THESE HUSKY

GOODYEAR

TIRES WILL KEEP YOU GOING

LUG TIRES For TRUCKS And BUSES

● All "bad road" driving of truck, bus or tractor calls for Goodyear Lug Tires. They go through deep snow and mud with ease and security. Sturdy, deep, diagonal cleats to bite in—to find their own traction—to keep on rolling. Less slipping and sliding than with ordinary tires.

No need to worry about skiddy, sharp turns, narrow, greasy, high-crowned country roads. Goodyear Lugs take them all in their stride. Their safe, sure traction saves time, gas, oil and nerve strain.

STUDDED For PASSENGER CARS

● Goodyear Studded Tires on your passenger car will save you nerve strain in off-the-pavement driving. They'll save you gas and oil, too, because they give sure traction.

Deep snow and mud that stop-up ordinary tires are easy for these new Goodyears. In soft ground or greasy ruts, they keep you moving truly and safely. Avoid the hazards of tough going on ordinary tires—if you are one whose duty takes you into the mud and clay of unimproved roads, put Studded tires on your car.

Get ready for the "bad road" season that lies ahead, drive in and let us put new Goodyear "Lugs" or "Studs" on your car, truck, bus or tractor now.

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

FEVERSHAM

Mrs. E. Hawton, assisted by Mrs. Springgay, entertained at a dinner on Friday evening in honor of Mr. and Mrs. George Sled (nee Marion Hawton), who returned Friday morning, after spending the past week on a motor trip through the Ottawa and St. Lawrence Valleys.

A number of farmers have moved back from the dried-out parts of Saskatchewan, west of Weyburn. Mr. and Mrs. Kibenski, with a family of three sons and five daughters, tell of some great hardships as they had kept on hoping for seven years. The drought and grasshoppers beat a lot of people. Mr. Kibinski has taken the 200 acre farm belonging to Mr. Eli Robinson, just one and three quarter miles west of here. Mr. George Saigeon of Forward, Sask., has rented a 100 acre farm belonging to Mr. Jas. Thomson, across the road from Mr. Kibinski and Mr. Thornton Pallister has taken the McIntyre farm, about five miles south of here. Mr. Palister and Mr. Walter Saigeon are natives of Osprey and moved from here about 25 years ago. They are all coming back well equipped for farming, as Mr. Kibinski and Mr. Palister have about 12 or 13 horses each and Mr. Saigeon has a tractor. We hear of some more families who intend moving back here, who went west some years ago.

Miss Annie Robinson of the G. & M. hospital nursing staff, Collingwood, has been at her home here for some days on account of the sickness and death of her grandmother, whose Mr. E. Robinson, on Thursday, Nov. 11th, about 11 o'clock p.m. Mrs.

A number of people from here attended the shower and presentation to Mr. and Mrs. George Sled at Maxwell on Friday evening, Nov. 12th.

Mr. Chris. Thomson is visiting his brother, Jack, near Agincourt, in Scarboro township.

Mrs. J. Robinson Dies At 94 Years of Age

One of the largest funerals ever seen here was that on Sunday afternoon of Mrs. John Robinson, who passed away at the home of her son, Mr. E. Robinson, on Thursday, Nov. 11th, at about 11 o'clock p.m. Mrs. Robinson was the daughter of Mr. and Mrs. Robt. Brown, early settlers on the 10th line of Osprey, about a mile west of the village. She was born in Hull, England, and came to Canada with her parents when she was eight years old. They landed at Quebec after seven or eight weeks on a sailing vessel coming across the Atlantic. They went to Toronto, where her father worked for some time at his trade of blacksmithing, and after a short time in Orangeville, moved to a farm in Osprey Township.

The funeral service was held in the Gospel Workers' church here, conducted by Rev. F. Dean and Rev. McIlroy. The remains were laid to rest in Bethel cemetery beside her husband, and near her old home.

Owing to ill health Mr. Thomas Wyvill, the 78-year-old mail marrier of Proton Station, has been forced to relinquish his job. His daughter, Mrs. E. Lyons, is acting mail carrier at the present time. WIRE BASKET FOR EGGS

One of the requirements for membership in the newly organized Ontario Poultry Farm Egg Producers is that the eggs be gathered and cooled in wire baskets. There's a reason. The keeping quality of the egg is greatly improved by rapid cooling. In a test it was found that eggs gathered in wooden pails had a temperature in five hours of 82 degrees and in ten hours of 65 degrees. Eggs gathered at the same time in wire baskets had a five-hour temperature of 67½ degrees.

Wire baskets for egg collection are now in almost universal use on commercial egg plants in the New York and Boston areas. Wire baskets are now manufactured and sold by poultry supply firms. A very satisfactory basket can be made with sides of wire netting with hanf-inch mesh Screw a spool under the bottom corners so that the air can always circulate up through the eggs.

IN MEMORIAM

DOUPE — In loving memory of our dear husband and father, Charles Robert Doupe, who departed this life on November 7th, 1936.

I little thought when he retired
He would no more return,
That he in death so soon would sleep
And leave us here to mourn.

I did not know the pain he bore,
I did not see him die;
I only know he passed away
And did not say good-bye.
Sadly missed, but ever remembered.

Card of Thanks
