PRICEVILLE

The April meeting of St. Columba W. M. S. and W. A. was held on April 21st at the home of Mrs. J. C. Harrison, because of the storm only 12 were present. Mrs. Ritchie presided and led in a short worship service. Mrs. McKinnon read of progress being made in the cause of Temperance in our province. Miss L. Mather gave an interesting study of phases of our foreign missions. Plans were made to contribute clothing for a small boy, through the annual W. M. S. bale. Quilts are also being made and donations of good used clothing are asked for. During the W. A. part of the meeting, Miss Edith James was in the chair, and general business was discussed. It was decided to invite a group from a neighboring centre to put on a play early in May. This will be announced later. Mrs. McBride invited the society to her home for the May meeting. A dainty lunch was afterwards served by the hostess and assistants.

The home of Mr. and Mrs. C. A. McLean was brightened last week end by a visit from their sons, Alex. and Innis, from Toronto, and their daughter-in-law, Allan McLean and little boy.

The Sacrament of the Lord's Supper will be held on May the 2nd, in St. Columba Church. A good turn out is expected as usual.

The continued five days south east wind has had the effect of drying the roads very well, until the end of the week, then rain again.

Electric light wiring has been completed by Mr. Chas. Saunders of Durham (an expert in his line), of the fine house of the Misses James. The climbing of poles by him, is all that is now necessary, when erected.

The recent wind storm made necessary to hunt in the dark for the old coal oil lamp, when the lights went out. No easy job.

Tommy: ',Pop, what's a kangaroo?"

Papa: "Just an attempt of nature to produce a safe pedestrian."

Mussolini is reported to have cancelled a football match which was to have been played between Italian and French teams in France. Presumably the Duce wants to do all the kicking himself.

The high winds last week felled the big spruce tree on No. 10 Highway across from the school corner. Under this tree and its mate, which suffered a similar fate in years gone by the pupils of S. S. No. 4 played fought or waited for teacher, to see who could first catch her hand and walk to school with her. From its trunk many a chew of gum has been cut, to later be deposited in the stove by the teacher's heartless command. If trees such as these could write books, they could tell of the childish ambitions which were devulged beneath its branches. Many a grey headed man or woman who played there as a child has passed on and the tree still stood. But now the pupils of S. S. No. 4 will know it no more.

Last Tuesday evening, Chas. Moore and son Ted, were trying to start their car, the vacuum tank was empty and not having any extra gas, they attempted to draw it out of the supply tank, Ted was on his back under the car when a half gallon can became full, Chas. reached over and pulled the hose away, spilling gas as it went. As it passed a lighted lantern, flames shot out, igniting the gas which had been spilled. Ted managed to roll out of the garage with his right arm on fire. Charlie had to rush through the flames to get out. But luckily no gas could have been spilled on his clothes. He smothered the flames on Ted's arm with his overcoat, but not before it was quite seriously burned. All this time the flames weer burning merrily around the car. The half gallon of gas was upset and burning. It looked wild for some time, but was eventually smothered out with wet rags. That more damage was not done is a miracle as the tires were flaming, the back of the car is charred and even the hose going into the gas tank was badly charred. Ted is under the Doctor's care and it will be sometime before he is able to use his arm.

The roads are very bad just now. It is nearly impossible for cars to get to the highway. Those who do attempt to get out with their cars nearly all get stuck and have to have help to get out.

but . . . . . is it?

With your car safely in the garage, seems as though you are prepared for anything that can happen. Don't even need a telephone any more.

BUT . . . ARE YOU CERTAIN?

Sickness, fire, accident, whatever it may be — and some of these things come occasionally to all of us — is your car *quick* enough, *sure* enough? Maybe the roads are blocked. . . . Maybe a tire is flat . . .

In emergency what you need most is a TELEPHONE. Don't wait for something to happen to find that out!

NEW LOW RATES for farm telephone service are now in effect!
