Wiley Post Flew Over Flesherton Saturday

Flesherton citizens on Saturday evening had a wonderful view of Wiley Post, globe circling airman, when he flew over the village on the last leg of his round-the-world trip which was from Edmonton to New York, a distance of 2300 miles. He was travelling fast, approximately 150 miles an hour and in a very few seconds was out of sight of the village. He arrived over Flesherton at 8:15 p.m., just as dusk was settling and the sun on the airplane glinted in the twilight, making it a sight long to be remembered by all who were fortunate in viewing the epoch-making flight.

As evidence of Post's fast time on the trip is the fact that he arrived over Toronto at 8:50, just 35 minutes after passing this place, a distance of approximately 80 miles. At 10:55 the radio announced his arrival at New York, where great crowds assembled at the Floyd Bennett air port, from which he had departed 186 hours, 49 and one-half minutes previously, travelling 15,400 miles in circling the earth.

During Saturday a report came over the radio that Wiley Post was expected to fly over Toronto on his journey east and a few decided that this was the logical route for him to take and were on the look-out for him. He was seen by people of Eugenia, as he winged his way through the air, and for some of them it was the second chance to view world travellers as the Italian Armada was sighted to the north while on their way to Chicago on July 15th. To those who know engines it did not seem as those on the Winnie Mae were in the best of condition, as they appeared to be laboring and vibrating and his safe arrival at New York was received with pleasure.

Osprey Entrance Results

The results of the those writing on the Entrance examinations in Osprey township were later this year than usual and did not arrive in time for publication in last week's issue. Following are the successful pupils:

ENTRANCE RESULTS

Singhampton Centre—A

Perry M. Bowens, Douglas Campbell, Frank Hamilton, Hilda Healey (H), Olive Hewson, Winslow McDonald. B—Margaret Briggs (H), Helen Coutts, Oscar Hopper (H), Wm. R Lockhart, Winnie M. Lockhart, Eleanor Shields, Phyllis I. Taylor.

Feversham Centre—A

Gladys Breadner (H), Belva Conn, Doris Conn, Claude Cunningham, Evelyn Hale, Hazel Hannon (H), Elgin McCutcheon, Estelle McCutcheon, Helen J. McCutcheon (H), Harry Scott. B—Marjorie Beaton, Bruce Cameron, Elwood Dobson (H), Wilfred Haley, Eachern McInnis, Thomas McKenzie, Elmer Mullin, Bernice Poole, Guy Poole, Hubert Sayers, Delmer Seeley, John A. Stephen, Charlie Weatherall, Charles H. Winters (H).

BARN FIRES

The Ontario Fire marshals' records show that more barns are destroyed by fire originating from spontaneous combustion in hay than from any other cause except lightning in unrodded barns.

Harvest weather conditions in 1932 were so dangerous that more barn fires than ever were expected. Instead there were 278 fewer barns burned in Ontario and a decrease of 17% in the number of fires known to be caused by spontaneous combustion.

ANOTHER BLOOMER

"Half the Town Council Are Crooks," was the blaring headline.

A retraction in full was demanded of the editor under penalty of arrest.

Next afternoon the headline read:- "Half the Town Council are not Crooked."

Lower Freight Rates

The proposed policy of the railways to enter the field in competition with the trucking services, while long delayed, is the only move they had if they wish to hold on to the package freight business, which even now is pretty much in the hands of the truckers. The railways, like other businesses, are finding out that a lot of things which twenty years ago "Simply could not be done" now have to be if the business is to be had. It is all right to preach about the money investment of the railways, tell us they own their own right of way and have to maintain it, and all this sort of thing, but it is hard to convince a shipper he should pay fifty cents freight and another sixty cents cartage to the railways when he can lay the same bundle down on his doorway by truck for sixty-five cents.

This week's announcement that the railways are to inaugurate a pick-up service and abolish the cartage charges is about the first real move in this section of Ontario that they have made to show the people they need and want their package freight business. Previous to this, the package freight could go to hang, it was the carload lot business that got the preference. With the loss of the package freight end, however, which was taken from the railways by trucks, the railways found, almost too late that this really did constitute the major part of their business—and almost all of their profits. The lowly way freight has at last come into its own, but none too soon. What the result will be remains to be seen, but there is one thing sure, the railways have at last done the only thing that will enable them to increase the paying end of their freight business, or retain that which they still hold.—Durham Chronicle.

Higher Produce Prices Result Of Conference

The effect on Canadian agricultural trade of preferences granted by Great Britain, at the Imperial Conference, was not readily appreciated when sterling was depreciated, says S. H. Symons, Departmental Statistician.

Since January of this year, however, and more particularly in the last month, the price of sterling in terms of Canadian dollars has shown an almost sensational appreciation. From January 9 of this year to July 10, sterling rose from $3.76 to $4.98. This means that producers in Ontario receive approximately one-third more for their produce, without causing the British consumer any increase in price.

