Every man should keep a good size graveyard in which to bury the faults of his friends.

Then there's the one about the man who bought a business from five Jews and sold it to seven Scotchmen, at a profit!

Alturian dynamite-throwers are reported to have interrupted Spanish rebels in their Monday's washing. That's the worst of war it does rather interfere with household routine.

Don't Send Leek Flavored Cream

Grading of print butter, which went into effect last fall, will not enable us to accept leek flavoured or off-grade cream. We, therefore, wish to announce that this grade of cream cannot be accepted from now on, to be manufactured into butter.

The production of leek flavoured cream can be prevented by keeping the cows out of pastures where leeks grow. All cows do not eat leeks and leek flavoured milk from individual cows should be kept separate and not put through the separator.

THE STRANGER WITHIN OUR GATES

Very soon now the northward flow of tourists will begin, and many strangers will be seen on our streets. They will be asking for information, directions, and what not. Their impressions of the town and its people will be formed through casual contact with a few individuals.

Therefore, if we would have these visitors go away boosting Flesherton. it behooves every citizen to assume some personal responsibility in showing courtesy to the stranger, and extending a friendly welcome. It costs nothing, and is good business for the community.

It is much to be regretted that the system of accomplishing the art of a trade by means of apprenticeship seems to have dropped from the present day rush of materialistic gain. One reads so much of unemployment and the youth of our day not being able to earn a living. Years ago a boy entered a business firm as an apprentice and for a pittance remained in that firm as an apprentice and for a good many years; but he was learning

Figure This One Out

"I'll tell you how it is," said the sad-looking young man as he finished his beer. "I met a young widow with a grown-up daughter, and I married that widow.

"Then my father met our stepdaughter and married her. That made my wife the mother-in-law of her father-in-law, and made my stepdaughter my stepmother, and my father became my stepson. See?

"Then my stepmother, the daughter of my wife, had a son. That boy was of course, my brother, because he was my father's son, but he was also the son of my wife's daughter, and therefore, her grandson. That made me grandfather to my stepbrother. Then my wife had a son..

"My mother-in-law, the sister of my son, was also his grandmother, because he is her mother's child. My father is the brother-in-law of my child, because his step-sister is his wife. I am the brother of my own son, who is also the child of my stepmother. I am my mother's brother-in-law, my wife is her own child's aunt, my son is my father's nephew and I am my own grandfather, and I can't stand it!"
