GUNN'S
DERBY CONDITION POWDERS FOR HORSES AND CATTLE.

THESE POWDERS are the result of actual and long-continued experiment, are prepared with the utmost care from the very best material, and are guaranteed vastly superior to anything known.

They are pure, safe, and harmless; remove all unhealthy obstructions, cleanse the system, restoring the appetite, health, and renewed animation to the whole body, and give a bright glossy appearance to the coat.

In order to prove their superiority to all other powders in use, all that is asked is a fair and impartial trial. Let each owner of a horse then test the qualities of these powders, and act upon his convictions of their usefulness.

TRANSIENT ADVERTISEMENTS.—The large circulation of the DAILY NEWS renders it the natural medium for the publication of all small and transient advertisements, as well as larger announcements. Advertisements of religious notices and Sabbath services; situations wanted; situations vacant; houses for sale; houses to rent; houses wanted; board and lodging; rooms wanted; board wanted; articles lost; articles found; cattle wanted; cattle for sale; cattle strayed, &c., when set close, inserted for 25 cents each insertion, payable only in advance. When displayed, a proportionate price will be charged.

EFFECT OF ADVERTISING.—It is amusing at times to observe the stores of the merchants who don't advertise; to see the anxious proprietors looking into the streets and see the people go by, wondering why they don't come in, while the stores of their neighbours who do advertise are thronged with customers. Some people will learn by observation, others will not.—*Daily Palladium.*

ART OF ADVERTISING.—Horace Greeley, of New York, says:—The most successful business men in this city are those who have advertised liberally and constantly. A small advertisement constantly appearing is better than a display column occasionally.

TO PHYSICIANS.

New York August 15th, 1867.

ALLOW me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.

Buchu in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement by liquor obtained from Juniper Berries, containing very little sugar, a small proportion of spirit, and more palatable than any now in use. The active properties are by this mode extracted.

Buchu, as prepared by Druggists generally, is of a dark colour. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the colour of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exists. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favour it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,

Chemist and Druggist of 16 years' experience in Philadelphia, and now located at his Drug and Chemical Warehouse, 594 Broadway, New York.

[From the largest Manufacturing Chemists in the World.]

"I am acquainted with Mr H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favourably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,

Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU,

For weakness arising from indiscretion. The exhausted powers of nature which are accompanied by so many alarming symptoms, among which will be found Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil; in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The Constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which

HELMBOLD'S EXTRACT BUCHU

invariably does. If no treament is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT BUCHU,

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus, and all complaints incident to the sex, whether arising from habits of dissipation, imprudence in, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH

will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

Use HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odour, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by all Druggists everywhere. Price $1,25 per bottle, or six bottles for $6,50. Delivered to any address. Describe the symptoms in all communications.

Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N.Y.

None are genuine unless done up in steel-engraved wrapper, with fac-simile of my Chemical Warehouse, and signed

Mrs Winslow's Soothing Syrup.

Rev. Sylvanus Cobb thus writes in the Boston *Christian Freeman*: We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.

Sold by all druggists. 25 cents a bottle.

THE AGRICULTURAL ACCOUNTS.

LETTER FROM MR WHITE TO THE PRESIDENT OF THE BOARD.

Toronto, 9th Jan. 1868.

To the Honourable David Christie,
President of the Board of Agriculture.

SIR,—Your statement before the Board of Agriculture on Thursday last, published in the *Globe*, in which I am honoured with some share of attention, ought to have been noticed by me sooner, had other duties not intervened. I propose to-day, late as it is, with your permission, to call your attention to certain circumstances which appear to have escaped your notice, but which, in the public interest, it is important should not be lost sight of.

Near the close of your statement, growing eloquent under the sense of injury under which you laboured, you are reported to have said of my report and myself:—"There could not be more damning evidence of falsity of the report than this which he had presented, and he felt he did not speak too strongly when he used the language. It was difficult to see how a man could deliberately make a report so easily capable of confutation, and now so triumphantly confuted."

