"FRANKFORTER."

Important to Thousands!!

Hyam's Extract of Rock Rose!

An invaluable Remedy for all Scrofulous Diseases, Indigestion, Sick Headache, Costiveness, Sore Mouth, and Gens'l Debility, and as a Purifier of the Blood, is unequalled.

To be convinced that it is the most valuable Medicine of the day, you have only to read the testimony of its efficacy. As a Family Medicine it is invaluable, and one which no person should be without.

The Rock Rose has gained a reputation, at home and abroad, which no other medicine has ever done in the same length of time.

According to the opinions of Eminent Physicians, the Rock Rose Plant is unequalled in curing Scrofula in its various forms! The Sick Headache, an Obstinate Chronic Cases, may here find a Sovereign Remedy. The Canker and Nursing Sore Mouth! in numerous cases, have been speedily cured.

BUT WHAT IS THE ROCK ROSE?

The following history of the Rock Rose Plant and its medicinal properties, we take from the New Haven Palladium, March, 1852:—

"The increased interest manifested in the Rock Rose Plant in consequence of the many wonderful cures effected by 'Meyers' Compound Extract of Rock Rose,' calls for a brief history of it, in order to correct any erroneous opinion that may have been entertained concerning it; and so to set in a true light the nature of a plant which promises to be universally beneficial.

We are indebted to the United States Dispensatory of 1847, for the following description of it:—

"It is entirely different from the common Rose. It is a red-stemmed, oblong leaf plant having a bitter taste. In addition to a remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has another interesting and beautiful property.

Dr. Eaton says that in the months of November and December, he has seen hundreds of these plants sending out, near their roots, broad, thin, curved ice-crystals, about an inch in breadth, which melted during the day and were renewed in the morning. For a more minute and analytical description of it, the reader is referred to Torrey and Gray's Botanical Works.

Its Medical History and Properties are far the most important, since upon these depends its value to the community. Dr. Loudon says that in 1799 it was so valuable in England that it was cultivated from the seeds. Ever since 1806, Prof. Ives, of Yale College, has habitually used it with great success in scrofula and Cutaneous Disease, and thus its virtues were made known, until, as Dr. Tyler says, it is now in this section [New Haven] a common article in domestic practice for the cure of Scrofula and cutaneous diseases.

Dr. Isaac Parish, of Philadelphia, remarks that it has been successfully used in bad cases of Scrofula Diseases.

Dr. J. H. Thompson, of the same place, prescribed it in bad cases of Scrofulous patients at Willis' Hospital. His success attracted the attention of senior physicians. He reports the following remarkable case of White swelling of the hip, on February, 1844:—The lad was seven years old, and had the disease for three years. The bone was dislocated upward and outward. There was a large opening on the hip leading to the bone; into which the surgeon thrust my finger. I counted three [illegible] under several physicians. He had been [illegible] ordered a consultation of Rock Rose. In two days [illegible] night sweats ceased; I then ordered a teaspoonful of Rock Rose three times a day—Thirty-nine days after he was entirely well.

Dr. Webb, of Madison Ct., Testifies to the value of Rock Rose, as evinced in the cure of numerous cases of Scrofula, especially in children.

In Spurgy's [illegible] work published 1847, quotes the strong commendation of Dr. Eli Ives, Professor in Yale College, who, in his lectures to the medical students, recommended the use of the Rock Rose, even in cases where the disease is uncertain.

The value of the Rock Rose has also been set forth by Dr. Tyler, of New Haven, U. S., in a dissertation avowedly prepared for that purpose, which afterwards, at the request of several of his medical brethren, was published in a pamphlet.

We quote from the preface. He says that since the delivery of this address, the plant under consideration has been more fully tested, its virtues developed, its character better established. This dissertation is published by the advice and approbation of several medical friends. The object of it is to lay before the profession, and the public, the virtues of a plant too much neglected. I ask for the plant an impartial trial. I will conclude by asking only of the profession and the public a more extended trial of the Rock Rose."

Manufactured by WM. FRANKLIN & CO., New Haven, Ct.

For Sale by E. W. Palmer, Kingston, and dealers in medicine everywhere, where pamphlets may be had gratis.

FRAUD!

