MUNICIPAL COUNCIL OFFICE,
Township of Pittsburgh,
December 18th, 1852.

NOTICE is hereby given that the Municipal Council of the Township of Pittsburgh in the County of Frontenac, will at the next Session of Parliament make application to the Legislature, for altering the Boundary Line of the Township, so far as the Block of Land between 5 and 700 acres, laying East of the Locks of the Rideau Canal at Kingston Mills, be transferred from the Township of Kingston to the Township of Pittsburgh, making the Rideau Canal and the Cataraqui River the boundary line between the two Townships.

By order of the Council.
ROBERT BREEZE,
18-12-i. Township Clerk.

MARRIAGE;
HAPPINESS AND COMPETENCE.

WHY IS IT?

That we behold many females, scarce in the meridian of life, broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the causes of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (with in the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge the want of which has caused the sickness and poverty of thousands.

In view of such consequences, a wife or mother is culpable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundredth Edition. 18mo., pp. 250. *Price*, 50 cts. [OR FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

IMPORTANT
TO HOUSE KEEPERS.

Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For raising Bread, Biscuit, Fried, Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c. This article is one that every

Family, Hotel, Boarding House,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantage over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.

2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.

3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted* to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water-street, New York. Sold by the best grocers and druggists generally.

An extensive sett of Tables has been computed for Assurance on Joint Lives, the Survivor of two or more lives, and for Contingent Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting human life, against which it may be prudent or expedient to provide.

The great success of this Institution in Europe, and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.

The rates of the Britannia are the lowest which can be offered consistently with security to the Assured

The income of the Company, independently of the large subscribed Capital, is about Eighty Thousand Pounds, Sterling, per Annum, and of this a great part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk.

All claims payable within three months after proof of Death.

No proof of Birth is required at the time a claim is made, the Age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question.

Policies effected by Parties on their own lives are not rendered void in case of death by Duelling or the hands of Justice. In the event of suicide, if be Policy be assigned, to a bona fide Creditor, the sum assured will be paid without deduction if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information as to the mode of effecting Assurances may be obtained either by letter or personal application o

GAS.

NOTICE IS HEREBY GIVEN, that Tenders will be received for the LIGHTING with GAS of that portion of the Welland Canal from Lock number TWO, a little below the town of St. Catherines, to Lock number TWENTY-FIVE, above the town of Thorold.

The total number of lights required at the several Bridges, Locks and Bends of the Canal, will be SIXTY at least. These lights to be exhibited within lanterns which shall be of sufficient size to contain a ring of from four to five inches in diameter, having four jets of number three, the pipes to supply the lanterns from three metres, to be of wrought iron, and not less than ¾ in clear diameter.

The Gas Works to be erected in such position as may suit the views of the Contractors, by whom the whole of the works, with everything connected therewith, for the making and furnishing of the gas, including the posts and lanterns, are to be constructed and provided. The Contractors are also to provide, and keep in repair, the necessary number of number two metres, for each of which, a rent of ten shillings a year will be paid.

The Contractors will be bound to keep the works in good and effective order, and on being notified that an escape exists, immediately to have the same stopped.

In addition to the lighting of the Canal, there is little doubt but that the respective corporations of the two rapidly increasing towns of St. Catharines and Thorold will also enter into arrangements for their lighting.

The Tenders addressed to the Chief Commissioner of Public Works, Quebec, are to be delivered in, on, or before MONDAY, the SECOND DAY OF MAY next, and are to state the price per 1000 feet for which gas of good quality will be supplied for a term of FIVE or SEVEN YEARS, as may be agreed on, and the earliest period when the works will be in full operation.

Dr. Shaw on Consumption.

There is perhaps no disease, with which our country is affected, which sweeps off annually so many victims, as that fell destroyer of the human race. Consumption. What a vast amount of suffering might be saved the human family if they would but avail themselves in season of the remedies which nature has provided for her children, and which science has reduced to such a form as to be within the reach of all. Far be it from us to tamper with those who are suffering with this painful disease. In offering you a remedy, we do not ask you to rely upon the representation of those who might be actuated by selfish and pecuniary motives but we give you the deliberate testimony of some of the most respectable physicians, that Wistar's Balsam of Wild Cherry, has established for itself a reputation that cannot be assailed. Dr. Wm. A. Shaw, of Washington, N. C. writes under date of May 1, 1846, as follows:—

"I have heard of many cases of decided beneficial effects from its use, especially in Asthma, and Chronic Cough of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked good result in those cases of great nervous mobility, and irritability, to which physical patients are subject. I have no doubt it is the best form in which the effects of Prussic acid may be had as a sedative on the constitution without danger to the patient. Every one knows the reputation of the Turpentine and Balsam constituents in protracted coughs. The combination of these principles in Wistar's Balsom of Wild Cherry is ingenious and judicious.

"Medical men are justly distrustful of Patent Medicines in general, but candor must discriminate between outrageous nostrums and humbugs and those medicines which have proved salutary, and in many well attested cases, curative."

None genuine unless signed I. BUTTS on the wrapper.
