The Daily News,

THURSDAY EVENING, DEC. 31

☞ *SEE FIRST PAGE.*

Gen Garibaldi has written a letter formally declining a commission in the Greek army, which had been tendered to him by the Grecian Government in view of the threatened war.

The first strawberries of the season made their appearance in the New Orleans market last week, selling at $3 the basket. The citizens console themselves with the reflection that the fruit will soon become plentiful and cheap.

The Duke of Montpensier, the youngest son of Louis Philippe, is a dark-complexioned gentleman of rather slender figure, and owing to his magnificent moustache, looks like a dashing officer. Although he had several high positions in the Spanish army, his tastes are literary and commercial rather than military. He has a very strong resemblance to his brother, the Duke d'Aumale. His elder brothers, the Prince de Joinville and the Duke de Nemours, look like men of sixty or sixty-five, although they are considerably younger.

The late Archbishop of Canterburr has left a charge, not quite completed, published by the Messrs Rivington of London, in which very strong ground is taken in the Ritualistic controversy. The late Primate has denounced the Ritualists with a vigour and ability greater than any with which they have yet been assailed, and this, it is to be noted, has come from a man who, in his lifetime, took rank as a decided High Churchman. The charge comes as it were, as a voice from the grave, and from this, as well from its power, its clearness, and the decided stand taken, cannot fail to produce a great effect in the Church of England. He shows that the practice and teachings of the Ritualists are quite inconsistent with their positi n as members or min sters of the Church of England.

A statue is to be erected to the French advocate Berryer, in his native town, Marseilles.

At a late duel in Louisiana, between two high spirited gentlemen fired on the parties discharged their pieces without effect, whereupon one of the seconds proposed that the combatants should shake hands. To this the other second objected as unnecessary. "No," said he, "their hands have been shaking this half hour."

An inventive genius of Newark has conceived the idea of applying steam to the three-wheeled velocipede, leaving the rider nothing to do but to keep his seat, guide the machine, and hold on to his trifle while speeding over the ground at a 2:40 rate. The plan of this genius is to construct a boiler, 12 inches in diameter by 24 inches in height, to be placed over the hind axle-tree in an upright position; the boiler to be made of the kind of steel now being experimented upon at Pittsburg, Pa., and which has already withstood a pressure of 750 pounds to the square inch. The water tank, of four gallons capacity, to be located under the seat, and to be so constructed as to form the brace from the fore to the hind wheel; the exhaust steam to heat the water in the tank. Steam is to be generated by kerosene oil, to be fed in a furnace containing sand, through a syphon. To avoid the heat, the boiler is to be covered with felt and encased with wood. A boiler of the above dimensions would give fully one horse power, and sufficient fuel and water could be taken on board for a four hours' ride. It would not be surprising if steam velocipedes should become a reality ere long.

There was a good deal of talk during his recent visit to this country regarding the meanness of Charles Dickens in permitting the widow of his deceased brother, Augustus N Dickens, to live in extreme poverty, in Chicago, along with her fatherless children, all of them too young to be of any pecuniary benefit to her or themselves. Charles, it will be remembered, did not visit Chicago at all; and Chicago journalists were very wroth because thereof, and in order to relieve themselves the more effectually told the entire story of the lady and her relatives. To this no response was made by the distinguished novelist; but it was given out, just before his return home, that he had sent her a check for a liberal sum, one thousand dollars if we remember correctly. It is doubtful if the lady ever received that money; at all events her poverty was not entirely relieved by it. A dispatch from Chicago, December 26th, says she committed suicide on Christmas day by taking an overdose of morphine, and adds: "She sent her children to the home of her brother-in-law, Mr Lawrence, on Christmas eve, to take part in getting up a Christmas tree. They remained there over night, and on their return home discovered their mother on the floor, dead. Mrs. Dickens was thirty-five years old, and leaves three children. She has suffered much lately from poverty, being dependent almost entirely upon her friends for the necessaries of life." Augustus Dickens when living, bore the reputation in Chicago of being a quiet, industrious, respectable man. We have been told by one who knew him, however, that in England he was the subject of a variety of misfortunes, and was frequently relieved by his brother and finally assisted by him to leave the country. Evidently there are family difficulties connected with the case which ought not to be given to the world; and we should like to suggest to the thousands who will be quick to render a verdict against the novelist, that they look over again the pages of "Nicholas Nickleby" and ask if it is possible for the author of that book to be unjust to his brother's children. Let them note especially the chapter which tells how "Kate Nickleby" was assisted from the house of her uncle "Ralph," after having been subjected to the insults of his silly victims, and how she looked as she said good-night to him from the hack in which she was taken home.—*Rochester Chronicle.*

