Dr. Shaw on Consumption.

There is perhaps no disease, with which our country is affected, which sweeps off annually so many victims, as that fell destroyer of the human race. Consumption. What a vast amount of suffering might be saved the human family if they would but avail themselves in season of the remedies which nature has provided for her children, and which science has reduced to such a form as to be within the reach of all. Far be it from us to tamper with those who are suffering with this painful disease. In offering you a remedy, we do not ask you to rely upon the representation of those who might be actuated by selfish and pecuniary motives but we give you the deliberate testimony of some of the most respectable physicians, that Wistar's Balsam of Wild Cherry, has established for itself a reputation that cannot be assailed. Dr. Wm. A. Shaw, of Washington, N. C. writes under date of May 1. 1846, as follows:—

"I have heard of many cases of decided beneficial effects from its use, especially in Asthma, and Chronic Cough of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked goodresult in those cases of great nervous mobility, and irritability, to which physical patients are subject. I have no doubt it is the best form in which the effects of Prussic acid may be had as a sedative on the constitution without danger to the patient. Every one knows the reputation of the Turpentine and Balsam constituents in protracted coughs. The combination of these principles in Wistar's Balsom of Wild Cherry is ingenious and judicious.

"Medical men are justly distrustful of Patent Medicines in general, but candor must discriminate between outrageous nostrums and humbugs and those medicines which have proved salutary, and in many well attested cases, curative."

None genuine unless signed I. BUTTS on the wrapper.

DICKEN'S HOUSEHOLD WORDS AND UNITED STATES WEEKLY REGISTER

NEW ARRANGEMENT.—The publication of this periodical will hereafter be carried on by the undersigned, who have become sole proprietors of the work. With the present volume commenced a new series of the work, under the title of "Dicken's Household Words and United States Weekly Register." The original work has attained such an unprecedented popularity both in England and this country, as to render any commendation of it in this place superfluous. For variety and richness of information, vivacity of style, and genial tone of feeling, it has no rival in English periodical literature. It may justly be called the greatest intellectual labor-saving machine of the age. One has only to peruse its pleasant pages to become master of an amount of knowledge which it has required no small degree of research and energy to accumulate in this condensed but fascinating form. Nor is it less valuable in point of pecuniary saving. The price of this work for one year will give more mental entertainment and instruction to the family circle than ten times the sum spent for the common run of books. In the present edition, of copious summary of statistical facts will be given with each number, which cannot fail to prove of service to the American citizen, both for present use and future reference. The work will continue to be issued in a style of great typographical neatness, forming two volumes a year, worthy of a distinguished place on the shelves of the library or the drawing-room table.

The "Weekly Register" portion of this work contains a record of important statistics, as well as of other passing events of general interest in the United States.

The present volume of The Household Words commenced with No. 1 of the New Series, with which, and the succeeding numbers, all new subscribers can be furnished.

IMPORTANT TO HOUSE KEEPERS.

Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For raising Bread, Biscuit, Fried Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c. &c. This article is one that every

Family, Hotel, Boarding House,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantage over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.
2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.
3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.
4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.
5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted* to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water-street, New York. Sold by the best grocers and druggists generally.