That is tolerably strong language, Mr David Christie. Let me inquire, for a moment, how far you were justified in using it. You are not singular in the blunder of confounding these matters in my report which I have ventured to state of my own knowledge, and upon my own responsibility, and those portions which I have stated on the responsibility of others. But the distinction is one which must be made, and it may as well be made at this point as elsewhere. My statement, in reference to the bank account, was given on the authority of your Treasurer—with his denial, I will deal further on. I nowhere, in my report, have made the statement on my own responsibility, and of my own personal knowledge, that there was no bank account. What I did state of my own personal knowledge was—

1st. That on the 30th November last there was a balance in the Treasurer's hands amounting to $12,047 76.

2nd. That down to the date of my report, or rather to the 17th December, which was the day upon which I obtained the statement of those payments from Mr Denison, there had been paid a sum of 1,108 76 for which vouchers to the amount of $141 66 had been produced.

3rd. That having ascertained the balance which the Board should have at its credit, I wrote to Mr Denison asking to be permitted to examine his bank book, and to be informed of the manner in which the bank accounts of the Board had been kept; and that I was not furnished with the bank book, nor was any information afforded to me of the manner in which the account has been kept.

4th. That the large balance which, by the accounts, appeared to the credit of the Board, is not available in cash; but that Mr Denison is willing to give any security that may be required from him.

5th. That the Board, while a large balance appeared by the books to their credit, were borrowing money from the bank, paying large sums by way of interest on renewals, and I ventured, on this point, the suggestion that, inasmuch as the necessity for borrowing money arose out of the default of the Treasurer, the Agricultural Societies ought not to be charged the interest, but that it should be made a charge upon the Treasurer personally. I have looked in vain through your statement, Sir, for any expression of opinion from you on this point.

6th. That the audits which the accounts have undergone in the past have been practically valueless.

Now, sir, these are the substantial allegations of my report. They are the allegations in which the farmers of Ontario feel an interest, for to them it must be a matter of supreme indifference whether there was a bank account or not, seeing that the Association was not in the Bank. These are allegations which you have passed over almost without remark, your indignation—that is such indignation as one so dignified can muster—being expended on the minister who ordered the investigation and the unfortunate individual who made it, and whose report has "surprised"—that's your word—you into the knowledge of the fact that the Board had no funds, when it should have had thousands of dollars lying with its banker. Think you, that with every single fact of my report stated upon my responsibility thus sustained, you were justified in using such naughty language as "damning evidence of the falsity of the report?"

Four-fifths of your statement is devoted to proving that there has been a Bank account. With that fact permit me to say I have nothing to do. The only question which concerns me is whether Mr Denison made the statement to me that there was no bank account, and with that I now propose to deal.

As stated by me, having examined the accounts of the Board and checked them with the vouchers, I proceed to what I considered the next step in the inquiry. It never occurred to me, while checking these vouchers, that there was no Board account with the Bank. But I did expect that when that account came to be examined, it would be found that the large balance which ought to be at the credit of the Board would be found wanting; and I based that suspicion upon the fact that the Treasurer, when the statements of accounts came to be demanded, had put in a claim for $6,338 for back services extending over fifteen years. You, sir, did your best to get that amount allowed, knowing—as I venture to affirm that did know, or you are more stupid than your bitterest enemy would give you credit for being—that there was a large deficiency which this sum would do something towards reducing. You were willing to rob the farmers of Ontario of this large amount of money, in order that your own gross carlessness and your Treasurer's mismanagement—to use a mild expression—might be concealed from the public view. I wrote Mr Denison on the 15th, asking information upon a number of matters which had occurred to me in the examination of the books and accounts, and in the seventh paragraph of that letter which I quote in full, I said:—

"I should be glad to receive from you a statement in detail of the receipts of the present year; and I beg also to be permitted to examine your Bank book, and to have
