THE CASE OF ETHIOPIA

Mussolini now boasts that he has not only destroyed Ethiopia, but that he has also destroyed the League of Nations, of which Italy is itself a member. Imagine any human being expressing pride over that act. The time may yet come when Mussolini may himself need the assistance of the murdered League and it will not be forthcoming. Italy claims to be a christian country and home of one of the great christian religions—a follower of the meek Messiah. Its influence in missionary effort along Christian lines will henceforth be nil among Mohammedan, Hindo and other, what Mussolini would call, heathen nations. Italy's act will also go a long way towards justifying the belief which has shown its head in some quarters that humanity is on the verge of a cataclysm that will fing it into chaos—anarchy wanton murder, and a return to a primitive state, where blood and life do not count, when the desire for pillage and rapine exists, as in the case of Italy. Mussolini himself may yet be guilty of causing that horror.

A CHILD PRODIGY

On the last Major Bowes amateur hour over the radio a real child prodigy was brought forward for public approval. This child, a little girl five years of age, will, if she lives, be recognized by the world as a real prodigy, such as the musical world has known but once or twice in past years. The child, Lucille Racine, has been tutored for nearly three years. The father was born in Canada and is a mill worker in Conecticut. He is the father of ten children, eight of whom are studying music. Lucille played a classic by one of the great masters. Then she sat on top of the piano with back to the keys, while the Major tested her out on her knowledge of music. Striking many different keys or two or three at a time, each one of which the little girl placed in their proper category. Then came the hardest test of all, five different keys, each one of which she named in their proper order. Thunderous applause greeted this wonderful performance and she was rewarded by the Major pronouncing her a real prodigy. The musical world will hear more from her.
