BEWARE!

ALL who want Axes of the real COLLINS & Co. make should be particular to notice the stamps, as there are various counterfeits and imitations stamped Collins and labelled much like ours, which are fraudulently sold in some parts of the United States as our manufacture. They are made in different parts of the country by various axe-makers, and are generally their poorest quality. The genuine Collins axes, which have acquired such an extensive reputation, are invariably stamped "COLLINS & CO. HARTFORD," and each axe has a printed label with my signature. It is now more than TWENTY-FIVE YEARS since we commenced the business with the stamp of "Collins & Co., Hartford," and I do not know of any other axe-maker by the name of Collins in the United States.

JOHN MILLER & CO.
Kingston, Aug. 1, 1854

For Sale or to Rent.

THAT valuable property, the Picton Steam Mill, with Wharf and Storehouse, capable of storing 20,000 bushels of grain. The Mill has 3 run of stones, with bolts and gearing in perfect order, capable of grinding 30 bushels of wheat per hour.—The boilers and engine are new, and in perfect running order. There is a supply of cord-wood on the premises, sufficient to grind 40,000 bushels of wheat. The property is advantageously situated at the mouth of the Picton Harbor, County of Prince Edward, and one of the finest wheat counties in the Province. There being no water power of any amount in the County for half the year, enhances the value of a Steam Mill very much.
The owner not being able to give his own attention, is desirous of selling or leasing it on fair terms. He would furnish a large quantity of wheat to grind during the year. If more desirable, he would sell half of the concern to good a business man or miller—the latter preferred—who would take the whole charge of the management of the Mill.
For particulars apply to the owner,

of Wellington, or to
