Vol. 54; No. 16 WEDNESDAY, SEPTEMBER 26, 1934 W. H. Thurston & Son, Proprietors

Contract Extended For Road Paving

Eight Extra Miles Awarded To King Paving Company For Work This Fall

COMMENCED AT ONCE

Two Pavers Laying Cement —Will Likely Finish Road This Year

Word arrived here on Thursday morning last that the King Paving Co. had been awarded a contract to continue the paving of the extra ten-foot strip beside the same width laid down between Dundalk and Markdale this summer, which was completed on Wednesday evening of last week. The contract takes in approximately eight miles of paving—from Flesherton to Markdale and from one mile south of Dundalk northward three and one half miles.

Immediately on receipt of the contract paving commenced at the Flesherton end and is proceeding northward. Tuesday evening the paver had passed the Swanton farm and made fast progress in the four days of cement laying. The King Comany has brought an extra paving machine from their plant at Oakville, together with other machinery for the Dundalk end of operations. All gravel and sand is being taken from the Flesherton pit, another acre being purchased from Mr. W. S. Inkster, and is being trucked to Victoria Corners, where it is placed in a stock pile. Machinery for the loading of trucks will also be placed there and the trucks with the cement, gravel and sand mixture will be taken from there to the work at the Dundalk end. Additional trucks will also be used. At present the crushing machinery in the gravel pit is operating night and day to supply the material needed to keep operations running steadily and speedily.

With both paving outfits working at their average capacity about one and a quarter miles of cement can be laid and finished every two days.

While the King Paving Co. has secured the contract for eight additional miles of paving it is confidently expected that if the weather is favorable the government will continue the paving until the entire road from Dundalk to Markdale will have been paved twenty feet in width.

Rock Mills Ladies' Aid

The Ladies' Aid of Rock Mills Baptist church held their monthly meeting at the home of Mrs. Walter Akitt at Flesherton on Wed., September 17, with 17 ladies present. The afternoon was spent in quilting, after which the business section was opened with the singing of "What a Friend We Have in Jesus." The Scripture lesson was then read and Mrs. Wolstencroft led in prayer. It was decided to have the annual fowl supper on Tuesday, October 30th. The collection taken amounted to $2.69, and one new member was received. "Rock of Ages" brought the meeting to a close.

The next meeting will be held at the home of Mrs. Sam Shier, 4th line, on Wed., October 17th. Lunch committee: cake, Mrs. R. Clark, Mrs. W. Fisher; sandwich, Mrs. H. Paton and Mrs. A. Blackburn.

Lured To Ambush

What is believed to be an attempt on the life of County Constable W. G. Bayne of Belwood is being investigated by provincial police.

Called out early in the morning to attend a non-existent accident on the Fergus-Orangeville road, Constable Bayne was fired at with a revolver. The bullet crashed through the windshield of his car, narrowly missing him. He had received no threats, and could give no explanation of the shooting.

SWEDE ROOTS FOR SEED

Swede roots for seed may be stored either in outside pits or in a dark, well ventilated cellar free from frost yet sufficiently cool to keep them from sprouting too early in the spring. When the roots are pulled the tops should be out off about an inch to an inch and a half from the crown.

GASOLINE STOLEN

The King Paving Company had a quantity of gasoline stolen from their mixer at the Dundalk end of the works on Monday night. Just how much was stolen has not been made public, but it is sufficient to cause the Company to get the county police busy in an effort to discover the miscreant, whom they have strong hopes of capturing. An arrest is expected

Geo. Whewell Passes

The Advance has received the following clipping of the death of Mr. George Whewell, a former Osprey citizen, which occurred at his home at Arcola in August:

By the death of George Whewell South Arcola lost one of its most prominent and respected citizens.

Born at Feversham, Ont., in 1866, the late Mr. Whewell came to Saskatchewan with his wife and family in 1913, settling in the South Arcola district, where he has farmed since that time.

The deceased was taken ill with rheumatic fever, followed by pneumania to which he succumbed on Sunday afternoon at three o'clock.

He is survived by three sons and one daughter, Wilfred, George, Harold and Madge, all of South Arcola, his wife and two daughters having predeceased him.

The late Mr. Whewell was a member of the South Arcola United Church in which he held office of Elder. His death leaves a gap in the community that will be hard to fill.

The funeral service was held on Tuesday afternoon at the family home, the Rev. C. Down of Antler officiating.

