### LORD TWEEDSMUIR ADVISES

Our new Governor-General is not only a distinguished author and statesman but a keen thinker and leader, ready and willing at all times to help and counsel his fellow men. On Saturday night, as the guest of honor at the annual dinner in Toronto of the Old Boys' Association of Upper Canada College, he pleaded that trained and educated minds should serve the community with contributions to progressive thought; indeed, it was an obligation which the times in which we live imposes on all educated men and women. "A duty lies before us," Lord Tweedsmuir declared, "living as we are upon spiritual as well as material frontiers. We must revise our creeds and rethink our faith to make it fitting to new conditions, and give our beliefs a spring cleaning from time to time that they may not outlive their usefulness. It is the function of the schools, such as ours, not only to produce gentlemen, but also aristocrats, and by aristocrat I mean a man who gives the world more than he takes from it." A definition not generally understood, but that certainly ought to be borne in mind when dealing with what the world has come to speak of as the "classes and the masses."

No doubt we have among us some who will take issue with Lord Tweedsmuir in the suggestion that there should be a revisiin of creeds and a re-thinking of faith to make it fitting to new conditions—a spring cleaning of beliefs he defines the process. But others will doubtless agree that there is wisdom in the suggestion. They have a precedent of Christianity, when there was certainly a most decided revolution in the beliefs of mankind and in the standards of conduct governing the human race.

### CAUSE OF COMPLAINT

The Advance has been the recipient of numerous complaints regarding the condition of our roads. The burden of complaint has staged around the work done by the government snow plows when hundreds of dollars were spent opening up the road to Eugenia, part of which is only a county highway, the work being done only as an accommodation for the Toronto sports who wished to use the road on Sunday for a ski meet. It would not have been so bad, they argue, if the snow had not been scraped off down to the dirt, thus making it impossible to draw heavy loads, when the thaw set in, either to or from town. They claim that the Department of Highways has no right to spend money to assist in Sunday desecration, as many of them look upon it, when so much necessary work remains to be done before we are able to pull ourselves out of the hole which improvident governments in the past have thrown us into. But the moral side of the question has been ably handled in another column by our good friend, Rev. M. F. Oldham, Anglican clergyman of Tara, whose letter arrived just too late to appear in last week's Advance.

### EDITORIAL NOTES

We cordially agree with the great mass of humanity that the now passing winter should be a warning to all weather prophets to keep off the air and out of the newspapers. This suggestion is offered not only to aged Indians, bears, groundhogs, but to all and sundry—more especially our own Grey County prognosticator.

• • •

One redeeming feature of the great snowfall and frost is the keeping down of the outdoor dust crop and incidental microbe pests. We are still without an effective remedy for the "cold." The explanation of the wise ones is that the influenza microbe is so small that they have no instrument able to discover him, though they feel assured he is there!

• • •

The Toronto Globe tells of a public school out Burlington way where the school board supplies the Globe and Mail-Empire to the reading room, and understands that the Globe cannot be placed on permanent file because it is practically destroyed by the pupils handling—inferring of course, that it is much more read than its political opponent. We suggest that probably the explanation lies in the grade of paper used by the Globe.

• • •

Man is the great spend-thrift. Nature rarely fails to make use of the waste material of the earth. People are, however, beginning to learn that much can be done for their benefit by looking after the waste material. Lately, we find that the chin whisker crop of the thousands of Angora goats is now being used in carpet production in Rhode Island, U.S. Here may be a pointer for the new national union of barbers!

• •

A newspaper competition recently brought out the declaration that the municipality with the longest name is found in Wales. It has 59 letters, but the practical Welsh only use the first 20! Scotland is in the running with the village of Drimtoidhorickshillichattan, Island of Mull—26 letters. How stands Canada for long place-names? In a study of short-named places France shows up, with the important railway centre of Eu, on the line from Dieppe to Treport (mouths of the Somme) where many Canadian soldiers, who lost their lives in the Great War, sleep their last sleep in a beautiful cemetery on the heights overlooking the ocean end of the historic stream.

### HAPPY LITTLE FELLOWS

The following was written by Mrs John Murray of Meaford, a "shut in, for the Meaford Express:

Happy little fellows
Sliding down the hill,
Now I hear the shout,
Look out there, Bill!

Happy little fellows
Tumbling in the snow;
You can hardly tell
Which is Tom, Dick or Joe.

Happy little fellows
Drinking in pure air,
Cheeks as red as roses,
Boys without a care.

Happy little fellows
Snow to them is joy,
Oh my goodness,
Who wouldn't be a boy!

Happy little fellows,
Now home they run;
Bread and milk for supper,
Yum, Yum, Yum.

Tired little fellows,
Now their prayers are said,
Sand man has come
And they're tucked into bed.

### CONSTABLE FOR FLESHERTON

Provincial Constable S. H. Cooke of Owen Sound is in charge of the policing of this section of South Grey, but at present is using Owen Sound as his headquarters. He and Mrs. Cooke intend moving to Flesherton in the spring.

GEORGE E. DUNCAN, Auctioneer.

## HEALTH

by Geo. Stevenson M.D.

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

### STROKE

Because of its sudden onset, apoplexy or cerebral hemorrhage is popularly called a "stroke." In the midst of his ordinary activities, the victim suddenly falls and remains deeply unconscious, usually with a flushed face, and his breathing laboured and noisy.

Not all cases occur so suddenly; some experience a period of general discomfort with dizziness and headache before consciousness is lost. Strokes happen more often to men than to women, and usually occur after middle life. They are due to hemorrhage in the brain which causes pressure on important nerve centres.

