MUNICIPAL COUNCIL OFFICE,
Pittsburgh, Sept. 3rd, 1853.

THE COUNCIL met at 10 o'clock, A. M., and had under their consideration the Petitions and Remonstrances presented last Session by Wm. Gunn, &c. &c., for dividing the Township into Wards.

The said Petitions having been read, the following resolutions were made upon them:—

1st—A sufficient number of names on said Petitions appear to have been inscribed in one man's handwriting, therefore the Council have doubts whether the whole of the names have been placed there with the consent of the parties, however, a number of persons on said Petitions appear to be resident on the Assessment Roll.

2d—There appear names on said Petitions who are known to be averse to have the Township divided into Wards.

3rd—The Council have reason to believe that if the matter was left to the Inhabitants of the Township, a large majority would be against dividing the Township into Wards; because such proceedings would incur a large expense on the Inhabitants, and increase the Status and Expense of the Township.

Therefore it is resolved, "that in the opinion of this Council, for the reasons above stated, it is not necessary at present to pass a By-Law for dividing the Township into Wards; and that the further consideration of the subject be deferred until after the next Annual Township Meeting."

It was resolved, "That the foregoing Resolutions be printed in the Daily British Whig, newspaper for one week, for the information of the Public."

THE MARRIAGE STATE;
Shall Happiness and Health, or Misery and Sickness, attend it?

MOST STARTLING CONSIDERATIONS!

Reflections for the Thoughtful.

Strange that countless human beings exist and drag through life as do the beasts of the field, or the insects of the earth, evincing no more thought or reflection than though the noble faculties of mind were not vouchsafed to them.

Many such are husbands and fathers, upon whom are dependent the health, the well being, and happiness of a confiding and affectionate wife, and perhaps a family of children.

HOW OFTEN IT HAPPENS THAT THE

WIFE LINGERS FROM YEAR TO YEAR

In that pitiable condition as not even for one day to feel the happy and exhilerating influence incident to the enjoyment of health.

She may not be an invalid confined to her bed, or even to her room; as her pride, ambition and energy induce and nerve her to take personal charge of her household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to day, and always ailing.

This day after day, and month after month from year. Her health daily sinks, till finally even the hope of recovery no longer remains. And thus

THE BLOOMING BRIDE,

Just a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, debilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration.

Sometimes this deplorable change may and does arise from organic or constitutional causes. But oftener, by far oftener, to gross and inexcusable ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often

And must this continue? Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cows, our oxen, the nature and character of the soil we possess, the texture and quality of our goods and merchandise; but in all that concerns ourselves as human beings, with human functions and passions, subject to great derangement, involving our future peace and happiness—in all that concerns the health and welfare of the wife of our affections, and the mother of our children; in all that concerns the mental and physical well being of those children, we should be immersed in the darkest and most

BENIGHTED IGNORANCE,

"AS CULPABLE AS INEXCUSABLE?"

How long shall this ignorance prevail so productive of its bitter fruits? How long shall the wife and mother be ignorant of the nature, character and causes of the various womb and sexual complaints, embittering her days by suffering—suffering often prolonged to years, eventuating in a complication of diseases utterly and hopelessly incurable? Shall we for ever close our eyes to the results of physiological science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpetuating them to our children.