Canadian producers should appreciate the advantage they possess in the British market, made even more profitable by this latest rise in sterling; and every effort must be made to establish a reputation of grades and regularity of supply for Canadian farm products. These are the two essential requirements demanded by British importers.

GOOD TFPE FEEDER CATTLE SCARCE, SAYS G. H. DUNCAN

"My observations of the past week," said Garnet H. Duncan, live-stock investigator, Ontario Marketing Board, "lead me to believe that there is a very definite market awaiting the farmer who is willing to produce well-bred feeder cattle."

Bearing out his contention, Mr. Duncan said that, while travelling through Western Ontario lately, he noticed a distressing lack of good type feeder cattle. This is the case to such an extent that the proper type of feeder cattle is bringing a price equivalent to, and in some instances even higher, than that offered for the finished export animal.

He added that also there appears to be a scarcity of hand weight butcher cattle, for the local trade.

Flesherton Win First Game From Vandeleur

Durham Tennis Club is coming to Flesherton this Thursday afternoon to take part in a tournament on the local courts. Two weeks ago at Durham the two clubs were tied on points.

Flesherton won its first baseball of the League schedule at the expense of the Vandeleur club 13-11. The game was a free hitting affair, with Reg. Hutton of Vandeleur securing two triples, getting four hits at six times to bat.

Vandeleur commenced the game at 4.30 with six of their own players and Bates Fawcett of Kimberley. Howard and Russell Graham and N. Genoe came half an hour later. Incidentally the game was called for 3.30 p.m.

Bob Phillips pitched a fair game for Flesherton, forced eight of the Vans to fan, but weakened and in the last two innings he was touched for six runs. Harold and Reg. Hutton did most of the hurling for Vandeleur, although Russell Graham walked the only two batters to face him, when he tried to pitch in the seventh inning.

There was a larger crowd from town at the game on Thursday and it was very encouraging to the boys. The next home game will likely be played on August 17th.

Flesherton still has a fair chance to get into the play-off games if they replace Vandeleur in third place. To do that they have to win the remainder of their games—one with Vandeleur and two with Ravenna. Dundalk and Kimberley are sure to be in at the finish.

Dundalk was to play in Kimberley last Friday, but rain fell in the morning and the game was postponed. These two teams meet in Dundalk this Thursday afternoon and the contest should be interesting.

This Thursday afternoon a baseball game will be played on the local diamond between the junior and senior teams of town. A royal battle can be expected, as the juniors claim that they have the best team. It might be so, but be at the game at 2 p.m. sharp and see for yourself.

The League Standing

	Won	Lost
Dundalk	4	0
Kimberley	5	1
Vandeleur	2	2
Flesherton	1	4
Beaver Valley	0	5

Softball Team Wins

The Presbyterian League softball team is well on the way to establishing something of a record in league softball, having won five straight league games, with three wins in exhibition games. They have two more games to play, one with Priceville and the other with Markdale. These should be real contests, as the team is anxious to go through the schedule without a defeat.

Their last victory took place last Thursday night when they trimmed Markdale on the local diamond at the high school to the tune of 13-6. Murray Stuart starred for Flesherton when he knocked out a home run with the bases loaded. Attend the next game and enjoy a good game of ball. Following is the list of players.

Flesherton — H. Best c.; G. McMaster, p.; E. McRae, 1st.; D. Smith, 2nd.; V. McMaster, 3rd.; R. Leavell, s s.; G. Boyd, l f.; M. Stuart, c f.; B. Sled r f..

The following games are to be played in the League schedule:

July 27 — Priceville at Markdale
Aug. 3 — Markdale at Priceville
Aug. 10 — Priceville at Flesherton
Aug. 17 — Flesherton at Markdale.

Flesherton gave Markdale a real chance to win a game, Monday evening of this week when all they succeeded in doing was tieing the score 16 all on the latter's diamond. McMaster, Flesherton's star pitcher was away and the team used two pitchers who had not pitched in their life before. There were many errors on both sides, which resulted in the high score. The game was called at the end of the sixth on account of darkness. Seven innings might have been played if Markdale had made their score card before the locals arrived. After the locals arrived it was about twenty minutes before play began, as it was necessary to cut up a card board box to secure a score card, and then rule it out. We wonder whose fault this was?

Sarnia is training jobless in life saving work. Presumably, so as to be able to save their own lives when out of work next winter.

Inducted In New Charge

Rev. W. J. McIvor, former minister of Priceville church, was inducted in his new charge in Montreal, Ephriam Scott Presbyterian church. Rev. Dr. McIvor accomplished a wonderful work in Priceville in the construction of the new church there, at a time when it was not thought possible to do so. He organized the congregation thoroughly and had their co-operation to the fullest extent. Rev. McIvor made many warm friends in Priceville and this district, who wish him all possible success in his new work. Following is the report of his induction as it appeared in the Montreal Monitor:

Rev. W. J. McIvor, M.A., S.T.D., was inducted into the pastorate of the Ephraim Scott Presbyterian church, recently, and on Sunday conducted the regular services. The induction was carried out last weekend by the Montreal presbytery under the presidency of the moderator, Rev. James Adams. In his remarks to the newly-inducted minister, Rev. Adams outlined the great opportunity presented in the district and stated that fifty percent of the people who have moved into the area served by the Scott Church are not yet connected with any church. He advised him to "put first things first" in order that the great advance anticipated in the church be realized.

