SIX IN ONE BATHING SUIT

Six Swinton Park boys wanted to go in swimming but they had only one bathing suit among them and there were ladies on the river bank nearby. The boys solved this difficulty by going into the water one at a time, then throwing the suit back to the waiting list. In this way all reached the protecting cover of the water and swam to their heart's content. It was quite an ingenious way of getting into the water under the circumstances.—Mt. Forest Confederate

Barber: "Haven't I shaved you before, sir?"

Customer: "No, I got that scar in France."

Seed Prospects

The alsike acreage was less than in some years. This year's yield is ranging from 2 to 5 bushels per acre with an average of about 3 bus. The seed is smaller than usual but generally a fine color and plump so that the quality is good. There is little carry over from last year. The first cut of alfalfa did not set its seed well enough to warrant threshing in most localities so that a shortage af alfalfa seed is possible for the 1934 seeding of the province Sweet clover is now being harvested and there would seem to be greater acreage than usual and the seed promises to be of good quality. The carry over of sweet clover seed is said to be below normal. There is an apparent increase of timothy left for seed in western Ontario and is yielding from 2 to 4 bushels per acre of good quality seed, although perhaps hulled more than usual. In the eastern part of the provinve a smaller acreage than last year was left for seed. There was a very small carry over of timothy seed in Ontario. The Canada blue grass seed crop in south-western Ontario is reported a failure this year. The carry over of old seed which is held mostly at country production points, is estimated at 4,000 sacks of 112 lbs. each.

A HELP TO THE DRIVER

There may have been some amusement among the uninitiated when manufacturers began to bring out new models equipped with relatively large speedometer dials, a year and more ago. Experience has taught many drivers in the interim that the innovation was of noteworthy advantage to them. The longer needle has the effect of rendering the instrument more sensitive. Its fluctuations are more readily noticed by the driver. The resulting tendency is for him to drive more steadily.

A story is told of a certain Brooke farmer, who one day recently had two ministers as his guests for dinner, in the course of which two young cockerels, nicely cooked, were consumed. After lunch the party went out into the yard where an old cock was strutting about, crowing defiantly. "That cock seems very proud of itself," remarked one of the clergymen. "Weel he may be," replied the farmer, "for twa o' his sons ha' just entered the ministry."

—HAVE YOU RENEWED?

Local and Personal

Mr. and Mrs. F. Pinder spent the week end in Inglewood and Toronto

Mr. and Mrs. Royden McDonald were in Toronto the first of the week.

Miss Marion Miller spent a week with friends at Meaford.

Mr. and Mrs. C. N. Richardson spent the week end at Windsor and Grand Bend.

Messrs. P. Dow, Wm. Patton and John Dow Sr. enjoyed a motor trip to Mattawa over the week end and holiday.

Flesherton Tennis Club was in a friendly tournament at Clarksburg on Thursday afternoon last, which was won by the latter with a score of 10 points to 8.

Several alleged thieves were scared from the Wilson abattoir early one morning last week, when it was supposed that they were after a number of hides that are stored there.

One of the several coons that escaped from Mr. Wes. Armstrong's ranch a couple of weeks ago was caught by Mr. Walter Akitt last week in the bush at his new fish pond.

Mr. Emerson Bellamy spent a couple of days last week at Brantford and Cayuga. In the latter place he called on Mr. Harry Davey, editor of the Cayuga Advocate, and a former member of The Advance staff.

A heavy pall of smoke has been covering this section the past few days, caused by innumerable small bush and swamp fires. The ground in both places has become dry like tinder and in perfect condition for fires to set in.

Misses Margaret, Helen and Alice Robertson returned to Toronto on Monday after holidaying with their parents, Mr. and Mrs. Jas. Robertson. The former two enjoyed a lovely trip to Trinidad, British West Indies, during the summer.

CAMP MEETING — The Gospel Workers (D.V.) will hold their 1933, 10-day camp meeting at Clarksburg from Friday, Sept. 8, to Sunday, Sept. 17. Rev. J. R. Parker, Wilmore, Kentucky, will be the principal speaker. The famous Vaughan Radio Quartette of Lawrenceburg, Tenn., will have charge of the singing. Plan to attend.

Feversham Won From Priceville

Feversham Maple Leafs won from the Priceville eleven in an exhibition game of football on Monday, Sept. 5, at Boothville field day, to the tune of 4 to 1. In the first fifteen minutes of the game both teams played hard. Feversham scored on a nice pass, Moore of the Leafs making a nice shot. The Priceville team seemed to weaken under the fast play set by the Maple Leafs and Feversham scored another goal, Henderson driving it through. Priceville scored in the last few minutes of the first period on a goal kick.

The second half was much the same Feversham setting a fast play which seemed to weaken the Priceville boys and Feversham scored two more goals in clever passes by their light footed forwards. The Feversham strong defence kept the play on Priceville goal most of the time.

Thompson starred for Feversham. On one occasion he held the ball in the mouth of the goal, sending three Priceville players over his head, and through the goal. Priceville will meet Feversham on their home grounds soon in a return game. Following is the line up:

Priceville — Goal, Burnett; full backs, Kinsman and Cameron; half backs, Reiley, Smail, Anderson; forwards, Anderson, McLean, Frook, Watson, McVicar.

Feversham — Goal, Thompson; full backs, Whalenn, McKenzie; half backs, Conn, Beatty, Shortt; forwards, Davidson, McMullen, Henderson, Moore, Hudson.

Referee — C. Alexander.

PIG FEEDING METHODS

Although there are several methods of preparing meal mixtures for feeding pigs, the following rules are recommended as safe practices in producing hogs of the desired type: (1) Grind all grain. Fine grinding is recommended especially for young pigs. (2) Soak meal mixture between feeds; do not use too much water but feed as a fairly thick slop. (3) Hand feeding is the best method for securing hogs of a desirable type. (4) If necessary, a self-feeder may be used after pigs have reached the growing stage of development. (5) Keep pails, troughs and other feeding equipment clean. Mouldy or decaying matter will cause feeding troubles and (6) Supply clean drinking water

A Waterloo youth gave his sweetie a pair of stockings and she turned them down.
