Leader Undecided In Centre Grey League

Dundalk and Kimberley Play 12-12 Tie At Vandeleur

After playing three games, the winner in the Centre Grey League is still undecided when Dundalk and Kimberley played to a 12-12 tie in a 9 inning fixture at Vandeleur on Friday last. Kimberley used two pitchers Elmer "Lefty" Ellis started for Kimberley but was shelled from the mound in the sixth when Dundalk connected for six runs, after Kimberley had led seven to one at the end of the fourth. Laurie Lawrence went in to pitch for Kimberley in the sixth and Dundalk brought in one run in the seventh, three in the eighth and one in the ninth off Lawrence's delivery. Mountain hurled the entire game for Dundalk. With two down and the bases loaded in the eighth Mountain threw wilt at first and before the third man was out Kimberley had scored four runs to put them one up, but Dundalk tied the score in the ninth. The game was then called on account of darkness.

The fourth and deciding game will be played at Markdale on Thursday at 2 p.m., and if the weather is not suitable will be postponed until Friday.

Score by innings:-

Dundalk ..... 100 060 131—12
Kimberley ..... 114 110 040—12

The line-ups:

Dundalk—Claridge, 1b.; McAllister, s.s.; Mountain, p.; Douglas, 3b.; M. Thompson, b.; C. Thompson, r.f.; F. McIntyre, c.f.; Murcar, c.f.; Taylor, l.f.; Montgomery c.

Kimberley—Myles, 1b.; Haines c.; B. Fawcett, s.s.; Dillon, 2b.; Bowles 3b.; Cornfield, c.f.; E. Ellis, p. l.f.; Gilbert, r.f.; C. Fawcett, r.f.; Lawrence, l.f. p.

Umpire—G. S. Dundas, Markdale.

TAXES AVERAGING $50 PAID BY CAR OWNERS

Motor vehicle owners were taxed a total of $56,700,000 last year, according to an estimate of the dominion bureau of statistics. That means that every registered motor vehicle was taxed more than $50 on an average. And that doesn't include fines either.

The province took in $21,126,271 as registration fees on vehicles and operators and another $27,083,316 in gasoline taxes. The dominion's share was $4,508,471 on import duties and excise taxes, $2,500,000 sales tax and $1,500,000 import duty on gasoline.

There were 1,114,503 motor vehicles registered in the dominion during 1932, of which 945,564 were passenger automobiles, 1,530 motor buses, 157,990 trucks and 9,419 motorcycles. This was a decrease of 7.2 per cent. under previous year's registration. New Brunswick led the decrease with 17.8 per cent., Saskatchewan came next with 15.5 per cent. decrease.

Canada ranked fourth in per capita ownership of motor vehicles, there being one vehicle to every 9.4 persons. The United States led with a density of one motor vehicle to every 5.1 persons, Hawaii coming second and New Zealand third.

Rock Mills Fowl Supper

The Ladies' Aid of Rock Mills Baptist church are holding a fowl supper on Tuesday evening, November 7th at the Rock Mills church. Supper served from 6 to 8 p.m., after which a concert will be given. Admission: 30c and 20c.

Truck Driver Victim

Gypsy Woman Fleeced R. Hill of Markdale And Took Envelopes With Money

Russell Hill, driver of a truck for the Markdale Creamery, is a sadder and wiser man today after coming into contact with a Gypsy woman near Feversham. Quickness of the hand deceiving the eye was particularly true in this case when the woman in question extracted several envelopes from among those he was carrying to his customers as cream payments while she was blessing the money he handed to her.

Mr. Hill was in the vicinity of Feversham when he was approached by a gaudily dressed woman, peculiar to the Gypsy race, and enquired if he wished his fortune told for the small sum of two-bits. This was done and enquiry was then made whether Mr Hill had more money and how much. The information given a suggestion was made that he allow her to bless the money he had, and good luck would follow him. The envelopes with small sums intended for the patrons were handed over, she immediately began to make some signs over it in order to show that she was completing her end of the bargain, after which she handed the packages back to him. Some time later Mr. Hill found that some of the envelopes were missing and then realized that the woman had blessed the money for her own use and kept part of it for her trouble. Police were informed of the affair, but by that time the woman and her three companions were out of the country in an old car. It is stated that the party was last seen heading in the direction of Guelph, but were not apprehended This old trick of the Gypsy clan has been worked more than once and many have been swindled by a few words and fast work with the hands.

