Mr. and Mrs. Henry Gordon, who have spent the winter with Mrs. John Haynes, have returned to Temple Hill.

Mr. Bill Flavin, spent the holidays with Mr. and Mrs. R. Chard.

Live Stock Report

Monday's supply of cattle proved to be too much for present requirements, with the result that prices were slightly lower on cattle of medium quality and heavy steers, while butcher cattle of choice quality, heifers and cows held steady. Reports from American markets were lower, which influenced the local trade considerably. On the other hand, the presence of export buyers for shipments of feeder cattle to the Old Country took care of quite a number of good cattle, weighing from 950 to 1100 lbs.

Choice heavy steers sold at from $8.00 to $8.50; fair to good from $7.40 to $7.90; common and medium $6.00 to $7.00. In the butcher section, choice handy weight steers and heifers sold at from $6.75 to $7.00; fair to good from $6.00 to $6.60; common and medium $5.00 to $6.00. Choice baby beeves were in good demand at from $7.50 to $8.00, others lower according to quality. Choice heifery cows sold at from $5.00 to $5.25; fair to good from $4.25 to $5.00; common and medium $3.00 to $4.00; canners and cutters $2.00 to $2.50. Milch cows and springers were very slow of sale. The bull trade was steady, choice light butcher bulls from $4.50 to $5.00; heavy bulls $4.00 to $4.50; bolognas $3.50 to $4.00.

The lamb market was active and strong, the major part of the offering being made up of Western feed lot shipments. Choice lambs sold at $10.50, with those of medium quality from $9.00 to $10.00. Choice light sheep at from $5.50 to $6.00. The calf market was slow and fully 50c lower. Choice calves selling at 9c; fair to good from $7.50 to $8.50; common to medium $5.00 to $6.50.

The hog market took a sudden turn and lower prices had to be accepted on Monday, sales being made on the basis of from $8.65 to $8.85 for truck deliveries. The outlook for the balance of the week does not look very good, but is expected that prices will hold steady with Monday's sales.

Make No Mistake This Year—

Start Your Chicks on Startena!

This year when every chick you raise means twice as much profit as it did four or five years ago, the Purina Research Laboratories announce one of the most outstanding developments in the history of chick feeding —the discovery of Pur-a-tene.

What is Pur-a-tene? It's the concentrated goodness that's in many fresh vegetables and fruits. Scientists call it carotene or pro-vitamin A. Poultrymen see it in bright red combs, smooth plumage, added life and vigor. Purina Startena has been known for years as Canada's finest starting feed. Now it is made even better by the addition of Pur-a-tene.

Don't take chances this year. Start your chicks on Startena and get the kind of chicks you want at six weeks. See us today for a supply of Startena!

A Brooder thermometer free with each purchase of Startena.
