(Last week's Items)

A number of friends and neighbors gathered at the home of Mr. and Mrs. Wm. Nicholls and spent a very enjoyable evening, Friday. The following address was read: Mr. and Mrs. Nicholls: Dear friends and family: We, your friends and neighbors have gathered here to spend another pleasant time with you and to show in a very meagre way our appreciation of your sojourn with us the past few years. Although you are still not far distant you will be having new friends and neighbors and we feel sure they will always find you as we did, willing to lend a helping hand at any time, especially in time of sickness and trouble. We are greatly pleased that we will still see your pleasant faces and cheery smiles at Mount Zion Church, as there you would be greatly missed.

As a token of our esteem we ask you to accept this purse, and we trust God will richly bless you with health, happiness and prosperity.

Signed on behalf of your friends and neighbors: Elmo Stevens and Fred Taylor.

Mr. Nicholls replied, thanking the many friends. The evening was spent in dancing and music.

Make No Mistake This Year—

Start Your Chicks on Startena!

This year when every chick you raise means twice as much profit as it did four or five years ago, the Purina Research Laboratories announce one of the most outstanding developments in the history of chick feeding —the discovery of Pur-a-tene.

What is Pur-a-tene? It's the concentrated goodness that's in many fresh vegetables and fruits. Scientists call it carotene or pro-vitamin A. Poultrymen see it in bright red combs, smooth plumage, added life and vigor. Purina Startena has been known for years as Canada's finest starting feed. Now it is made even better by the addition of Pur-a-tene.

Don't take chances this year. Start your chicks on Startena and get the kind of chicks you want at six weeks. See us today for a supply of Startena!
