SWINTON PARK

(Intended for last week)

Mr. Neil Phillips of Boothville, last week received by telegram the sad news of the death of his sister up in the mining district of New Ontario. He immediately started by train to attend the funeral. He got back home on Sunday.

Quite a number of our young people journeyed to Eugenia on Sunday to witness the skiing performance, which no doubt was very interesting but somewhat out of place, being held on Sunday. So many people out of work all week, yet have to take Sunday as the chief day of sport.

On Saturday last a friendly game of hockey on Black's Rink, between the Black Hawk Juniors and the Saugeen Rustics was much enjoyed. The score was in favour of the Juniors.

We are sorry to hear that Mrs. D. Reddick (nee Mildred Porter) has been very sick over the week end; also that Mrs. George A. Black is not enjoying good health at present. We hope that soon both of these ladies will be better.

The weather is much milder these days than for the past month, yet we in the Park have had no reason to complain. We have not more than our usual supply of snow, roads never good, yet never blocked. Our first thaw of the winter started Monday. Soft water has been scarce and melting snow has been the order of the day Another month of just such weather would be beneficial to the country, keeping the ground well covered up. Snow plows are not bothering us.

Mr. W. O. Dingwall, teacher in the Park, intends going to Toronto on Thursday and Friday of this week to write exams. His pupils will have a long week-end, but will make up for it at a later date.

Mervin McCannel is at present working for John McMillan, Con. 14 John Lane has Stewart Carson of Priceville assisting him in the bush at present.

We do not often leave home but on one occasion, not very long ago, we were having dinner in a certain eating place. A number of people were at dinner, and as we ate we listened to the others talk. We gathered that a certain gentleman had died very suddenly from heart trouble. Those people were wandering what was the cause of so many sudden deaths and so much heart trouble. Many theories were advanced as to the cause of it. All at once an old gentleman, who had been quietly eating his soup said, "I know a man who has no heart, and he is living and getting along fine." An old lady answered him, "No one can live without a heart." "Yes." he said, "There is a Doctor in our town who has no heart at all. They say he has an extra big gall and he is doing fine." As we ate we thought if there is a Doctor without a heart in 1936 living and doing a large practice, how many people may there be in 1946 living without a heart? Mr. Editor, can you figure it out?

Editor's Note — We know a Dr. who has "no heart" to press people for his pay; has "no heart" to lie in his comfortable bed, when called out at 2 a.m., even if he knows the patient is more scared than ill; no heart to give disagreeable medicine to little children, and so makes it as pleasant as possible for them; no heart to be anything but a considerate, kindly gentleman.

Mr. Bushell delivered a fine sermon. The thanks are due to Mr. Ernie Proctor, who so kindly loaned his radio so the church attenders could hear the message.

The minutes of the last meeting were read by Miss Ida Benson and approved. Miss Winneta Martin, who is assistant secretary, acted in the absence of the secretary, Miss Marjorie Benson. After the singing of a hymn and the repeating of the Lord's prayer in unison, the roll call was answered by a Valentine verse. The minutes of the last meeting were read and approved. The Ladies Aid meeting here was postponed last month on account of stormy weather, but if health and weather permits, the Aid will be held at the home of Mrs. Alex. Maxwell on the 11th of this month. The principal part of the work will be the quilting of a quilt for the hostess.

Mr. Geo. McConnel of Kimbo is the guest of his daughter, Mrs. Percy Semple at present.

We are sorry to learn that Mrs. Walter Wilson is not enjoying the best of health at present, but hope she will in the near future be much improved.

SECRET OF SPEED

The secret of how Germany trained her new force of air pilots has just leaked out. Several months ago, all available pilots and skilled mechanics who had experience in the war were asked to come forward. Then a new method of training pilots was instituted. Each instructor devoted his entire time to one pupil until such time as that pupil was considered fully capable—usually after 100 hours in the air. The instructor then went on to another pupil, while the last pupil now started as an instructor himself.

—HAVE YOU RENEWED?

PRICEVILLE

We at least absented ourselves for the 15 minutes from the church and honored our earthly King by listening to his address in which he referred touchingly to the broadcast made by his late father, and the kind expressions received from home and the colonies. The personal devotion and loss to us all was felt. Loyalty reigned in the hearts of his people and he would endeavour to promote the well being of his people, were some of his remarks.

Blocked roads, deep snow, high banks, is the all absorbing thought of those who have to travel.

Skating rink again covered with a liberal coating of snow, enough to break the hearts of devotees.

We are heartily in accord with the sentiments expressed in The Advance, by Rev. Oldham of Tara, and the correspondent of Swinton Park, re the skiing party at Eugenia, reprehensible on a Sunday.

VICTORIA CORNERS

It is so long since we have been present you will be thinking we have been buried in a snow bank. Not exactly, but the banks are so high we cannot see what our neighbors are doing to tell you, and the lack of phones makes news scarce. Milton Bannon has had his connected up again.

We were rather amused last week to see in the Flesherton Advance, two items side by side, East Back Line and Swinton Park. The former spoke of blizzards and big snow falls, the latter of beautiful winter weather, no extreems in storms. They tell us what this winter is like. Much worse some places than others. We have lots of snow in the fields and we were told below Dundalk there is not so much in the fields. The papers tell us of much worse storms further south. We are not jealous of those people. We have plenty.

No school on Friday as Miss Henderson was trying exams in Toronto.

Mr. Ernie Stinson and Ann and Mrs. Albert Stinson were in Toronto a few days last week.

Our sick are about the same, or improving. Mr. Thos. Bannon is better, Mr. Best quite a bit better than he was for awhile; Mrs. Best about the same; George Ludlow able to be at his chores after quite a spell of tonsilitis, and Will Moore still at his daughter's, Mrs. Bert Hodgins, is improving.

The last meeting of the W. A. was at the home Mrs. Wm. Talbot.
