VANDELEUR

The St. Patrick's Day social which was held in the basement of Vandeleur Church on Friday evening of last week, March 15th was an enjoyable affair. A good crowd was in attendance and a fine program was rendered consisting of community singing, instrumental music by Messrs. Will. Hutchinson and Harold Thompson, readings by Mr. W. H. Fitzpatrick, solo by Geo. Buchanan and three interesting contests led by Mrs. Fitzpatrick, Ken Teeter and Mrs. H. I. Graham. This was followed by a debate on the subject. Resolved that the world is getting better." The affirmative was taken by H. I. Graham and Mrs. Frank Davis and the negative was supported by Harold Thompson and Mrs. F. R. Boland. Strong and interesting arguments were brought out by all the speakers. The judges were Messrs. W. H. Fitzpatrick, Geo. Buchanan and Otto Baker and they decided in favour of the affirmative. A dainty luncheon was then served by the ladies. Mr. E. Warling was the chairman.

HOLDFAST U. F. W. O.

Holdfast U.F.W.O. met at the home of Mrs. Thompson on Wednesday, March 13th, with nine members and three visitors present. The meeting opened by singing "Home Sweet Home," after which the Creed was repeated in unison. Roll call was answered by a "proverb." Bulletin questions were taken up and Mrs. Robertson gave a very interesting and helpful paper on "Interior Decorating," which was followed by discussion, Books from the travelling library were exchanged. Lunch was served. The April meeting will be held at the home of Mrs. Beaton.

VALUED ASSISTANCE

There is nothing that is more welcome to a newspaper office than the friendly subscriber who sends in a bit of news, either by phoning, by letter, or by dropping in at the office. Dozens of incidents occur in the district that are noteworthy and of gereral interest, but these may not reach the paper until long after occurance or maybe not at all. People come and go throughout the community, bringing pleasant little ripples in social life, but too often no one troubles to notify the local newspaper. Yet these little items are appreciated by the office, and they are read by everybody.

Why do they say you are "laid up" with the flu. instead of "laid down."

A NOVEL IDEA

The citizens of Coldwater have hit on a novel idea. They are tendering a complimentary banquet to the Municipal council and the School Board as a gesture of appreciation for services rendered. Mr. Howard Gover is the chairman of the Citizen's Committee sponsoring the event and with such leadership the success of the function is absured. This is one of the finest suggestions we have noted for many moons. We have always contended that it was truly a brave man who offered his services on the official bodies that direct the activities of a municipality. One of the reasons for this reluctance, we surmise, is the apparent lack of appreciation. A man in public life cannot possibly please everybody. He is forced to give decisions which will please some and offend others. This leads to dissatisfaction. The disgruntled party starts out to wage a complaint against the official and too often finds ears to hear. The matter of showing appreciation for services faithfully rendered is overlooked and many splendid administrators we could name have passed to oblivion without any recognition.

A member of a council or a school board necessarily gives freely of his time in the interest of the ratepayers. The position may carry a certain degree of preferment but this is more than overshadowed by many little unpleasantries.

The citizens of Coldwater are to be congratulated for being motivated by a desire to show some slight evidence of appreciation toward the official bodies laboring on their behalf. We like the idea of banquets to the living more than flowers after they are dead.

This week will see the maple syrup harvest in full swing. A number of farmers have already tapped, maying a small amount of syrup, but the main run is just commencing. Mr. Walter Akitt. the maple syrup king of Grey County will not have his bush producing this year as he decided to give it a needed rest. Each season for the past thirteen years he has tapped around 2600 trees and gained the name of one of Ontario's largest producers, making from 400 to 800 gallons of syrup each season, according to the run of sap.

HOW SLEEP COMES

How sleep comes is still a mystery to scientists. A great many theories have been advanced to explain the riddle, but none has been acceptable. One theory explains that sleep comes somewhat in the manner of pulling all the plugs out of a switchboard to stop all conversations. The conduction pathways in the nervous system are broken by the refratcion of small contact points between the neurones, which are the conducting units that form the nervous system. Activity, according to still another theory, produces a fatigue poison which accumulates in the blood and "dopes" the brain, thus bringing sleep.

Newspaper reading is a universal habit. Newspaper advertising, therefore reaches each week virtually all who buy, giving them the merchants' news.

There was a picture in the paper of the man who operates the electric chair in New Jersey. He goes here and there as required, on a sort of circuit.
