50,000 Cures without Medicine, Inconvenience or Expense.

DU BARRY'S delicious REVALENTA ARABICA FOOD, saves 50 times its cost in other means of cure and is the natural remedy which has obtained 50,000 testimonials of cures from the Right Hon. the Lord Stuart de Decies, Archdeacon Stuart of Ross, and other parties, of indigestion (dyspepsia,) constipation, and diarrhœa, flatulency, biliousness, liver complaint, distension, palpitation of the heart, nervous headache, deafness, noises in the head and ears, excruciating pains in almost every part of the body, chronic inflammation, cancer and ulceration of the stomach, irritation of the kidneys and bladder, gravel, stone, strictures, erysipelas, eruptions of the skin, impurities and poverty of the blood, scrofula, consumption, dropsy, rheumatism, gout, heartburn, nausea and sickness during pregnancy, after eating, or at sea, low spirits, spasms, cramps, epileptic fits, spleen, general debility, asthma, coughs, inquietude, sleeplessness, involuntary blushing, paralysis, tremors, dislike to society, unfitness for study, loss of memory, delusions, vertigo, blood to the head, exhaustion, melancholy, groundless fear, indecision, wretchedness, thoughts of self-destruction, and many other complaints. It is moreover the best food for infants and invalids generally as it never turns acid on the weakest stomach, but imparts a healthy relish for lunch and dinner, and restores the faculty of digestion, and nervous and muscular energy to the most enfeebled.

PRACTICAL EXPERIENCE OF DR. GRIMSHAW'S CONSUMPTION.

Maple-cottage, 16 Sep., 1853.

My wife, having suffered for years from a pulmonary complaint, became so ill at the beginning of this year, that I looked daily for her dissolution. The remedies which hitherto had relieved her remained now without effect, and the ulcerations of the lungs and night sweats debilitated her fearfully. It was in this extremity the last and hopeless stage of pulmonary consumption, when every Medicine remained powerless to even allow any temporary relief—that I was induced by a medical brother from Hanover, who cures pulmonary consumption by special study, and treats it with Du Barry's Revalenta Arabica, to try this strengthening and restorative food, and I am happy to be able to express my astonishment at its effects. My poor wife is now in a perfect state of convalescence, she was, amelioration in her favour set in at once, and quite happy. It is with pleasure and the most sincere gratitude to God for the restoration of my wife, that I did not delay of making the extraordinary efficacy of Du Barry's Revalenta, in so painful a complaint, known; and to recommend it to all other sufferers. C. G. T. M. D.

CERTIFICATE FROM DR. GUETHER.

Zurich, 3rd September, 1853.

I have tried Du Barry's Revalenta Arabica for a complaint which had hitherto resisted all other remedies—viz.: CANCER OF THE STOMACH; and I am happy to say, with the most successful result. This soothing remedy has the effect, not only of arresting the vomiting, which is so painfully distressing in cancer of the stomach, but also of restoring perfect digestion and assimilation. The same satisfactory influence of this excellent remedy I have found in all complaints of the digestive organs; it has also proved effectual in a most obstinate case of habitual flatulence and colic of many years standing. I look upon this delicious Food as the most excellent restorative gift of nature.

DR. GUETHER.

Plymouth, May 5th, 1851.

For the last ten years I have been suffering from dyspepsia, headaches, nervousness, low spirits, sleeplessness, and delusions, and swallowed an incredible amount of medicine without relief. I am happy to say that your Food has cured me, and I am now enjoying better health than I have had for many years past.

J. S. NEWTON.

Devon Cottage, Bromley,
Middlesex, March 31, 1849.

GENTLEMEN,—The lady to whom I ordered your food is six months advanced in pregnancy, and was suffering severely from indigestion, constipation, throwing up her meals shortly after eating them, having a great deal of heartburn, and being constantly obliged to have recourse to physic or the enema, and sometimes to both. I am happy to inform you that your food produced immediate relief. She has never been sick since, had no more heartburn, and the functions are more regular, &c.

DR. WURZER'S TESTIMONIAL.

Bonn, 19th July, 1853.

