MUTUAL LIFE INSURANCE.

THE

NATIONAL LIFE INSURANCE CO.

OF THE

UNITED STATES,

AT MONTPELIER, VERMONT,

Cash Assets $135,000.

Securely invested under the Charter for the benefit of the members present and future.

ECONOMY OF ITS MANAGEMENT.

THE Salaries and Rents of this Company have not exceeded $1600 per annum, which is a saving of nearly two-thirds, as compared with any similar institution situated in the large towns or cities of the United States. In fifty years, the sums so saved compounded at 6 per cent., would exceed a Million of Dollars, all of which would be returned to the policy holder in profits.

Dividends will be declared every five years to all the Life Policies then in force. The amount of profits then found will be divided by adding equitable proportions to each policy.

FRAUD!

ALL who want AXES of the real COLLINS & Co. make should be particular to notice the stamps, as there are various counterfeits and imitations stamped Collins and labelled much like ours, which are fraudulently sold in some parts of the United States as our manufacture. They are made in different parts of the country by various axemakers, and are generally of very inferior quality. The genuine Collins axes, which have acquired such an extensive reputation, are invariably stamped "COLLINS & CO. HARTFORD" and each axe has a printed label with my signature. It is now more than TWENTY-FIVE YEARS since we commenced the business with the stamp of "Collins & Co. Hartford", and I do not know of any other axemaker by the name of Collins in the United States.

IMPORTANT

TO HOUSE KEEPERS.

Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For raising Bread, Biscuit, Fried Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c. This article is one that every

Family, Hotel, Boarding House,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantage over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.

2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.

3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, not only goes to nourish the body, while the acid tend to produce dyspepsia and its attendant ills.

This article has been thoroughly tested, and is universally liked. When used according to directions, it is *warranted* to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water-street, New York. *Sold by the best grocers and druggists generally.*