SUGAR-COATED

ARE a safe and reliable remedy in all diseases of the *Stomach, Liver* and *Bowels*. They are not *Quack* Medicines puffed up by high-sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbation of the *medical profession*. They do not profess to be a cure-all, but for all diseases arising from any derangement of the *Stomach, Liver* and *Bowels*, they furnish an efficacious remedy. We have in our possession over one hundred testimonials from physicians who have used them in their practice, and highly approve of them, among which are the following,

J. H. GIBSON, M. D. Dunham, C. E.
C. E. COTTON, M. D., Cowansville.
CHARLES BROWN, M. D., Cowansville.
S. S. FOSTER, M. D. Broome.

F. J. AUSTIN, M. D., Sherbrooke.
E. D. WORTHINGTON, M. D., Sherbrooke.
Henry Simpson & Co., Montreal, Wholesale Agents.

JACOBS' RHEUMATIC LIQUID.

IS A SPECIFIC for Rheumatism or Lameness of any kind, Swelling of the Joints, Sore Throat, Cold in the Head and Diphtheria, Burns or Frost Bites, Scratches on horses, &c.' &c.,

JACOBS' RHEUMATIC LIQUID.

Is an internal as well as an external remedy, and is the only one that *always* gives entire satisfaction, and all who once use it will never consent to change it for any other.

We have not space to enumerate the virtues accorded to it by thousands who have used it, and voluntarily testify to its merits. Buy a bottle and satisfy yourself that it is the best remedy ever offered.

Henry Simpson & Co., Montreal, Wholesale Agents.

HUNT'S EMPIRE HAIR GLOSS.

THE BEST Tonic Hair Dressing ever discovered. It effectually cleanses the scalp, prevents the Hair from falling off or turning premature gray, and when the follicles and glands are not destroyed, will produce a new and luxuriant growth of hair where it has already disappeared.

It is the cheapest as well as the best, being only 25 cents for a large bottle. Buy it, try it, you'll like it and recommend it to your friends.

Henry Simpson & Co., Montreal, Wholesale Agents.

TIDMAN'S SEA SALT, for producing a real Sea Bath in your own Room. The above favourite preparation is strongly recommended.

Sole Proprietors—TIDMAN & SON, Chemists, 16 Wormwood Street, London, E.C.

DR. VICTOR BAUD'S ORGANIC MEDICINE.

DR V. BAUD, Graduate and Member of the Medical College of Paris, Chief Physician Extraordinary for Epidemics in Paris, late M.D. of the Civil Hospitals of Algiers, has just introduced in England his ORGANIC MEDICINES.

They consist of three preparations—

THE BAUDEINE,
An efficient and prompt Remedy for Cholera, Yellow Fever, Diarrhœa, Dysentery, and the excessive action of the Bowels. A gold medal was awarded by the French Government to Dr V Baud for this valuable preparation.
Price: Small, 1s 1½d; Medium, 4s 5d; Large Size, 11s per Bottle.

THE DIASTATIZED IRON,
For strengthening the System.—Price 2s 9d per Bottle.

THE DIASTATIZED IODINE,
For purifying the Blood.—Price 2s 9d per Bottle.

⁂ The above Preparations are in the form of Sweetmeats, pleasant to the taste, and particularly adapted for Infants and Mothers nursing.