Floral tributes were received from the following: the Family, Mr. and Mrs. Walter Whewell and family, Mr. and Mrs. Wilb. Whewell and family, Mr. and Mrs. L. Whewell and family the Workman and Haddow families, Mr. and Mrs. Mat. Olsen, Mrs. E. Hildebrand and Irma, Mr. and Mrs. John Eberl and family, Mrs. W. Nicol and family, South Arcola Women's Association and the South Arcola Young People's Class.

PLOUGHING PRACTICE

A series of experiments carried out at a government experimental station has given some interesting results in regard to ploughing at different depths and times.

On an average, over a period of nine years, ploughing four inches deep for a rotation of corn, oats, clover and timothy has given higher yieds than has ploughing seven inches deep, except in the case oats, in which the yields have been practically the same. The shallow ploughing is of particular advantage to the corn crop.

In the preparation of sod land for grain, it has been found that ploughing in July, as soon as the hay is off and top-working during the summer has not only given higher yields of oats, but has also left the land free from couch grass. The experiment has shown that on sandy loam soil, it does not pay to either rib the land or replough in the fall. On heavy clay soil, rubbing or reploughing late in the fall gives the frost a chance to mellow the soil and leave it in a better state of tilth.

In the preparation of sod land for corn, manuring on the sod and spring ploughing has given higher yields than manuring and fall ploughing.

It would, therefore, appear that for corn on sandy loam, the land should be manured and spring ploughed four inches deep, while for grain, it should be ploughed as soon as the hay is off and top-worked.

FIELD DAY AT SINGHAMPTON

The annual field day of the Feversham, Honeywood and Singhampton Continuation Schools will be held on Friday, September 28th, 1934, at Singhampton. The events will commence at 10 a.m. and a dance will be held in the evening in Hammill's Hall.

The enrolment at Feversham Continuation School is the largest in the history of the school.

The newest plan from Toronto is to abolish the post of sheriff in most of the counties, and already we have heard it said that a more popular move with many folk would be to do away with the bailiffs.

Creamery For Village Assured

Markdale Creamery To Open Creamery In Flesherton On Wrighl Property

BUILD IMMEDITELY

Expect To Be Opened For Business By New Year

Through the efforts of the Board of Trade Flesherton is now assured of a creamery. The Markdale Creamery, owned by Messrs. Rapp and Borinsky, intend to erect a modern one-story building on the corner lot across from The Advance office, owned by Mr. John Wright. The building will be 30 feet by 40 feet with a wooden addition at the rear, and we understand will be of cement block construction. Work will commence immediately on the building, which is expected to be ready for use by the new year. The agreement between the Markdale Creamery and the Board of Trade is ready to be signed.

The entry of this firm into Flesherton will be appreciated by the farmers of the district who sell cream, as it will bring more money to their pockets, an advantage worth while these days. The Markdale Creamery also has a branch at Dundalk.

For several months the Board of Trade has been working on the creamery idea, as it was felt that one was needed in town, and several proositions were laid before the Board, with the result that the proposition of the above firm was accepted. We are sure that the Markdale Creamery Company will not have cause to regret their entry into Flesherton, but on the other hand that the business will grow and be one of their most valued assets.

Stole Tires From Car

Considerable Thieving Going On In District

Thieves are working this locality quite extensively this year, and are helping themseves to car accessories whenever needed. Mr. Sam Phillips of the Collingwood Gravel recently had the tires removed from his car including the spare, battery and other parts while it was in the garage at his home. This was rather a risky piece of work, but the thieves got safely away with their booty and the owner was none the wiser until the next day. Cars left parked in the United Church shed have been minus gasoline the next mornring. Some garden produce has also been taken from owners' properties, leaving no clues for the sleuths to follow in an effort to locate the guilty parties. Those who make a business of petty thieving will go to the well once too often and repent when it is too late.

Sectional Meeting

The Sectional meeting of the Presbyterial of Orangeville was held in Flesherton on Thursday afternoon of last week. Mrs. Miller of Markdale presided at the meeting, which opened with the hymn "O God Our Help in Ages Past." Miss Cullis of Markdale read the Scripture lesson from Isaiah, chapters 25 anl 26 verses 1 to 4 followed with prayer by Mrs. Miller. The roll was called and answered with reports of the different Societies. A few minutes of silent prayer followed the singing of hymn 599, and Mrs. Plantt then led in prayer. Mrs. Archie Stewart president of the Flesherton branch of the Missionary Society, welcomed the different Societies.

