UNUSUAL COINCIDENCE

An unusual coincidence came to light last week in connection with the death of Harrison R. Fell, well-konwn Guelphite who passed away recently. The late Mr. Fell was passionately fond of a dog which he had owned for about five years. Recently a friend was talking to him, and during the conversation, Mr. Fell, remarked that he was not feeling too well. Said Mr. Fell: "I feel that I am not going to live much longer," as he looked down at the dog curled at his feet, "and when I go I have a feeling that the dog will not be long behind me." Mr. Fell died on Monday. The dog died the following day.

Opportunity doesn't knock around with the other knockers.

but... ask your friends.

You'll be surprised at the number of people who really want you to have a telephone. Many of them don't even know you but they're interested nevertheless because of what *your* telephone means to *their* service. Too few telephones curtails service and the value of each individual instrument as well. The more telephones in service, the greater the value to each user. From the viewpoints of both service cost and service scope, every farmer is interested in seeing that every other farmer has a telephone.

NEW LOW RATES
for farm telephone service are now in effect!
