CANADA LIFE ASSURANCE COMPANY
INCORPORATED BY ACT OF PARLIAMENT.
THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to Annuities, to purchase Reversions, and to transact all business in which the risk of Life is concerned.
Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favorable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.
An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.
Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that in which (and this is nearly a solitary instance (neither Great Britain nor the neighboring states can fairly offer competition.
To parties who may at any time feel disinclined or unable to continue the payment of their premiums this Company will grant Policies, payable at death, fairly representative of the value of such payment as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.
Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.
A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.
Tables of Rates, forms of Proposal and all other information may be obtained at the Head Office and Agencies.

FRAUD!
ALL who want AXES of the real COLLINS & Co. make should be particular to notice the stamps, as there are various counterfeits and imitations stamped Collins and labelled much like ours, which are fraudulently sold in some parts of the United States as our manufacture. They are made in different parts of the country by various axe-makers, and are generally of very inferior quality. The genuine Collins axes, which have acquired such an extensive reputation, are invariably stamped "COLLINS & CO. HARTFORD" and each axe has a printed label with my signature. It is now more than TWENTY-FIVE YEARS since we commenced the business with the stamp of "Collins & Co. Hartford", and I do not know of any other axe-maker by the name of Collins in the United States.

Cylinder, 42 inches diameter, eight feet stroke; Shaft (cast) 40 feet; Boilers, not yet two seasons old; 24 feet long, by 8 feet 3 inches diameter, constructed on the most recent and improved principle, with a view of carrying forty inches of steam.

IMPORTANT
TO HOUSE KEEPERS.
Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.
DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For raising Bread, Biscuit, Fried, Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c. This article is one that every
Family, Hotel, Boarding House,
Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the very thing needed every single day of their existence.
Its most important advantage over the old system, are—
1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.
2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.
3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.
4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.
5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, it not only goes to nourish the body, while the acid tend to produce dyspepsia and its attendant evils.
This article has been thoroughly tested, and is universally liked. When used according to directions, it is warranted to suit.
☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water-street, New York. Sold by the best grocers and druggists generally.