Average 28 Runs Per Game In Playoff Series

Kimberley and Dundalk have about made a record this year in the number of runs scored per game in the play-off series of the Centre Grey League. The first game Kimberley won 16-17 and the next went to Dundalk 21-7, while the third game was a tie 12-12. The scores total 85 runs for the three games, or an average of over 28 runs per game. In these contests the players have wielded mighty bats and have punished each pitcher unmercifully, and coupled with errors, the scores mounted. In most of the League games this year the scores were high, the lowest being between Kimberley and Flesherton with 9-6 and 8-6 in favor of Kimberley.

Power For Hornings Mills

After being without electricity since last April, the citizens of Horning's Mills, expect to have lights again in about two weeks. The Hydro discontinued their service last April when the village trustees and private customers refused to sign long-term contracts. Thomas R. Huxtable at the time agreed to instal a generating plant on the Pine River near the village and supply energy at less than Hydro rates. He now expects to have his plant working within two weeks.

In the Congregational church at Bolton, Conn., there will be a wedding for the first time in 38 years, and the minister himself will be the groom. He probably got tired waiting for members of the congregation to make a move.

Dr. J. D. Inkster To Give Priceville Lecture

Dr. John Gibson Inkster, D.D., pastor of Knox church, Toronto, is to give an illustrated lecture at Priceville on Thursday evening of this week, October 26th, in the Presbyterian church on the Holy Land. The event is in connection with the annual fowl supper which the church is holding that night, commencing at 6 p.m.

An interesting sketch of Dr. Inkster's life was given in the Toronto Star Weekly last week, as follows:

Dr. Inkster came to Toronto from Victoria, B.C., where he built a new church, raised the membership from 300 to 1,300, and increased the revenue six-fold. He has merely doubled everything at Knox church.

Dr. Inkster was born in the Falkland Islands in 1867—the year of Confederation. Afflicted with a roving spirit, he left home when he was fifteen and arrived in Hamilton four years later.

He taught public school in Ontario for two years, and might be teaching yet if a friend had not induced him to enter the ministry. This marked the beginning of an eight-year educational program, starting at Varsity, and ending at New College, Edinburgh.

His college days were a mixture of study, football and fun. To read a class sketch in the first edition of Torontonensis, he must have been one of the university's brighter lights.

After working hard to get an intercollegate rugby union, he was elected its first president. He is still on the athletic advisory board of his alma mater.

While he was in Scotland, a Canadian newspaper reported his death and a memorial service was held for him at Marmora, Ont. He knew nothing of this until he returned to Canada. In Montreal he startled a lady friend, but, like Mark Twain, convinced her that "the report of (his) death had been grossly exaggerated." The lady is now his wife.

He has a number of carefully chosen water colors, and has written one book.

ATTENDANCE AT RURAL SCHOOLS

The county of Grey, where Miss Agnes Macphail, M.P., formerly functioned as schoolma'am, surely must be the home of the traditional "little red schoolhouse." It has 214 rural ungraded schools scattered over its somewhat broad expanse, and only one-third of these are attended by more than 20 pupils. One had an average attendance of three in the year covered by the current annual report of the department; two had four pupils attending, and three had an average of five.

The county which represents the other extreme in the list—a high proportion of schools attended by 21 or more pupils—is Kent. It has 104 ungraded schools, and reported 94 with average attendance of more than a score.

Hastings has the distinction of being the only county with a one pupil school. There is also one district, Rainy River, which maintains a school for one student. Twelve counties and two districts have schools attended by two scholars or less.

No school in Oxford has a lower average attendance than 10, though in the preceding year there was one rural school with six. Of this county's 88 rural ungraded schools, 53 had an average attendance of 21 or more.

As might be expected, it is not possible to reduce the per capita cost of low-attendance schools to the same extent as others. While the average cost per pupil for all rural schools of the province has been gradually brought down from $87.30 in 1923 to $62.68 in 1931, it is still $230.19 in schools attended by five or fewer pupils, as compared with $248.33 in 1923.

One wizard at mathematics says that if Judas had started a trust fund with one dollar and allowed the interest to accumulate it would now amount to $10,000,000,000,000,000,000,000,000—whatever that may be.

