## *Fairbanks A Co-Producer*

HOLLYWOOD. — Douglas Fairbanks and Samuel Goldwyn announced they would produce jointly Gary Cooper's first film under a contract with Goldwyn. The picture will be "The Adventures of Marco Polo", a story Fairbanks long conseidered as a starring vehicle for himself.

The association of Goldwyn and Fairbanks as a production team marks the former film star's first venture in pictures in which he himself does not play the leading role.

## In Bed For Weeks With Bachache

### Quick Relief with Kruschen

It was advice from her mother that led this woman to take Kruschen Salts for her backache, and before she had finished the first bottle she was feeling better. This is the letter she writes:—

"About this time last year I had severe pains in my back and was prostrate for three weeks. I could not even rise in bed. I tried several well-known remedies, but to no avail. Then I wrote to my mother telling her of my trouble. She wrote to me by return of post urging me to try Kruschen Salts. I immediately bought a bottle and I can truthfully say before I had taken the fifth dose I could sit up. I kept on taking them and in less than two weeks I was about again. I am never without Kruschen now."—(Mrs.) A. G.

Unless the kidneys function properly, certain acid wastes, instead of being expelled, are allowed to pollute the blood-stream and produce troublesome symptoms: backache, rheumatism, and excessive fatigue. Kruschen Salts is an excellent diuretic or kidney aperient, valuable in assisting the kidneys to excrete acid impurities.

## Cornhusks Are Thick; Bad Winter Coming

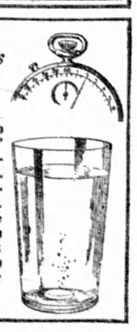
Salem, Mo.—Ozark old-timers are holding up for a long hard winter. Hill residents say corn husks have been unusually thick and the fur of wild animals more luxuriant than usual. Weeds, too, have grown tall — indicating a high snow level.

Mountain folk say the weeds grow high so their seeds will reach above the snow and provide food for the birds.

All industries in Sweden are active.

**To Quickly Ease Pains of Rheumatism**

*"Aspirin" Tablets Dissolve Almost Instantly*



In 2 seconds by stop watch, an "Aspirin" tablet starts to disintegrate and go to work. Drop an "Aspirin" tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass . . . happens in your stomach.

*Ask Your Doctor About "ASPIRIN"*

Any person who suffers from pains of rheumatism should know this:

Two "ASPIRIN" tablets, taken with a full glass of water, will usually ease even severe rheumatic pains in a remarkably short time.

Ask your doctor about this. He will probably tell you there is nothing better. For "Aspirin" tablets not only offer a potent analgesic (pain reliever), but start going to work almost instantly you take them. Note illustration of glass.

Try this simple way. You'll be surprised at how quickly pain eases.

● "Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.

LOOK FOR THE BAYER CROSS

# MINING FLASHES

A. L.Reading, engineer of Richmac Gold Mines, in a wire to local officials reports that assays of recent channel sampling on claim 432 indicates ore for a length of 128 ft. averaging $34.60 across 9 ft. with the vein traced 200 ft. further north. Sampling of the western sector shows consistent values across 200 ft. and more. The company has purchased a diamond drill and will carry on an extensive campaign of drilling on the west section of the property. James Boyle, pres., will supervise drilling which will be entirely separate from No. 1 vein, where drilling is to commence immediately. The Richmond Development Co. are developing the Richmac No. 1 vein under an agreement whereby the Richmac Co. are to receive 50 per cent. of any net profits from the mining of ore on this vein without incurring any development costs.

Brengold Mines has completed arrangements for Winter operations at its property in the Sturgeon River area, according to E. M. Hand, secretary. Underground work is proceeding and a raise has been started from the 200-ft. level to prove the dip of the vein an dcontinuity of values, as recommended by Allan J. Anderson, in charge of operations. On the 100-ft. level the No. 2 vein has been sampled over its full length of 80 ft., so far opened up, and this distance shows average width of 20 inches and average grade of $36.22 gold per ton. Drifting is being continued with the face in ore. The cross cut to the south has cut a number of high grade stringers with one section running $9.10 across width of 21 inches. Officials believe they are just entering the No. 7 vein in this area It is planned to continue drifting on the showing to the west.

Assay results obtained from the vein which was encountered at the end of the 33-ft. crosscut on the second level at Mooshla Gold Mines, gave an average of $60.20 across 18 inches, according to a wire received from the mine manager. Before continuing shaft sinking to the 3rd level, the vein was drifted on for a length of 12 feet and samples across the last face are reported to have averaged $32.98 over a width of 42 inches. At this point according to the wire the vein was getting stronger. The shaft has now reached a depth of 255 ft. and at the present rate of progress is expected to be bottomed at 360 ft. in about 3 weeks time. Following completion of this work the 3rd level will be opened at 345 ft. and several hundred feet of drifting carried on.

Diamond drilling is progressing on the Gaffney Mines property on Manitou Island, Lake of the Woods area, where the first hole has been completed. The total length of core assayed was 133 ft. from the hanging wall of the extensive sulphide orebody and values of from $2.40 to $8 per ton in gold were secured across widths of 8.5 to 17 feet. Hamlin B. Hatch, geologist, reports the hole gives good width of commercial ore on the hanging wall and suffests a wide low grade orebody.

