Hard To Get Witnesses

The Toronto Globe tells of two unknown youths who witnessed an automobile accident which resulted fatally and yet did not respond to the police appeal that they appear and give evidence at the coroner's inquest. Coroner Dr. M. M. Crawford said "We are having a lot of trouble through the public being loath to give evidence. Good citizens should feel it their duty to come forward with any information they may have so that justice may be done."

A plain statement and a good one, but good citizens or those who are not so good often hesitate to come forward and tell what they have seen. Most people would say they do not like to get "mixed up" in such a case, and there is another reason. Just this: few people like to be examined and cross-examined. They do not like to have counsel trying to tie them down to statements giving actual distance from here to there, and to making definite statements regarding speed of cars and so on. Dr. Crawford may have been able to reduce this form of questioning to a necessary minimum in his court, but there are places where it runs at too great a length. If a witness knew he would be required to make only a plain statement of what he had seen, and not be placed in the position where he would have to commit himself to definite analysis of speed and distance, then there might be a greater willingness to come forward and give evidence.

FORM NEW PARTNERSHIP

Another newspaper change is taking place this week, this time it is the Mount Forest Confederate. Mr. Sam S. Blackburn, well known here, and Mr. Jas. A. Lennon, are being taken into partnership with the Wright family. The former has been foreman of the Confederate for a number of years and the latter has been identified with papers at North Bay and Sudbury. We wish these young men success in their new responsibilities.

Scientists now tell us that time began when the earth was thrown off the sun. And old Sol is still calling us to time every morning.

The month of roses is here and there is some reason for hoping that before long we can give the furnace a chance to cool of.

Lindsay school teachers are expected to stay in town over the weekends. That ruling should certainly justify a demand for a salary increase as a recompense.

ELLIOTT—MARSHALL

(By our Ceylon Correspondent)

A wedding of much interest to a wide circle of friends took place Saturday at 4 p.m. at the home of the bride's parents, when Stella Viola, daughter of Mr. and Mrs. Fred Marshall, Ceylon, became the bride of Mr. Howard Wilson Elliott, only son of Mr. and Mrs. Reginald Elliott, Toronto.

Before a background of ferns ano standard of pink and white paenies. The fair young bride, who was given in marriage by her father, was a picture of girlish loveliness in her wedding gown of white satin, designed on long lines, the skirt falling away in a short train. The bodice was trimmed with a braid and plait of the material while a smart cape completed the costume, with this she wore a veil of embroidered net caught in cap effect and carried an armful of talisman roses and baby's breath. Miss Jean Marshall was her sister's bridesmaid and was dressed in yellow crepe with touches of brown and carried a bouquet of pink carnations. Supporting the groom was Mr. G. Oullaham of Toronto. The ceremony was performed by Rev. C. O. Pherrill. Markdale, while Mrs. Pherrill presided at the piano. Following the ceremony a buffet luncheon was served to about thirty guests and relatives. The table was centred with the bride's cake, while pink tapers and pink and white roses carried out the colour scheme.

For motoring the bride wore a green swagger suit with white hat, shoes and accessories, and will spend their honeymoon at Lake Couchiching, later taking up residence in Toronto.

Out of town guests at the wedding were: Mr. and Mrs. Gordon Mix, Mr. and Mrs. R. Elliott, Mr. George Thompson, Mr. W. Curtis, Marshall, Mr. Alex. Marshall, all of Miss Margaret Weis. Miss Olive Marshall, Mr. Aley Marshall. all of Toronto, Miss Reta Marshall, Whitby, Mr. and Mrs. B. Rutledge, Holland Centre, Mrs. Dill Stewart, Bolton, Rev. and Mrs. Pherrill. Markdale, Mr Geo. Oullaham, Toronto.

Salt In Hay Curing

One tenth of the value of the annual hay crop in Canada is lost due to fire and spoilage caused by heating, according to an estimate made recently by W. J. Scott, Fire Marshall for Ontario.

Mr. Scott points out that this loss is not entirely the result of actual fires. Much of it is accounted for by heating that does not reach the ignition point but does destroy the food value. owing to fermentation and bacterial action in the presence of moisture. The early stages of heating in hay are caused largely by moulds and bcteria that occur naturally in hay. If this is not checked the temperature may rise to a point where chemical reactions are started dnd more heat is produced, with ultimate ignition.

As a preventative measure, Mr. Scott advocates the use of salt, which has long been recognized as a preservative and a retardent of fermentation. If used intelligently it will show down the heating action in hay and prevent dangerous temperatures. The amount of salt recommended is up to 20 to 30 pounds per ton of hay. Salt, he points out, will serve not only as a preventative of heating and spoilage but also will increase the food value to livestock.