One night at the theatre a rather fried gentleman stood up in his seat right smack in the middle of the play and said: "Is there a doctor in the house?" The actors faltered slightly, but the play bravely "went on," though it was a bit of a blow to those concerned. A moment later, the same gentleman, still standing, repeated this question. At this second call, a man arose in the rear and said: "Yes, I'm a doctor," whereupon the fried gentleman neatly finished off the performance for that evening by saying, in a tone of great bonhomie, "How do you like the play

Artemesia Taxes Lower

Six School Sections Do Not Pay Trustees' Levy—Other Taxes Reduced

Six school sections in Artemesia township do not have to pay any taxes on the trustees' school rate of their sections. This along with the general reductions in the county rate and township will make considerable reductions for the taxpayer this year. The School Sections that are fortunate in not having trustees' rates to pay this year are: S.S. No. 4, S.S. No. 9, S.S. No. 13, S.S.. No. 15, A. and P. U.S.S. No. 16, A. and G. and U.S.S. No. 1, A. and E. Besides the reductions as noted above the general public school rate shows a slight reduction from .0084 mills to .0063 mills in the $, while a rate of only .0005 mills was set for the high school this year.

The township council have decreed that all taxes not paid by December 15th will be charged two per cent. interest until January 15th, 1934, when the usual five per cent. will be added to the bill.

Fowl Supper to be Given By Chalmer's Ladies' Aid

The Chalmers Presbyterian church of Flesherton are having their anniversary services next Sunday, October 29th, at 3 p.m. and 7.30 p.m. Rev. Mr. J. B. Snider of Dundalk, who so ably conducted the services last year, has promised to come again.

A fowl supper will be served in the Fraternal hall on the following Monday, October 30th. A choice musical program is being prepared. Supper served from 6 to 8 o'clock. Admission 35c and 20c. All welcome.

TIME FOR POULTRY

Up to the present time poultry has not been in demand, but our local merchants inform us that with colder weather in sight they are prepared to handle dressed chickens at prices that are in keeping with prices of other meats; but so far there is no demand for geese. No doubt geese and turkeys will come into their own a little later. In order to get the highest prices poultry should be well finished and properly starved before killing, free from "pins" and carefully dressed. Every year our farmers derive a substantial revenue from the sale of poultry and this year we hope will not be an exception.

BACON PRODUCTION FEEDS

In the following feed mixtures recommended for bacon production the essential swine feeds are combined in suitable proportions:—Weanling pig mixture—ground barley, 100 pounds; ground oats, 200 shorts, 50; middlings, 100; bran, 50; bone meal, 10; salt, 5. skim-milk or buttermilk, 3 pounds to each pound of meal. If no milk, replace with 50 pounds of tankage. Growing pig mixture—ground barley, 150 pounds; ground oats 200; shorts, 100; middlings, 50; bone meal, 10; salt, 5; skim-milk or buttermilk, 2 pounds to each pound of meal. If no milk, replace with 35 pounds of tankage. Finishing mixture—ground barley, 250 lbs.; ground oats, 150; shorts, 100; bone meal, 10; salt, 5; skim-milk or buttermilk, 1½, pounds to each pound of meal. If no milk, replace with 25 pounds of tankage.

Psychologists say girls reach maturity much earlier than boys. But they reach middle age much later.

Anniversary and

Fowl Supper

Chalmer's Presbyterian Church

of Flesherton are having their Anniversary Services on

SUNDAY, OCT. 29, 1933

at 3 p.m. and 7:30 p.m.

Monday, Oct. 30th

A choice musical program is being prepared.

SUPPER SERVED FROM 6 to 8 O'CLOCK

ADMISSION: 35c and 20c. All Welcome.

Horseshoe Pitching Contests

The annual horseshoe pitching championships for the Canadian titles will be held at the Royal Winter Fair on the last four days of the Fair November 27 to 30 inclusive. Championships are open in singles and doubles. Four prizes are offered in each sub-division, making 24 cash prizes in all. By a series of elimination, players will be stepped according to their score into Classes of A, B and C in singles and doubles. Class B will be open to non-prize winners in Class A, Class C to those not successful in either A. or B.

A Montreal smuggler, now serving a five-year penitentiary sentence for smuggling, has confessed that he also lent a hand in the drug smuggling trade. What a tale he will be able to tell through the sob-sister press about his ill-treatment while doing time for one of the world's worst crimes—the debauching of the youth of this country through the use of narcotics!—Durham Chronicle.