By the combination of the Iron or Iodine with Cress Seeds in a state of germination, they are united with organic life, which thus renders them digestible. The irritative and stubborn mineral has thus become the nucleus of an organic substance capable of being absorbed by the blood without injury to the stomach.

Agent for England and British Possessions, E G. DUFRESNE, 79 Watling Street.
May be obtained of all Chemists.

ORANGE CERTIFICATES and Lodge Summonses may be obtained at the DAILY NEWS OFFICE. Orders by mail promptly attended to. Devices for every description of Orange printing kept on hand at the DAILY NEWS STEAM PRINTING HOUSE.

Agent,
St. Lawrence Wharf.
Kingston, Feb. 4, 1868.

CHOLERA, DIARRHŒA, &c.

EARL RUSSELL sent to the College of Physicians a communication received by him from Manilla (where cholera had been graing fearfully) to the effect that, of all remedies tried, Chlorodyne was the most effective.

The day seems as yet, unhappily, far distant when public opinion or State interference will prevent the advertisement or sale of any secret medicine whatsoever. It is to be hoped that the profession will continue to brand as unworthy the conduct of those of its members who by testimonial or otherwise aid the disposal of such things."—*Lancet.*

TOWLE'S CHLORODYNE.
The Original Preparation of known Composition.
From Dr C. Kidd, Author of Standard Works on Chloroform.
Sackville-street, Piccadilly, London.
Sir,—I think if you would advertise your Chlorodyne more than you do, you would help to beat the others, which are secret compounds, out of the market. Many medical men think with me, and recommend your compound, but will never prescribe a secret remedy. CHARLES KIDD, M.D.
To Mr Towle, Chemist, Manchester.
A Surgeon from New York writes:—"I only requires to be known to be appreciated. I have no hesitation in characterising it (viz., Towle's Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, I have found it to relieve more pain and cause more joy than any other article that can be named."
NOTE.—The Profession is warned against inferior, secret, and cheap compounds now in the market. Each genuine bottle bears a fac-simile of Proprietor's signature on the stamp outside.
LIQ. CHLOROFORMI Co. OR CHLORODYNE WITHOUT PEPPERMINT.
Sole Manufacturer:—A. P. Towle, Chemist, Manchester.

EUGENE RIMMEL,
PERFUMER by appointment to their Majesties the Emperor of the French, the Queen of Spain, the Queen of Holland, the Queen of the Belgians, and the King of Portugal; and H.R.H. the Prince of Wales.

Pomades, Rose and Violet Powders, Cosmetics, French Extracts, Lavender Water, Cherry Tooth Paste, Lime Juice and Glycerine, and every description of preparations for the Toilet.
Messrs Burgoyne, Burbidges, and Squire receive Indents for Yardley & Co.'s preparations.
Manufactory, 7 Vine Street, Bloomsbury, London, and Depot, 5 Rue du Grand Chantier, Paris. Established 1770.

THE ORIGINAL CHLORODYNE, invented by Dr. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."
Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.
The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."
Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.
The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innocuous, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—
Detecting organic impurities in air and water.
Purifying drinking and other water from organic matter, lead, &c.
Freshening the air of close places, and removing bad smells.
Freeing meat, fish, butter, or other provisions from taint.
Counteracting the effects of organic poisons taken into the stomach.
Curing Musty provender. Freeing wheat and other seed from smut.
Maintaining the health of plants in pots and conservatories.
Preserving and restoring the freshness of cut flowers kept in water.
Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.
Washing dogs and other domestic animals.
Cleansing bottles, beer barrels, pickling tubs, dairy utensils.
Washing the hair and darkening its colour when turning grey.
Enhancing the purifying and invigorating effects of baths and tubs.
Dressing poisoned wounds and destroying animal virus.
Treating the infectious diseases of cattle, horses, dogs, &c.
One gallon makes 200 to 300 gallons adapted for use.
N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.
To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.
CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)
Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.
H. BOLLMAN CONDY,
Patentee, Battersea, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their aid almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.
MEMORANDA.
MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.
WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.
FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).
COTTON: Mauve, Violet and Purple are recommended.
LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.
WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.
STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.
WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the dye quickly, if applied in boiling water.
BLUE: For laundry purposes is A 1.
BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required. Apply with a brush.
PAPER and WOOD STAIN: Ditto.
OAK STAIN: A bottle of No. 2 Black to half a pint of hot water.
SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water
PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water. &c.
ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.
BLANCMANGE, JELLY, CORN FLOUR, ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.
CONFECTIONERS will find Magenta, Violet Orange and Pink useful colours.
GELATINES and GLUES are successfully coloured with these dyes.
INK: A Sixpenny bottle of Magenta to a pint or more of cold water.
WATER: One drop of dye will tint a quart.
PRINTING on Cotton, Silk or Wool in the ordinary way.
BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

