WHY WOMEN ARE LIKE NEWSPAPERS

The Redding Currier Free Press recently aroused a lot of intrest through a contest in which case prizes were given for the best reasons why women are like newspapers.

The prize-winning answer was a gem, worth a place in anybody's scrap book. The reason given why women are like newspapers was:

"Because every man should have one of his own and not run after his neighbors."

Other answers sent in were:-

"Because their work is never done."

"Because a woman wants to know all the news and tell all she knows."

"Because both are tactful, desirable, interesting and indispensable."

"Because they have forms."

"Because they have bold faced types."

"Because they are easy to read."

"Because back numbers are not in demand."

"Because they are well worth looking over."

"Because they are not afraid to speak their minds."

"Because if they know anything they usually tell it.

"Because they always have the last word."

"Because they carry the news where-ever they go."

"Because they have a great deal of influence."

"You may often disagree with them but you can't get along without them."

Learn to enjoy the realities of today, for yesterday is a memory and tomorrow a dream.

Marriage is described as like a railroad sign: When you see a pretty girl you stop, then you look; and after you're married you listen.

Up in Listowel a citizen urged his fellows to refrain from criticising the civic council. Go to a meeting, he urged, and state any grievance that may be real or imagined. Members of council are elected to administer the affairs of the municipality and are willing to listen to complaints and suggestions. This is the ideal way to get cooperation between council and citizens and should it ever be adopted here it would mean the abolition of the postoffice senate.

Required To Return Money To County

The sum of approximately $5,700 must be returned to the county of Grey and the city of Owen Sound by the Province of Ontario and County Crown Attorney W. D. Henry, K.C., of Markdale as the result of an examination of the accounts of the latter's office by provincial auditors. The amount, according to information of a reliable source, is divided equally between the two, and will clear up the complaints which were made during 1933 regarding the large sums of money being paid Mr. Henry in fees in connection with his work as county crown attorney and clerk of the peace for Grey county.

It will be recalled that there was consderable criticism on the part of the county with regard to what was alleged as excessive cost of the administration of justice in the county, and the matter was finally taken to the attorney-general's department in Toronto, and a promise was made there that the whole matter would be investigated. Accordingly all of the accounts which had been passed by the county board of judicial audit for 1931 and 1932 were sent to the provincial auditors for scrutiny and investigation. There were a great number of these and the work occupied considerable time but was finally completed, and a few days ago the word came to the authorities of the result, as above stated.

County Crown Attorney Henry, according to a report from Owen Sound, frankly admitted that he had received certain fees to which he was not entitled, pointing out, however, that every account passed and every cent he had received was with the sanction of the judicial board of audit. He also stated that there was an apparent lack of knowledge of the proper tariffs which applied to many of the functions of the county crown attorney and clerk of the peace, which was responsible to a great extent for the overcharge.

Mr. Henry explained that he receives from the county of Grey a salary of $4,000 a year, which is augmented by 50 per cent of all fees collected, the other 50 per cent being paid to the province.

It developed during the course of the interview that it had been the custom of the county crown attorney to be allowed $2 for all adjournments of court cases, this being considered a fair fee when he was compelled to attend court and for no cause of his the case had to be adjourned. It developed however that there is no provision in the tariff for a fee of this kind, and the provincial auditors at Toronto refused to pass them and amount collected in this way will have to be repaid. There is provision made for a fee of 50 cents for all letters written as clerk of the peace but none for letters written as crown attorney. In view of the fact that there were in the neighborhood of 1,200 letters a year written during the past two years, the refund from this source will be substantial.

The crown attorney is permitted to charge a fee for every case he attends outside him home, but objection has been taken to this fee being paid for every charge laid against a person in the same court, the auditors deciding that where several charges are laid against one person in the same court, but one fee is allowed.

Mr. Henry stated that when he accepted the position of county crown attorney for Grey at the request of the attorney-general he did so on three conditions. He was to be permitted to continue his legal practice in the county, he was to be permitted to retain his residence in Markdale and he could delegate someone else to handle minor cases in the courts should he so desire. He intimated, however, that it was his intention to take up his residence in Owen Sound in the course of a few months and that he would have a branch of his Durham office here, so that the objection to his residing in Markdale, would be removed. He admitted that in view of the business he had in Owen Sound it would be more convenient to reside there.

Reference was made by Mr. Henry to the large number of serious cases which had received his attention under the highway traffic act. These were heard in different parts of the county and the fees and penalties had all been sent to the province, he receiving his percentage of the fees. It developed that only those cases that arose out of accidents and other cases on provincial highways could be considered as provincial cases, the others being either county, township, town or city cases, the fees and penalties going to each municipality accordingly. He said there would have to be some adjusting done in connection with these with the highway traffic department in Toronto which would take considerable time, and he believed this would relieve to some extent the obligation put upon him by reason of the audit.

As a result of this investigation, it is believed that a new system of accounting will have to be inaugurated and that the board of judicial audit will have their regulations more clearly defined in order to prevent a recurrence of what has occurred.

At the present time there are the 1933 accounts to be inspected and audited at Toronto and there may be further refunds demanded when thi. is completed, although there is noth ing definite on that point.

As a result of the joint meeting of representatives of the County of Grey and City of Owen Sound held in the office of the County Treasurer, Mr. E. D. Bonnell, on Monday afternoon, the matter of the manner in which Mr. W. D. Henry, K. C., County Crown Attorney, will make a refund of $2,846.p2 to the County and City was left to be dealt with by the Grey Council at the June session, but in the meantime it is understood that a certain percentage will be deducted from the salary of Mr. Henry, when due. The officials present at the meeting declined to accept the responsibility of taking definite action. It is understood that Mr. Henry requested that the amount be spread over a period of seven quarters, as it was during such a period that the funds were previously collected.

AUCTION SALE

An auction sale of farm stock and implements will be held on Lot 21, Con. 9, Osprey, on Thursday, March 8, the property of Mrs. Annie Laughlin. Sale at 1 p.m. Wm. Kaitting, auctioneer.

Pisa's leaning tower is reported to have a "lean over" of only 14 feet now. Can't keep a jag always.

Entrance Examinations Are Later This Year

Entrance examination dates, as well as those of matriculation exams, are fixed for July this year. Principals in schools say it is the first time for years they have known the entrance dates so late. Tuesday, July 3, will see thousands of Ontario pupils struggling with composition, spelling and history. The next day brings literature, grammar and writing. July 5 has two of the hardest subjects, geography and arithmetic.

Usually the entrance exams conclude in the last week of June. They are a full week further on this year and the public schools will therefore not close until Friday, June 29.

HUGE MARKET REPORTED FOR ONTARIO SOYA BEANS

Canadian Soya beans Limited, of Milton, Ont., reports to the Ontario Marketing Board that there is a definite market for at least 250,000 to 300,000 bushels of Ontario-grown soya beans, exclusive of the export demand.

A lot of women make fools of men but as some women make men of fools, there seems to be no particular kick to register from the male sex.

The minister was imploring an old man to repent his sins.

"Well," said the old sinner, "if you will answer me one question, I will come to church."

"What is the question?"

"Who was Cain's wife?"

"My friend," replied the minister, "you will never be able to embrace religion until you stop bothering yourself about other men's wives."

Small Advts.
