WOMAN.
FEMALES, owing to the peculiar and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these contributes in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMBOLD'S EXTRACT OF BUCHU.
Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbirth, it is far oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.
When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the bal-room. Thus, with the body half-clothed, and the mind unduly excited by pleasure, perverting in midnight revels the hours designed by nature for sleep and rest, the work of destruction is half accomplished.
In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of temperature; the complete prostration produced by excessive dancing, must, of necessity, produce their legitimate effect. At last, an early marriage caps the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of our young women.
Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is, in common with the female breast and lips, evidently under the control of mental emotions and associations at an early period of life; and as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.
For Female Weakness and Debility, Whites or Leucorrhœa, Too Profuse Menstruation, Exhaustion, Too Long Continued Periods, fo Prolapsus and Bearing Down, or Prolapsus Uteri, we offer the most perfect specific known

HELMBOLD'S COMPOUND EXTRACT OF BUCHU.
Directions for use, diet, and advice, accompany.
Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. Strength is the glory of manhood and womanhood.

HELMBOLD'S EXTRACT BACHU.
is more strengthening than any of the preparations of Bark or Iron, infinitely safer, and more pleasant.

HELMBOLD'S EXTRACT BUCHU,
having received the indorsement of the most prominent physicians in the United States, is now offered to afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Restlessness and Sleeplessness at Night, Absence of Muscular Efficiency, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization or Paralysis of the Organs of Generation, Palpitation of the Heart, and, in fact, all the concomitants of a Nervous and Debilitated state of the system. To insure the genuine, cut this out. Ask for HELMBOLD'S. Take no other. Sold by all Druggists and Dealers everywhere. Price $1,25 per bottle, or six bottles for $6,50. Delivered to any address. Describe the symptoms in all communications. Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N.Y.

Mrs Winslow's Soothing Syrup.
Rev. Sylvanus Cobb thus writes in the Boston *Christian Freeman*: We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.
Sold by all druggists. 25 cents a bottle.

EFFECT OF ADVERTISING.—It is amusing at times to observe the stores of the merchants who don't advertise; to see the anxious proprietors looking into the streets and see the people go by, wondering why they don't come in, while the stores of their neighbours who do advertise are thronged with customers. Some people will learn by observation, others will not.—*Daily Palladium.*

MR WOOD'S SPEECH ON THE BUDGET.

In the Legislative Assembly on Tuesday in committee of supply, Mr Wood made his financial statement.

Hon. Mr Wood said he might remark at the outset that a good deal of difficulty existed in coming to a correct conclusion in reference to our financial condition—chiefly from two causes. One was, the present uncertainty as to what the debt of the late Province of Canada is, which was a necessary preliminary to be arrived at before the arbitrators could act in dividing the excess of that debt beyond $62,500,000 between the Provinces of Quebec and Ontario. The other was the fact that the assents of the late Province of Canada, which were to be handed over to the two Provinces, were also to be divided by the same arbitration. By reference to statement No. 4 in the public Accounts, it would be seen that on 30th September last, the amount of appropriations for the year ending 31st December, remaining unexpended, was $483,132 20. He would now direct the attention of the House to what he estimated would be the state of the appropriations for the various services at the close of the present year. The following were the conclusions he had come to—that the amount of appropriations, which would be unexpended, and which would therefore lapse for the various services, would be as follows:—

Civil Government	$24,639 62
Crown Lands Expenditure ..	34,503 71
Legislation.	2,760 04
Administration of Justice ..	15,993 21
Public Works and Buildings ..	44,133 38
Agriculture	5,591 00
Miscellaneous	4,285 20
Lunatic Asylums..	3,529 67
Aid to Superior Education ..	1,500 00
Unforseen and Unprovided ..	8,074 77
Making a total of unexpended balances on appropriations of	$145,010 61

He would not refer to what he anticipated would be the state of the cash balances at 31st December, 1868. The cash on hand on 30th September, as per Public Accounts, was $456,405 94. He estimated as receipts from Dominion of Canada—on General Account, $40,000; ditto, $100,000; on Municipal Loan Fund Account, $134,693 65; a total from Dominion of $274,693 65. From the Crown Lands Department he estimated from Crown lands, $75,000; Clergy Lands, $34,903; Common School Lands, $21,040; Grammar do., $500; total from Crown Lands, $131,443. Other receipts from 30th September to 31st December would be:—Provincial Lunatic Asylum, $1,518 96; Malden Asylum, $54,02; Education Department, $6,277 54; Casual Revenue, $4,376 34; Tavern Licences, $3,779 74; Refund, per Reformatory, $286 72; do. per T. C. Patterson, $1,208 01; do. per Hon. D. L. Macpherson, $800; Law Stamps, L. S. $2,565; Marriage Licences, $2,542; Taxes in Algoma, $100. Making a total of cash on hand at 30th September, and of cash received and estimated to be received to 31st December, of $886,350 94. From that he deducted the payment made, and to be made to 31st December, amounting to $693,405 19; which would leave cash in hand on the 31st December $192,945 75. Included in the $693,000 of payments, was an investment in Dominion Stock of $255,283 60; so that the amount of appropriations actually paid, or to be paid during the winter, aside from those which would lapse, amounting to $145,010 61, was $338,121 59. The next point to which he would call the attention of the House, was the probable state of our financial position, after providing for all liabilities, on the 31st December, 1868. This would be as follows:—

Invested in Stock of the Dominion.....	$500,000 00
Ditto ditto ditto	350,000 00
Estimated Cash Balance.....	192,945 75
Total.....	$1,042,945 75

Against which there was nothing properly to set off, except the indebtedness to the Special Funds. The two Special Funds for which it was necessary to make annual provision, were the Common School Fund which was to be divided between Ontario and Quebec, and the Grammar School Fund which belonged exclusively to Upper Canada. The principal of those two Funds
