SCHOOL QUESTIONS AND ANSWERS

Question — If a child lives with its grandparents who pay taxes in a school section or town, can the school board collect fees from the municipality in which the child's parents reside? Might the child's grandparents be considered the guardian of the child?

Answer — Section 5 (3) of the Public Schools Act states,—"Every corporation, society, agent or person having the custody of a child, and being a public school supporter shall be entitled to send such child to the public school of the municipality or school section; and every such corporation, society, agent or person shall be subject to the provisions of the School Attendance Act as a ratepayer."

Question — Is it within the rights for any ratepayer to see the ballots after the election of trustees at the annual school meeting? How long should the ballots be preserved? What should be the procedure in rural schools, vote by ballot or an open vote for a trustee?

Answer — There is no provision in the Public Schools Act for voting by ballot in a rural School Section. Consequently, the proceedings would be subject to cancellation if at an annual meeting in a rural school section the ballot vote has been used.

The methods of voting provided for in the Act in a rural section are either by a showing of hands or by poll.

Question — This is my second year on the School Board. Am I entitled to know who have paid their taxes and who have not paid?

Answer — A Board of Trustees, except in unorganized municipalities, does not have an official record of those who have or have not paid school taxes. The Trustees would have only the same right as other ratepayers in securing this information from the township authorities.

How many know that if a car travelling at a speed of 35 miles per hour is immediately stopped, the driver or passenger will be thrown against the windshield with the same force with which he would hit the sidewalk in a fall from a four-storey building? Again, if two cars each travelling at a speed of 55 miles per hour meet, the damage done is the same as would result if one car had fallen upon the other from a height of 400 feet.

Local and Personal

Mr. Ray Woods visited his father at South River during the past week.

Miss Aleda Mitchell left last week for Chicago and the World's Fair, or Century of Progress. She will visit her brother, J. K. L. Mitchell, of that city, also friends in Hammond, Indiana, before returning home.

The home-town merchant is the backbone of the community. He tides us over the stress and strain of life and makes it possible for us to have things we want when we want them. Is he not deserving of the support of his community? Just think how you would get along without your home-town merchant. Without him there would be no home-town.

Misses M. E. Graham and E. O. Smith of Hamilton were guests at the Munshaw House Sunday night They have been on an extensive walking tour of Ontario this fall and travel about 25 miles each day, coming from Meaford on Sunday. They do not accept rides at any time, covering all the distance of their hike by walking. Miss Graham was in Norway earlier this summer and states that the scenery in the Beaver Valley and around Eugenia is the finest to be found anywhere.

Certain suggestions for cures for hens eating their eggs have been made such as putting dummy eggs on which the hen damages its beak or putting in the nest an egg filled with some substance such as quinine or mustard. The only sure cure, however, is to hand over the bird to the cook.

SHOOTING MATCH

A shooting Match will be held on Lot 7, Con. 9, Osprey, on Saturday, October 14th, commencing at 1 p.m. for ducks and geese, rifles and shotguns. Ammunition supplied for the latter.

—H. J. COURVOISIER

Movies At Maxwell

Disagree Together

Dundalk and Kimberley have not yet played their last baseball game to decide the winner of the Centre Grey League, both apparently agreeing to disagree. Kimberley stated they would play only on a Friday, so as to have Elmer Ellis in action, and at Vandeleur, being neutral grounds. But Dundalk would rather play on either Flesherton or Markdale diamonds than Vandeleur and so the dispute is still unsettled. Flesherton's action in dropping from the League appears to have had its repercussions.

Fall Dipping Imperative

Fall dipping of sheep is perhaps more important than dipping in the spring, for the reason that vermin infested sheep are unthrifty just when they should be at their best. Sheep free from ticks grow more and better wool. A clean flock requires less feed and is more easily kept in good condition. The lamb crop is stronger, and the lambs themselves grow more rapidly. Owing to the fact that ticks are more difficult to see in thick wool in the fall, many farmers think there are no ticks present and the fall dipping as a consequence is neglected. A few ticks in the fall multiply rapidly, with the result that lambs lose weight just as the owner is preparing them for the Christmas market, and, as the Canadian Co-operative Wool Growers aptly remark, the old ewes, which should be thinking of the lambs to be born in the spring, spend most of their time in scratching. It is estimated that the saving in feed and increased weight of lambs and wool may easily amount to 50c to $1.50 per ewe. Fall dipping is imperative. The cost of dipping will not exceed 3c per head.