This light and pleasant Farina is one of the most excellent, nourishing, and restorative remedies, and supersedes, in many cases, all kinds of medicines. It is particularly useful in confined habit of body, as also in diarrhœa, bowel complaints, affections of the kidneys and bladder, such as stone or gravel; inflammatory irritation and cramp of the urethra, cramp of the kidneys and bladder, strictures and haemorrhoids. This really invaluable remedy is employed with the most satisfactory result, not only in bronchial and pulmonary complaints, where irritation and pain are to be removed, but also in pulmonary and bronchial consumption, in which it counteracts effectually the troublesome cough; and I am enabled with perfect truth to express the conviction that Du Barry's Revalenta Arabica is adapted to the cure of incipient hectic complaints and consumption.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

Family Physic!

There has long existed a public demand for an effective purgative Pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *Pill*, but not so easy to make the best of all *Pills*—one which should have none of the objections, but all the advantages of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of these produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them.—These *Pills* produce no irritation or pain, unless it arises from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins, for in truth, all these are but the consequence of diseased action of the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds, with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach and side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of season. An occasional dose stimulates the stomach into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than anything which has hitherto been available to mankind. When their virtues are once known the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

Being sugar wrapped, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

DAY-DREAMS.

TABLE OF CONTENTS.

PART I.

A Butterfly, in the very joyousness of existence, dreams of prospective pleasures amongst the fields and flowers of nature. [Page 7—11.] The clear blue Heavens of the silent night awaken thoughts more serious. [11.] Mind and external nature are interrogated respecting God. What is he? What the mode of his being? [12—18.] Geology or the wonderful volume of mysterious pre-historic nature is opened, and some of her strangest facts unveiled. [18—25.] Did things observe a progress? Do new origins require new direct interference? Or are things naturally consequent, and the laws of being infallible in their execution? [25—30] Our solar system, how? [31.]

PART II.

The great dumb past. [33—34.] Man viewed as an organized being, in his individual, domestic, social relations, [34—55, &c.] Self-love, affection, kindness, reverence, hope, imagination, intellect, conscience. Their harmonious and inharmonious interaction [35—47] The merely plausible, evanescent: the true, permanent. [48]

PART III.

Our organization wonderful in its details and adaptations to particular ends, [49—52, and Appendix, 146, 147]; but failing as a whole to achieve any grand result. [52—53.] Has this (read by the light of hope and goodness) any prospective *paintings*; or is all to end in apparent failure? [47—148 & 54.]

PART IV.

Why God may throw a veil of obscurity over the future [55—56.] Love of the true and good, the pabulum of genuine nobility of soul. [56—60] Thoughts on worship. [60—64.]

PART V.

How dark and fearful misgivings arise unbidden in the soul. [65—66] Cold material fate. Is the present the first and last act of the drama of existence. [66—70] Can it, must it be? [70—71.] What we may know: what we know not. [71—72.] What is our goal? Has nature no fixed guiding star? [72—73]

PART VI.

We know that *mind* is: is it equally certain that matter* is? [74,75] Yet shall we conclude mind perishable, matter eternal? [75.] What, if matter be merely a product of mind during the dominion of the senses [76]—If from the central Sun of *Spirit* the universe is spun, a web of *immaterial* being—the far-reaching lines of divine magnetism extending to the remotest outskirts of existence, embracing and controlling alike the atom and the mass—force communicating itself to the central ruling orbs of the star firmaments and to all particles of their volumes—the heart-force, through each ganglion, to the minutest portion of each nerve. [77—82.]

PART VII.

Events, in the external and internal worlds, the results of adequate causes. [83, 91.]

PART VIII.

Idealism. [92, 93.] Argument from dreams, hallucinations, illusions, &c., biology, the phenomena of reflection [93—103], the color and shape of the *media* of vision. [120] How mind creates her wonders—the azure heaven with her diadem of stars painted on the sense-retina. [104, &c.] Life *one* diversifying herself into lives many of myriad forms of beauty. [110—120.] Knowledge whence? [121.] Death frees the soul from the lordship of the senses.

PART IX.

No *Space*. [125, 126.] No *Time*. Past, Present, Future, creatures of the senses.—[126.] How conceived. [129, 132] Conclusion of Idealism. [132, 134.]

* Idealism, as a system of philosophy, in its bearings on immortality and generally, poetized.