The speaker for the afternoon was Mrs. B. Eaton of Orillia, who gave a most instructive address on a digest of the missionary work during the past seventy years. At the close of her address a few minutes were given over for questions and answers. The meeting closed with the singing of hymn 582, the doxology and benediction. Lunch was served at the close by the Flesherton ladies.

With the new registers that the schoolma'ams are required to fill up, a course in accountancy will be next on the summer courses.

Make Newsier Paper

Our subscribers are asked to send to The Advance editor any item of interest that would warrant publication. There are always little occurrences taking place of which we know nothing and are therefore missed many of them being of general public interests. We want to make your paper full of reader interest and your assistance in phoning or writing to us of any occurrence in your locality would be appreciated. But be sure to send any article or item in as soon as it occurs as it is not news if left for two or three weeks after the event has occurred. Let us hear from you!

Another Freak Carrot Wins Championship

Freak carrots have been coming in fast in the past week and the championship still remains in the Flesherton district after a brief sojourn at Owen Sound. Two weeks ago we reported Mr. A. Shackleford of town having one with eleven carrots from one stem. Not to be outdone the Owen Sound Sun-Times located one with thirteen carrots and considered the record to be won by them. However, not allowing the record to escape him, Mr. Shackleford brought in two more on Saturday, both having more carrots attached to the one top than the one in the northern city. One of them had 18 and the other 16, and are on exhibition at this office. Bring in your freaks and let us see what you have.

Toys For Christmas

Flesherton Orange Lodge Is To Play Santa Claus In Many Homes

Flesherton Orange Lodge No. 2855 is again undertaking to supply toys to the needy of this district through the contest staged by the Buckingham Tobacco Co. Suitable containers have been placed in the stores in town, where you can deposit your empty cigarette and tobacco packages. Don't throw them away but think about the happiness you can give some youngster on Christmas morning, who otherwise might not receive any gift on that day of days for kiddies. All tobacco users are urged to assist the Lodge as the number of toys received depends upon the number of Buckingham cigarette and tobacco cartons collected.

Farmer Controls Cost

"The cost of producing crops is at all times a very important consideration" observes E. S. Hopkins, B.S.A., Dominion Field Husbandman. "Return values are more or less controlled by the law of supply and demand or by other prevailing conditions, and the producer has very little influence upon the price he will receive for his product. He has, however, some control over his cost of production and the economy with which he produces his crop may mean the difference between profit and loss on that crop. In times of depression and low prices this is doubly important. If profits are to be maintained when prices are low, costs must be measured accordingly."

Must Notify Department

It is probably not generally known that an Ontario car owner who changes his address and does not notify the department within six days is liable to a fine of $10 to $50. The second offence carries penalty of $20 to $100, and the court may cancel his license for 30 days. For the third offence the penalties are heavy: a fine of $50 to $200 and the court may order imprisonment for 30 days and a six months' cancellation.

Cake fashions this year place icing only on top. As usual the new fashions aren't popular with the men.

Four elevators in Satskatchewan are having a little war in buying wheat and the price has gone up seven cents per bushel. So far none of the farmers have asked that the League of Nations step in and stop the slaughter.

Kimberley Takes First Of Finals

Defeated Collingwood 3-2 In Pitchers' Battle — Errors Costly For Losers

KIMBERLEY FRIDAY

Both Teams Playing Smart Ball And Eilther May Win The Series

Kimberley is making a glorious finish in the Centre Grey League finals when they disposed of the leading Collingwood nine by 3-2 in the first of the finals on Tuesday afternoon, in a most interesting game. Both LaVerde Smith of Collingood and Alonzo Smith of Kimberley had a great afternoon, the former having 10 strike-outs to his credit and the latter 13. Errors on the part of Collingwood fielders resulted in two of Kimberley's runs in the fifth inning, when Stan Haines and Smith scored, tieing up the game. Their winning run came in the sixth when Myles counted. Burns and Swain scored for Collingwood in the third and held the lead until the sixth. Four Kimberley players were left on bases during the game, while five Collingwood men were left stranded.

High class ball is being played by these two teams and the return game at Kimberley Friday afternoon should attract a large crowd. The game is scheduled for 3 p.m.

Durham Eliminated

Kimberley entered the finals of the Centre Grey Baseball League when they disposed of Durham at Markdale on Thursday last, by the score of 5-0 in the third game to decide an opponent for Collingwood in the finals Smith was very effective for Kimberley, keeping the Durham hits well scattered and bore down heavily with runners on the paths. McLean was good for Durham and had only two bad innings, but these. together with Durahm failing to find the secret to Smith's curves, brought his downfall.