The congregation had been without the services of a regular pastor for a year and during that time has held together through the efforts of the Rev. Orr Mulligan, interim moderator. In his address, at the induction, he told the congregation that their new minister was not called upon to act as an entertainer, to be an organizor, but to lead them in spiritual things.

Rev. William McLean, minister of the Outremont-Presbyterian Church preached the sermon. He paid tribute to the new minister, stressed the point that he is an indefatigable worker and predicted that progress would be made under his direction. "Progress is a good test of any church," he stated in conclusion.

The induction of Rev. Dr. McIvor was one of two official acts carried out by the Montreal Presbytery at the same time. Following the service of induction, the Presbytery held a special meeting to receive a call from a Maisonneuve Church. It was accepted and forwarded to the Rev. George Rowland, of Stratford.

Is Hard Worker

Dr. McIvor comes to Montreal with the reputation of being a hard worker and in the charge just vacated, he is known as the man who built the depression church. It was in the period of difficulty that the congregation built a new church. Dr. McIvor graduated from Manitoba University in 1909 with the degree of B.A. and received his M.A. from the same University in 1912. From McCormick Seminary, Chicago, in the same year he was given his B.D. and six years later he earned the S.T.D. from Temple University, Philadelphia, Pa.

Show Good Manners

Driving into the dazzling lights of an oncoming car is dangerous business—dangerous alike to the dazzler and the dazzled. And it is so unnecessary. To dim the lights of a car is so simple and easy a task that it seems that the danger involved by not doing so would compel a motorist approaching another car at night to take this simple precaution against the possibility of accident to his own car as well as the cars of others. It should not take a law to bring about the dimming of headlights. Common decency demands that a motorist practice this simple rule of night driving etiquette, for it is etiquette, and good manners are just as essential on the road as in a ballroom.—Ailsa Craig Banner.

Two horses at Chesley were so badly stung by a swarm of bees they died a few minutes after they had been attacked. The horses, hitched to a hay mower, stumbled over a hive of honey bees.

VOTERS' LIST, 1933.

VILLAGE OF FLESHERTON

Notice is hereby given that I have complied with Section 7 of the "Voters' Lists Act" and have posted up at my office, on the 11th day of July, 1933, the List of all persons in the said Municipality to vote at Municipal Elections, and that such List remains there for inspection.

And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law, the last day for appeal being the first day of August 1933.

Dated July 17, 1933.

—W. J. BELLAMY, Clerk

Shot At In Car

While on his way to Owen Sound Sunday evening Mr. Wesley Cooey of Eugenia claims that some person in a car that was passing him on the highway north of Chatsworth shot at him with a revolver. The bullet struck the windshield a glancing blow that shattered the glass, one piece entering Mr. Cooey's cheek; the outside surface of the glass was smooth, while on the inside a section behind where the bullet had struck appeared as though it had been gouged out. Mr. Cooey says that it was not a stone which struck the glass, as he saw one of the men in the rear seat raise his arm and shoot, while resting the hand on the car door. The bullet continued across the windshield and marked the right door support. There were five men in the car from which the shooting occurred. Mr. Cooey continued to Owen Sound and did not secure the license number of the car, nor any identifying clues.

TOOK TOO MUCH IRON

A one-inch roofing nail taken from the gizzard of a chick of six weeks was exhibited by F. A. Lashley, Saturday. The chick was not thriving and was brought into the agricultural office in an effort to discover the cause of its emaciation. There being no external mark of disease it was decided to kill the bird and perform a post mortem. The nail had passed nearly through the gizzard, but the wonder is how it got from the crop to the chick's grinding mill.—Alliston Herald.

A tourist going through the U. S. Northwest suffered a slight accident. He went to a farm house and inquired of the Swede owner: "Have you a monkey-wrench here?"

"Naw," replied the Swede, "my brother bane got a cattle rench over there; my cousin got a sheep rench down there; but too cold here for monkey wrench."

THE SMALL NEWS ITEMS

The small items, the locals, in a newspaper make the most interesting reading. These are the items which mean the activities of the various people of a community, and, after all, readers are interested in other people, what they are doing, and how they live. What a wealth of human interest is often buried in a short item of two or three lines? What deep significance many items bear, significance which often escapes the readers, remarks the Soo Star. Yes, what a row two or three lines of adverse, yet deserved, criticism will create as compared to two or three columns of fulsome praise.—Exchange.