LEA AND PERRINS' Worcestershire Sauce. This delicious Condiment, pronounced by Connoisseurs "The only good sauce," is prepared solely by Lea and Perrins. The Public are respectly cautioned against worthless imitations, and should see that Lea and Perrins' Names are on Wrapper, Label, Bottle, and Stopper. Ask for Lea and Perrins' Sauce.
Sold Wholesale and for Export, by the Proprietors, Worcester; Messrs. Crosse and Blackwell; Messrs. Barclay and Sons, London; &c.-&c.; and by Grocers and Oilmen universally

FARM FOR SALE.

THE North half of Lot No. 4, in the 4th concession of the Township of Kingston, containing One Hundred Acres (part of which is under tillage), with a Frame Dwelling House thereon. The farm is only seven miles from the city, and is close to the Portland macadamized road. Inquire at the Daily News office, Kingston.

BRITISH PERIODICALS.

THE LONDON QUARTERLY (Conservative
THE EDINBURGH REVIEW (Whig).
THE WESTMINSTER REVIEW (Radical).
THE NORTH BRITISH REVIEW (Free ch'h)
AND
BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

THESE foreign periodicals are regularly republished by us in the same style as heretofore. Those who know them and who have long subscribed to them, need no reminder; those whom the civil war of the last few years had deprived of their once welcome supply of the best periodical literature, will be glad to have them again within their reach; and those who may never yet have met with them, will assuredly be well pleased to receive accredited reports of the progress of European science and literature.

TERMS FOR 1868.

For any one of the four Reviews	$4.00
For any two of the four Reviews	7.00
For any three of the four Reviews	10.00
For all four of the Reviews	12.00
For Blackwood's Magazine	4.00
For Blackwood and one Review	7.00
For Blackwood and two Reviews	10.00
For Blackwood and three Reviews	13.00
For Blackwood and four Reviews	15.00

POSTAGE.
When sent by mail, the Postage to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Eight Cents a year for each of the Reviews.

Subscribers may obtain back numbers at the following reduced rates, viz:
The *North British* from January, 1863, to December, 1866, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1866, inclusive, and the *London Quarterly* for 1865 and 1866, at the rate of $1.50 a year for each or any Review; also Blackwood for 1866, for $2.50.
THE LEONARD SCOTT Publishing Co.,
38 Walker-street, N.Y.

The L. S. Pub. Co. also publish
The Farmer's Guide
By Henry Stephens of Edinburgh and the late J. P. Norton, of Yale College. 2 vols. Royal Octavo, 1600 pages and numerous Engravings.
PRICE—$7, for the two volumes. By the post paid, $8.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.
Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.
SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.
"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.
"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.
"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.
"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.
"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."
"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.
"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

PROGRAMMES AND POSTERS Steamboat and Excursion Bills and Tickets, executed expeditiously at the DAILY NEWS STEAM PRINTING HOUSE Princess Street.

TO A YOUNG MERCHANT—When you pay more for the rent of your business house than for advertising your business, you are pursuing a false policy. If you can do business, let it be known."—FRANKLIN.