Earl Dillon, star second baseman for Kimberley, wielded a hefty bat with men on the bags, and cracked out a triple and a home run to score four of the five runs, two of them being counted by Hatch, who received three walks from McLean. Dillon played his best game of the season, but had one error to mar a splendid day. Len and Stan Haines each counted a run, together with two by Hatch and one by Dillon.

Following is the box score:

DURHAM

	AB	R	H	PO	A	E
McGirr, ss	4	0	0	2	3	2
Dickson. 3b	3	0	1	0	1	0
Lang, 2b	3	0	0	1	2	0

Totals	32	5	7	27	9	1

Durham 000 000 000—0 6 4
Kimberley 300 000 20x—5 7 1

Summary — 3 base hits — Dillon; home runs, Dillon; Struck out by—Smith 12, McLean 6; base on balls off —Smith 3, McLean 5; double plays—Dillon to Myles; left on bases—Durham 8, Kimberley 8; Umpire—Loughed and Dillon of Thornbury.

Kimberley is all set for the final series with Collingwood and should make it extremely interesting for the shipbuilding town, whose long lay-off will not do them any good. Kimberley is confident of polishing them off with neatness and despatch and be declared undisputed winners for 1934.

The second of the play-off games will be played at Kimberley this Friday afternoon.

A Golden Wedding

Mr. and Mrs. Andrew Dingwall of the South Line, Artemesia, recently celebrated their Fiftieth Wedding anniversity. A gathering of over ninety relatives joined in a family reunion in celebration. The afternoon was spent in games and contests and supper was served under a spreading elm tree, which was a sapling when Mr. and Mrs. Dingwall were married half a century ago. After congratuations and a toast to the bride and groom, the gathering joined in singing "For they are joly good fellows."

It was on April 9th, 1884, that Mr. Andrew Dingwall of Hopeville and Miss Annie Milner of the Fourteenth Concession of Proton were married and settled on the farm where they now reside. Their family consists of five children: William of Proton Station, Edith (Mrs. Nixon) of Weston, Louise (Mrs. Irving) of Swinton Park, Edward on the home place and Robert of Massey Station, Ont.

Those in attendance were: Mr. and Mrs. Wm. Dingwall of Proton Station, Mr. and Mrs. Dick Nixon and family of Weston, Mr. and Mrs. Lawrence Irving and family, Swinton Park, Mr. and Mrs. Edward Dingwall of Priceville, Rev. and Mrs. Robert Dingwall of Massey Station, Mrs. Harriet Campbell, Bob Campbell and Mr. and Mrs. W. Vance and family, all of Owen Sound, Mr. and Mrs. Wm. Dingwal and family of Hopeville, Mr. and Mrs. Geo. Burroughs, Messrs. Earl and Frank Dingwall, all of Holstein, Mrs. Mary Dingwall, Mr. and Mrs Roy Dingwall and family and Miss Emma Dingwall, all of Cedarville, Miss Mary Campbel of Montreal, Mrs Elizabeth Wilson and Messrs. George and Jack Wilson of Riverview, Miss White of Mount Forest, Mr. Harry Milner of Dundalk, Mr. and Mrs. T. Hatton and family of Toronto, Mr. and Mrs. C. Fowler and family of Hopeville, Mr. and Mrs. Sam Batchelor of Proton Station, Mr. and Mrs. J. Batchelor and family of Proton township, Mrs. Hardy, Mr. and Mrs. Jas. Hardy and family of Swinton Park, Mrs. Macphail and Miss Agnes Macphail, M.P., and Mr. and Mrs. D K. McLeod, all of Ceylon, Misses Emily and Louise Huddy of Priceville, and Mr. Archie Thompson of Weston.

Mrs. Hardy and Mrs. Macphail were among the guests of the bridal party fifty years ago. Mr. and Mrs. Dingwall are both enjoying good health and all their friends join in wishing them many more years of happiness togeter.

Protecting Potatoes

Losses to potatoes from low temperatures may be prevented by adopting the following measures: (1) Harvest the crop before heavy frosts. (2) Store the crop in rooms having a temperature between 35 and 40 degrees F., thus preventing the potatoes from turning sweet and the development of necrosis. (3), Provide protection against frost for potatoes transported during the cold months. (4) When it is known that potatoes have been undercooled do not handle them until it is certain that the temperature is above the freezing point.

Hamilton water is said to be ruining complexions there. Still the druggists are meeting the need.