Wendigo Gold Mines' enlarged three-compartment shaft has been timbered to the 300-foot level, according to H. D. Tudor, president. While production for October will be curtailed somewhat due to the fact that millfeed has been drawn from the surface dump while the shaft was being enlarged to 500-ft. depth, by the first of November millfeed will be drawn from the underground workings on 2 or 3 stopes at the 200-ft. level which recently revealed high values in gold and considerable improvement in recovery is anticipated. The mill currently treating 58 tons of ore daily, is being gradually stepped up and will be handling close to 65 tons by the first of next month.

The shaft at the Crescent Kirkland Gold Mines has been dewatered well below the 100-ft. level, according to company officials. The shaft goes to a depth of 400 feet, with stations and lateral work at 100, 200, 300 and 400-ft. levels. Most of the old lateral work was on the 200 and 300-ft. levels and it is the company's objective to complete dewatering as quickly as possible and to carry on a complete check of all underground workings. In the meantime, four channel samples taken on the south breast on the 35-ft. level (adit) are reported as giving values of from .04 to 3.67 ozs. across widths of 18 and 12 inches, respectively, or an average of .81 ozs. across the 5 feet.

**POULTRY RAISER CONQUERS "ROUP"**

*Praises Minard's Liniment As Remedy for Roup or Bronchial Flu*

Read in this letter from G. Minvielle, Fort Garry, how he checked Roup (Bronchial Flu) when it broke out among his young hens. "After trying other remedies and obtaining no results whatever," writes Mr. Minvielle, "I tried Minard's Liniment, five to six drops on the tongue and sometimes more, depending on the birds. I am positive that it helped me out a lot." Minard's Liniment is a tried and proven remedy for sprains, burns, bruises and skin diseases, as well as for Bronchial and Rheumatic trouble. For sale by all druggists. 87

## *Little Old New York*

The New York Times writes: — Life has become much quieter for former Mayor James J. Walker, who resigned under fire four years ago. Now he practices law, helps his wife, the former Betty Compton, raise Irish terriers, watches over his adopted daughter, Mary Ann, and stays pretty well away from politics (although recently he praised the New Deal and criticized Alfred E. Smith for a "run out" on the Democratic Party). He even reminisces sadly, as last week before the Grand Street Boys Association, on the good old days.

"I'm a sentimental, old-fashioned New Yorker," he said. "Now and then I have been given the reputation of being a wise-cracker, a smart guy, a play-boy Down underneath I have a deep, abiding affection for the city. This New York of today is not the greatest New York I have known. It started to decline when it lost its neighborhood spirit."

To be afraid is the miserable condition of a coward. To do wrong, or omit to do right from fear, is to super-add delinquency to cowardice. —D.D. Field.

## *Alleged* WIT

Be wiser than others— but don't tell them.

—o—

Father—Sonny, why don't you get the habit of going to the dictionary when you want to know how to spell a word.

Sonny — I do sometimes — but somehow the dictionary always has it wrong.

—o—

Judge to the Prisoner—Take your choice: Ten dollars or ten days.

Prisoner — I'll take the money, your honor.

—o—

Our fathers sought to give credit where credit was due, but this generation seeks to obain credit where credit is obtainable.

—o—

Conjurer—Now, sir, you hear your watch ticking inside this handkerchief. Are you satisfied?

Spector—I'm more than satisfied; I'm amazed; that watch I gave you hasn't gone for six months.

—o—

When a man is a bridge widower and his wife is a golf widow they ought to get along pretty well when they see each other.

—o—

Mother—Aren't you sorry you bit Mary?

Son—Yes, I hated the taste.

—o—

Regular loafers find that time hangs heavy because there are not so many busy workmen to watch.

—o—

Customer—I suppose you are your own boss?

Barber—No sir, I'd give anything to be single again.

—o—

**A Request**

All I ask is just enough of happiness and pain,
Enough that I can realize the worth of sun and rain;
For when both come into life may I real courage show,
And meet them wisely, unafraid, no matter where I go.

—o—

Mrs. Clark—Has your husband given up golf?

Mrs. Foster—Yes, but he still uses the language when changing tires.

—o—

Ho-hum says he has stopped his subscription to the funny papers until the women's new style hats go out.

—o—

The dear old soul watched the cowboy dexterously swinging his lasso on the grounds of the circus.

"Wha a long rope!" she said at last. "What do you use it for?"

"Waal, lady," he drawled, "when I'm out west on the ranch I use it to catch cows."

"Catch cows?" she echoed. "How very interesting. Tell me, what do you use for bait?"

—o—

We would be able to accomplish more things of value if we wouldn't scatter our forces too much. Too many scattered interests, too many diversions, make for make-shift work which can be nothing but mediocre.

—o—

Mrs. Cattermole— I believe I won't keep my rubber plant any longer.

Mrs. Gingerpop—Why, I think it looks very nice.