The artery which breaks is one which has become worn out and hardened. Apoplexy commonly occurs in those with high blood pressure and whose arteries have lost their elasticity. Occurring in early life, apoplexy may then be considered as the penalty of failure to give reasonable care to the hygienic needs of the body.

Occasionally, death follows upon the apoplectic stroke, but usually consciousness returns, speech is restored, and, to some extent, the paralysis improves. Paralysis which is limited to one side is known as hemiplegia. The face, arm and leg may all be involved, but again, one or other may escape.

At the time of the stroke, the patient should be placed in bed with the head slightly raised and the whole body turned to one side. Alcohol should not be administered; indeed, nothing should be given until the patient is seen by the doctor and then only what the doctor orders. Attempts to make an unconscious person swallow may do harm. An ice-bag or cold compresses may be placed on head, and a hot water bottle to the feet.

The extent to which recovery is possible depends upon the location and severity of the condition. The blood clots, and the clot contracts and is partially absorbed, thus relieving the pressure. During this convalescent period, passive moments and massage of the parlyzed muscles are considered to be helpful. The value of electrical treatments is questionable. The patient should be encouraged to use the paralyzed arm or leg and thus re-educate the muscles. After three months, no hope can be held out for any improvement in the extent of the paralysis.

Over-exertion, violent emotions, alcohol and overeating should be avoided by those whose condition is such as to predispose to apoplexy.

GEORGE E. DUNCAN, Auctioneer

## Now In Finals

Flesherton, Semi-Pro. Hockey team must now meet Proton Bears, winners of their group in the Semi-finals, after defeating Dromore 2—1 in a hard fought game on Priceville ice. Flesherton was only able to tie Dromore 4—4 in their previous game so a play-off on intermediate ice was necessary to settle the question, on Friday night last. On the strength of two goals scored by Dargavel, Flesherton wing man, they were able to plunge into the Semi-Pro. finals with Proton. A nice play by M. Piper and Smith, who baffled the Dromore defence then a pass to Dargavel scored the first goal for Flesherton. Dromore got their only counter on a scramble in front of the Flesherton net when Gibson flipped the rubber past Ferris. There was no score in the second period nor until late in the third, when Dargavel got in contact with a beautiful pass from Smith and scored the last and winning tally.

FLESHERTON—Goal, Ferris; Defence, Hopkins and J. Gibson; Centre, Smith; Wings, M. Piper and Dargavel; Alternates, Akitt and L. Piper.

DROMORE—Goal, L. Henderson; Defence, M. Ral and Arnill; Centre, R. Nelson; Wings, P. Nelson and Taylor; Alternates, M. Fidler, P. Gibson and L. Gibson.

## HOCKEY GOSSIP

Flesherton defeated Chatsworth, Monday evening on the latter's ice in a schedule Centre Grey League fixture and are again leaders of the second section.,, Bill Patton was the sharpshooter of the evening and tallied four goals while Bob Dargavel poked in the fifth. The game was played on slow ice but was clean throughout. Three of their best players were with Markdale juniors.

Hanover Rip Saws proved too much for the Markdale juniors in N. W. League games during the past week. With a weak team Friday night Markdale lost 10—2 and on Monday evening, with a full team gave their opponents a real battle in making a 4—2 victory for Hanover. George Boyd of Flesherton and McGuirk of Dundalk scored the four goals, while Fred Patton supplied the passes for three of them.,

The next games of special interest will be the finals between Proton Bears and Flesherton Tigers in the Semi-Pro. League. The games will be played Monday, March 2; Thursday, March 5th; Monday, March 9; Wednesday, March 11, and if a fifth game is necessary will be on Friday, March 13., The team winning three out of the five games will be the holders of the McDougall cup for 1936. These are sure to be stirring games and large crowds are sure to be attracted to the contests.

## Curling

Dr. A. E. Little and his rink, composed of Thos. Brady, vice skip, R. B. Heard and J. E Wilson, won the championship of the Flesherton Curling Club when they defeated Geo. McTavish's rink on Friday evening 10—8. The McTavish rink, after winning five games and losing two in the regular schedule, won two games in the play-off and had a bye to the final, while Dr. Little, who won and lost the same number, took the long way about and met the rinks in the lower category to meet the rink of which they were victors.

Due to the mild weather the annual Flesherton bonspiel has again been postponed indefinitely after it had been decided to hold it this Tuesday and Wednesday. The Club officials are considering postponing the bonspiel definitely.

The Ritz rink from Durham won three and lost three games at the Ontario Bonspiel held in Toronto last week. H. A. McCauley of Flesherton played second for the Ritz rink.

### NOTICE TO CREDITORS

IN THE MATTER of the estate of GEORGE E. HENRY, late of the Village of Flesherton, in the County of Grey, Farmer, deceased.

## St. Columba W.M.S.

The February meeting of St. Columba Woman's Association was held on Wednesday the 19th at the parsonage. Mrs. Johnston presided. The devotional theme was the Spirit of Jesus at work. The second Chapter of our study book, The New Africa, was given by Miss B. Weir. Mrs. Johnston and Mrs. Harrison sang as a duet, a negro Spiritual, "Lord I want to be a Christian." The Woman's Missionary Society Association, under the leadership of Miss E. James, discussed general business and made plans for future activities. First and foremost among them, being an Irish supper and entertainment in the church on March 17th. A responsible committee was appointed to make arrangements and to keep the matter before the public eye. So no one shall say it was unbeknown to them. At the close of the meeting lunch was served by the hostess and assistants.

—HAVE YOU RENEWED?
