' worth (you must know that a person can get a fine meal for fifteen or twenty cents), and when they devoured thirty-seven cents' worth they would toss the money takers a fifty cent piece and walk away with a nonchalant air. The proprietor was in ecstacies and walked about rubbing his hands with unctuous delight.

Many of the customers would call for ice cream, and ask the fair waitress to join them—they were consequently filled chuck full of nice things all the time. Matters progressed finely for several weeks, when the proprietor began to find that his waiters were not so attentive as they ought to be; they would serve some good looking fellow with what he would order, and would then sit down and chat with him while other customers were waiting to be served. He reprimanded the girls several times, but without any effect; so he determined to secure another lot and discharge the whole caboodle.

He began his search for substitutes, saying nothing of his designs. Yesterday, howwever, he was staggered. If Johnny Morrissey or Johnny Heenan had struck a blow below the belt he could not have been more astonished; for after the duties of the day were concluded and the cash counted he was asked to attend church with the girls, as one of them was going to get married. Of course he would go, and give away the bride. If they had only given him notice in time he would have given them a nice wedding supper.

An hour's time sufficed for the girls to dress and then they all proceeded to church, where every one of them was married. During their brief career of four weeks in the restaurant they had been wooed and won by young fellows anxious to find companions for life, but who, owing to the peculiar mode of living in San Francisco, had had no opportunity of forming female acquaintances. This morning he was without waiters, and he is rushing around like a chicken with its head off, looking for more girls. His establishment is better than a matrimonial agency.

The "feature" at a late Western wedding was a bride's cake six feet high.

CHOLERA, DIARRHŒA, &c.
EARL RUSSELL sent to the College of Physicians a communication received by him from Manilla (where cholera had been graing fearfully) to the effect that, of all remedies tried, Chlorodyne was the most effective.
"The day seems as yet, unhappily, far distant when public opinion or State interference will prevent the advertisement or sale of any secret medicine whatsoever. It is to be hoped that the profession will continue to brand as unworthy the conduct of those of its members who by testimonial or otherwise aid the disposal of such things."—*Lancet.*
TOWLE'S CHLORODYNE.
The Original Preparation of known Composition.
From Dr C. Kidd, Author of Standard Works on Chloroform.
Sackville-street, Piccadilly, London.
Sir,—I think if you would advertise your Chlorodyne more than you do, you would help to beat the others, which are secret compounds, out of the market. Many medical men think with me, and recommend your compound, but will never prescribe a secret remedy. CHARLES KIDD, M.D.
To Mr Towle, Chemist, Manchester.
A Surgeon from New York writes:—"I only requires to be known to be appreciated. I have no hesitatien in characterising it (viz., Towle's Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, I have found it to relieve more pain and cause more joy than any other article that can be named."
NOTE.—The Profession is warned against inferior, secret, and cheap compounds now in the market. Each genuine bottle bears a facsimile of Proprietor's signature on the stamp outside.

SUGAR-COATED
ARE a safe and reliable remedy in all diseases of the *Stomach, Liver* and *Bowels.* They are not *Quack* Medicines puffed up by high sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbation of the *medical profession.* They do not profess to be a cure-all, but for all diseases arising from any derangement of the *Stomach, Liver* and *Bowels,* they furnish an effectual remedy. We have in our possession, over one hundred testimonials from physicians who have used them in their practice and highly approve of them, among which are the following:
J. H. GIBSON, M. D., Dunham, C. E.

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."
Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.
The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."
Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.
The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—
Detecting organic impurities in air and water.
Purifying drinking and other water from organic matter, lead, &c.
Freshening the air of close places, and removing bad smells.
Freeing meat, fish, butter, or other provisions from taint.
Counteracting the effects of organic poisons taken into the stomach.
Curing Musty provender. Freeing wheat and other seed from smut.
Maintaining the health of plants in pots and conservatories.
Preserving and restoring the freshness of cut flowers kept in water.
Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.
Washing dogs and other domestic animals.
Cleansing bottles, beer barrels, pickling tubs, dairy utensils.
Washing the hair and darkening its colour when turning grey.
Enhancing the purifying and invigorating effects of baths and tubs.
Dressing poisoned wounds and destroying animal virus
Treating the infectious diseases of cattle, horses, dogs, &c.
One gallon makes 200 to 300 gallons adapted for use.
N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.
To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.
CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)
Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.
H. BOLLMAN CONDY,
Patentee, Battersea, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.
MEMORANDA.
MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.
WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.
FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).
COTTON: Mauve, Violet and Purple are recommended.
LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.
WHITEWASH: To color: *Magenta,* for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.
STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.
WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the dye quickly, if applied in boiling water.
BLUE: For laundry purposes is A 1.
BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.
PAPER and WOOD STAIN: Ditto.
OAK STAIN: A bottle of No. 2 Black to half a-pint of hot water.
SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water
PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water, &c.
ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.
BLANCMANGE, JELLY, CORN FLOUR, ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.
CONFECTIONERS will find Magenta, Violet Orange and Pink useful colours.
GELATINES and GLUES are successfully coloured with these dyes.
INK: A Sixpenny bottle of Magenta to a pint or more of cold water.
WATER: One drop of dye will tint a quart.
PRINTING on Cotton, Silk or Wool in the ordinary way.
BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.
DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.
Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.
SELECT MEDICAL OPINIONS.
SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.
"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."
DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.
"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")
DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.
"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."
DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.
"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."
DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.
"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."
DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."
"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."
EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.
"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

PROGRAMMES AND POSTERS Steamboat and Excursion Bills and Tickets, executed expeditiously at the DAILY NEWS STEAM PRINTING HOUSE Princess Street.

TO A YOUNG MERCHANT—When you pay more for the rent of your house than for advertising your business, you are pursuing a false policy. If you can do business, let it be known."—FRANKLIN.