Mrs. Cattermole — Yes, but I've had it two whole years and it hasn't raised a single pair of rubbers yet. I don't believe it is going to bear.

—o—

"Drink," said the Negro preacher, "is the greatest curse of the country. It makes you quarrel with yer neighbor; it makes you shoot your landlord, and it makes yer miss him.

—o—

Life is what we make it, but it salves our feeling to blame it on somebody else.

## *Dominions Sent Invitations To The Coronation*

LONDON, Eng.— Invitations to the premiers of Canada, Australia, New Zealand and South Africa to attend the King next May are being despatched by the Duke of Norfolk, Earl Marshal.

This is in accordance with the statute of Westminster, which gave the Dominion Parliaments the right of direct access to the Sovereign.

The Dominion Prime Ministers who attend the ceremony on May 12, in Westminster Abbey, therefore, will be taking part at the Coronation in a new historic role as representatives of the peoples of entirely self-governing Dominions.

## For Backache Kidney and Bladder Trouble

Stop Getting Up Nights and Feel Younger

Here's one good way to flush harmful waste from kidneys and stop bladder irritation that often causes scanty, burning and smarting passage.

Ask your druggist for a 40-cent box of Gold Medal Haarlem Oil Capsules — a splendid safe and harmless diuretic and stimulant for weak kidneys and irritated bladder.

Besides getting up nights, some symptoms of kidney trouble are backaches, puffy eyes, leg cramps, and moist palms, but be sure to get GOLD MEDAL — it's the genuine medicine for weak kidneys — right from Haarlem in Holland.

## *Proof*

*"Lessons are wonderfully helpful and inspiring."*

*"I have been able definitely to change the habit of—."*

*"You are a great help and I hope it is given me to measure up."*

*"Results are wonderful."*

We could quote from many more letters, but the above extracts are proof that others are being helped. If others, WHY NOT YOU?

Give that mind of yours a chance. Write today for particulars of an intensive course of mental training.

**WHY FEAR MOTHERHOOD?**

THE period in a woman's life just before her child is born need not be a time of illness and anxiety. At such a time it is essential that good health and good spirits be maintained. The tonic effect of Dr. Pierce's Favorite Prescription nourishes and strengthens the body of the expectant mother, which means, of course, that it is also strengthening the child. Also for girls growing into womanhood and for women in middle life going through the "change," "Favorite Prescription" is just the vegetable tonic needed. Buy now!

New size, tablets 50c., liquid $1.00 & $1.35.

**STOP Itching TORTURE** *In A Minute*

For quick relief from the itching of eczema, blotches, pimples, athlete's foot, scales, rashes and other skin eruptions, apply Dr. Dennis' pure, cooling, antiseptic, liquid D. D. D. PRESCRIPTION. Its gentle oils soothe the irritated skin. Clear, greaseless and stainless—dries fast. Stops the most intense itching instantly. A 35c trial bottle, at drug stores, proves it—or money back. Ask for D. D. D. PRESCRIPTION. 28

## SCOUTING Here · There Everywhere

*A brother to every other Scout, without regard to race or creed*

It is expected that 6,000 Scouts will represent the British Empire at next summer's Fifth World Boy Scout Jamboree in Holland.

1,000 Montreal Scouts were present at the football game between McGill and Royal Military College on a recent Saturday, as guests of the Athletic Board of McGill. They paraded into the stadium headed by the Vickers' Scout band and were reviewed by Principal A. E. Morgan of the University. At "half-time" a 15-minute display was given by a number of the Scout troops.

Flags of the 1st Kingston Scout Troop were recently dedicated at a Sunday morning service in St. James Church, by the rector, Rev. Dr. J. D. Mackenzie Naughton. The troop was present in a body under Scoutmaster Albert Thompson. Following the service Dr. Naughton, as President of the local Scout Association, inspected the troop.

Four hundred Cingalese Wolf Cubs (junior Scouts) assembled for a Cub field day on the estate of Sir Francis and Lady Tyrrell, in Ceylon, and performed episodes from Rudyard Kipling's "Jungl eBook"

Illustrating the value of a knowledge of first-aid the following letter was received by the Editor of the Nottingham (England) Journal:

Sir,—The value of a knowledge of first-aid is not appreciated until the time arrives when it is most needed. On August Bank Holiday, Tuesday, I, with my family, had a day trip to Sandown, Ilse of Wight. While waiting at the pier steps to catch a return boat to Southampton, we observed an aged lady who had the misfortune to stumble, her leg slipping between two iron steps. She received a very severe cut behind her knee. There were at least 70 people waiting to catch the boat and not one had any knowledge of first-aid. The poor lady had to await the arrival of the boat fifteen minutes later before efficient help was forthcoming. All this time her leg was bleeding profusely, bathing towels which had been wrapped round her leg being saturated with blood.

When the steamer arrived there were calls for a doctor, or anyone with first-aid knowledge .Of at least 200 people on board only one stepped forward, and he was a Boy Scout. He did the job well, and the lady was taken to hospital. I envied that Boy Scout's knowledge and efficiency.—W. B. Nottingham.
