Professor Alex. C. Barry's Trieopherous,
OR
MEDICATED COMPOUND,
FOR Beautifying, Curling, Preserving, Restoring and Strengthening the Hair. Relieving Diseases of the Skin, Curing Rheumatic Pains, and Healing External Wounds. Bounded by no geographical lines, the reputation of BARRY'S TRYCOPHEROUS pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Professor BARRY, after a careful examination of his sales' book, and that the number of bottles delivered to order, in quantities of from half a gross upwards, during the year 1852, was within a trifle of 25,000.
It is unnecessary to present at length the evidences of the wonderful properties of the Trieopherous, when the public have furnished such an indorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertized itself. The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind. The highest point has not yet been reached, and it is believed that the sales this year will be a *million and a half of bottles.*

IMPORTANT
TO HOUSE KEEPERS.
Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.
DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For making Bread, Biscuit, Fried, Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c. This article is one that every
Family, Hotel, Boarding House,
Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*
Its most important advantage over the old system, are—
1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.
2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.
3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.
4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.
5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, it not only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.
This article has been thoroughly tested, and is universally liked. When used according to directions, it is *warranted* to suit.
☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 159 Water-street, New York. Sold by the best grocers and druggists generally.
