The Modern Farmer

There is no question that the farmer's occupation is a skilled one. Many city dwellers have little idea of the amount of skill and detailed knowledge necessary for success in farming. This skill must take several forms. There is the manual dexterity of mechanical sense needed for operating both ordinary and modern farm machinery, and the knowledge required in dealing with horses and stock. And above all there is the judgement which decides the right moment to carry out this or that operation on any particular area of soil, and the managerial capacity to arrange operations and material efficiently. The degree of forethought and skill demanded is much higher than is expected of the ordinary recipient of the basic wage for unskilled labour.

A patent medicine ad says "She coudn't sew a button on." Many of them can but don't.

Plotholders' Meeting

The annual meeting of the plotholders of the Flesherton Cemetery will be held in the town hall on Fri., May 3rd, at 8 o'clock p.m. It is urged that there be a large attendance of plotholders, as some very important questions are to be discussed.—F. J. Thurston, Sec.-Treas.

About fourty members of St John's Y. P. S. journeyed to Owen Sound on Monday night last and were entertained by the First Church. A fine programme of spiritual inspiration and recreation in the finest sense was presented and a warm fellowship of young people having a high ideal of life was experienced. Such gathering confirm one's confidence in the youth of today and reveal that the heart of youth is sound.

HELP TO MAKE CANADA MORE BEAUTIFUL

The unlovely and unattractive places in Canada that displease the eye are made by man. It is time he set out to undo some of the damage that has been done. There are primrose paths for all to tread who care to make them. An amazing amount hose paths in a bright spring afternoon. Since Adam tilled the first garden many pastimes have come to claim their thousands but have passed out of the picture while gardening has stood through the centuries. There must be something in it. Buy some flower seeds, plant some flowers or shrubs this coming spring. Help to make Canada more beautiful.

IN MEMORIAM

DUNCAN—In loving memory of Wm. Duncan, who passed away at Armstrong, B. C., April 17th, 1932.

Gone from our home, oh, how we miss him,
Loving him deeply, his memory we'll keep,
Not till life ends, shall we forget him,
Sacred to us is the place where he sleeps.

—Sadly missed by wife and family.

Walkerton will discontinue the grant to their band as nothing is being shown for the money already spent.

When Chicago meat market heard of more dust storms in the west the price of wheat moved up two cents per bushel. Dust storms destroy grain crops, destroyed grain crops bring agony to thousands of farmers, but agony is the price to be paid for a better wheat future.

Taxes Are Felt

If you are one of those who don't think Federal taxes are of great concern to you as you don't pay income tax or never import stuff from other counties, it might come as a surprise to earn that more than $24,000,000 has been collected from the special tax on sugar, which came into force at two cents a pound in 1933 and has since been reduced to one cent a pound. The increased tax on tea has also brought in $5,658,000 since it was introduced in 1931. Statements of facts such as these do not make us feel good. We like sugar in our tea, and it pains us every time we think of these figures while sipping a cup of tea.

Radio is being tried in Toronto Schools for the teaching of certain subjects. Wouldn't it be fine to have all subjects taught by specialists from a central station, and all the local staffs dispensed with, except the caretaker.