ALL who want AXES of the real Collins & Co. make, should be particular to notice the stamps, as there are various counterfeits, and Collins stamped Colons and Eagles, which are translatable good by some parts of the United States as our manufacture. They are made in different parts of the country by various axe-makers, and are generally of very inferior quality. The genuine Collins axes, which have acquired such an extensive reputation, are invariably stamped "COLLINS & CO. HARTFORD" and each axe has a painted label with my signature. It is now more than TWENTY-FIVE YEARS since we commenced the business with the stamp of "Collins & Co. Hartford", and I do not know of any other axe-maker by the name of Collins in the United States.

Tug Line Office,
Corner William and Ontario Streets, Kingston.

Ault's Railroad Horse-power Overshot Thresher and Separator.

For Two Horses: Thresh from 150 to 175 bushels per day—Price $160 or £40 currency.

For One Horse: Thresh from 60 to 100 bushels per day—Price $130 or £32 10s. currency.

THESE Machines have been arranged with the strictest regard to economy, and every existing machine has been made so as to simplify the machinery that any person of common intelligence can work them and repair them, in case of accident. It is well known, that on a Railroad a Horse can move a much greater load than in any other manner. This principle has been adopted in these Machines. The horse power is, in fact, a moveable Railroad—the weight of the Horse does nearly all the work, and so easily do they run, that when once in good working order, and well greased, it is always necessary to use the brake before they can be stopped. It will thus be seen that these Machines have the following advantages over those already in use:—They are Cheaper, and not liable to accident. They enable a farmer to do his own Threshing at leisure times and in wet weather, without being dependent on extra help. They take no room and can be easily moved from place to place.—From the simplicity of construction any part can be replaced, and duplicate parts had from the Agents, and the nearest mechanic can replace the broken portion. They enable a farmer to thresh his grain as he requires it—either for the grain or the straw.

These Machines may be worked with three or four men, and if not found to do they work as represented may be returned within 60 days, and the payment refunded.

May be had at the factory of the inventor,

JOHN AULT,
Sydenham Co. Frontenac.

July 22nd, 1853. 175

54 CASKS High Wines, Prescott Manufacture, received and for sale by

MACPHERSON & CRANE.

Kingston, 9th August, 1853.

IMPORTANT TO HOUSE KEEPERS.

Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For raising Bread, Biscuit, Fried Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c. This article is one that every

Family, Hotel, Boarding House,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantage over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.

2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.

3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, acts only goes to nourish the body, while the acid tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted* to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water-street, New York. Sold by the best grocers and druggists generally.

New York, Feb. 20th, 1853. 45

Wharfage, Forwarding & Storage.

G. M. KINGHORN

BEGS to inform his friends and the public that he has leased from John Arruthers, Esq. for a term of years, the UNITED STATES AND BAY OF QUINTE WHARVES, where he intends commencing business on the 1st April, as

Wharfinger, Forwarding Agent, Commission Merchant and Custom House Broker.

The Premises have a large Fire Proof Stone Store and Sheds erected on them, and are the most commodious for Storing and Transhipping in this Port. These Wharves being the stopping places for the United States Lake and River Mail Line, Bay of Quinte, Cape Vincent, and other Steamers, every facility is afforded to give despatch to Goods passing through his hands.

Any business in his line will be attended to with promptitude, and he trusts by long experience in the trade, attention to business, and reasonable charges, to receive a full share of public support.

TUG LINE NOTICE

THE Public are respectfully informed that the Proprietors of the TUG LINE between Kingston and Montreal, have completed all their Arrangements for Towing according to Contract entered into with the Commissioners of Public Works. The rates of Towing will be in accordance with the Schedule published by the Commissioners in the different newspapers last Fall. The charge for towage will be according to Draught of Water and Breadth of Beam.—The Company will make a further Reduction from the established rates to vessels employing this Line from Kingston to Montreal on their upward trips. They will be towed from Prescott to Kingston at the same rates as downwards, viz: One-Third of upward rates.

*** A Tug Line Company Steamer will leave Kingston and Lachine Daily.

THOS. MAXWELL & CO.

*** The downward trip will be performed in three days to Lachine. The upward trip will be performed in four days from Lachine, weather permitting, and in both cases except unusual detention in the Canals.

May 4, 1853. 104
