90 Ridings In Ontario

Ontario will be split into ninety ridings—22 seats fewer than there are at present. The report was tabled early Wednesday morning by Hon. William Findlayson, Chairman of the Committee. Unless the report is amended Dufferin will disappear for the time being as a Provincial riding. The town of Orangeville and Mono and Mulmur townships are scheduled to go into South-west Simcoe, while Shelburne, Grand Valley and the townships of East Garafraxa. Amaranth, East Luther and Melancthon will be added to North Wellington. Peel and Halton are likely to remain unchanged, while the four York ridings will be continued with slightly altered boundaries. Toronto loses two seats, London one, Hamilton one, Ottawa one,, and Peterboro city is joined with Peterboro county. South Bruce disappears part of the riding going to North Bruce and part to North Huron. Grey will continue to have two ridings, north and south, with the present boundaries.

Baseball Meeting

Baseball is coming to a head in Flesherton this week and it is likely that a team will break out if the present plans go through and the boys are enthusiastic enough about it. A meeting to consider organizing is to be held in T. J. Fisher's barber shop on Thursday evening and all young fellows and others interested in the formation of a team are urged to attend. There is all kinds of material with which to field a team. Many of the boys have been playing softball for the past several years and should do well in baseball, as they did at the abbreviated game. There is said to be considerable money on hand to partially outfit a team, so there should not be any trouble to field a team. Let's be out Thursday night boys, and get baseball started in Flesherton again.

Tests show that people sleep better nude. And notice how hard it is to get the bare facts out of some bunk.

Highway No. 10 Is Impassible At Present

Highway No. 10 has been a bog during the past few days and traffic has been practically stopped, owing to the condition of the road by the frost coming out. Sunday evening a team of horses was used to draw cars which were trapped in the deep mud holes just north of Inistioge church. The entire road from Markdale to Dundalk is in a deplorable state this spring, about the worst they have been for years. Monday motor trucks were not allowed to travel through as the danger was too great, and it would mean more of the road being cut up. There was another bad spot in the highway just north of Flesherton, but cars could negotiate it in safety. The county highway to Durham and Singhampton is in very good condition, but the traffic is not as great as on Highway No. 10, and the road has a better chance to settle after heaving with the frost.

Monday evening Highway No. 10 was closed to through traffic when the road became practically impassable and cars and trucks were routed through Durham and south on the Garafraxa. It is reported that a truck was embedded in the road at Inistioge and five teams were used to move it, only to have the truck mire again. Tuesday morning a report came through that the highway between Mt. Forest and Arthur was in bad condition and that trucks could not run through.
