[ADVERTISEMENT]

HOLLOWAY'S OINTMENT and PILLS have effected an astonishing cure of an Abscess that the Faculty pronounced incurable.—Robert Paplett, mariner, of Wakefield, near Wisbech, was ill and with a dangerous abscess in the leg; he had been two years in and out hospital abroad, and pronounced incurable in order to come home, without receiving the least benefit, and at last was given up by the Faculty, who pronounced him incurable. But after using Holloway's Ointment and Pills for a short time the wound was completely healed, and has health permanently restored. The case has been attested by Mr. Abraham Atkin, and other respectable inhabitants of the parish of Wakefield. Sold by all Druggists, and at Professor Holloway's Establishment, 244, Strand London.

*Another Living Witness of the Hydropathic and Botanic Medicines, from* CAPTAIN McMASTER.

I WISH to inform the Public, for the good of the afflicted, that I was very unwell with a cough and inflammation of my lungs and chest, which threatened my whole constitution. I spared no cost or trouble to get rid of it, but I got no relief until I was advised to go to DR. LANKTREE, of Kingston, when I got his Medicine. It took but a short time, and little cost, until I could again rejoice in the return of my perfect health—thank God.

SEEING and hearing of so many testimonials for Dr. Lanktree's Medicine, brings me to recollect my duty both to him and the public; for I was some time ago, to the knowledge of many in this city, given over as an incurable case, with Enlargement of the Heart and Liver Complaint, and was effectually cured by him; also, lately, I was in despair with a Dropsical Swelling, and obtained immediate relief, so that I am now able to do my business well, thank God.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant *Assurances on Lives*, whether single or joint, to sell *Annuities*, to purchase *Reversions* and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An *exact statement of its receipts and expenditure* is annually published by the Company and forwarded to all who may be interest.

Of no other Life Assurance Company can it be said that *it invests all its funds in Canada*, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly represented by the value of such payments as they may have been made, & it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
